Vol. IV, No. 6

SANDIA CORPORATION, ALBUQUERQUE, N. M. MARCH 14, 1952

THEY KNOW A SECRET! Members of the judging committee in the "Name the Room" contest relax in the (?) room at the Coronado Club after selecting the winning name. Reviewing the room prior to its formal opening at 10 p.m. tomorrow are from left to right, Bob Dill, 2452, chairman of the judging committee; Marlene Bernitz, AEC; Goldie Hart, 2470, director in charge of furnishings and decorations, and Frank Gagliardi, 1243. In the foreground is the Coronado Club crest inlaid in attractive tile near the center of the new recreation room.

Prize Winner In Room Naming Contest To Be Announced At Dance Tomorrow

The long awaited opening of the new recreation room at the Coronado Club will take place tomorrow night during an intermission of the informal dance. David S. Tarbox, president of the Coronado Club will then announce the winner of the "Name The Room" contest and will present a \$25 gift certificate to the lucky member.

Bob Dill, 2542, chairman of the contest committee, reports that the committee had considerable difficulty in making a selection from numerous excellent suggestions submitted. Other members of the committee were Marlene Bernitz—AEC, Frank Gagliardi 1243, and Mrs. Goldie Hart, director in charge of decorations and furnishings, served as an ex-officio member of the committee.

The final session of the ballroom dance instruction course will be conducted next Tuesday evening with lessons in the Latin American dances. The instruction course has been well received and members who have attended are enthusiastic about arranging another course at a later date.

Arrangements are nearing completion for the Spring fashion show to be presented in connection with the buffet-dinner and dance Sunday, Mar. 23. A large crowd is expected and members who plan to attend will be wise to make reservations well in advance. Reservations should also be made for the Saturday night fried chicken buffet-dinner and dance Mar. 29. Happy Andrews will play for the occasion.

Dick Beckman, left, gets a farewell from his supervisor, Bob Cox.

Sandian Sets Sail

It's anchors aweigh for Dick Beckman, 3222, who left last week after enlisting in the Navy.

Dick has been working with us as a messenger for the past seven months. After graduating from high school he worked for a local auto repair firm for three months before coming here.

He was born in Quincy, Ill., but spent his childhood in Hutchinson, Kan., prior to moving to Albuquerque in 1941.

Wishes for the best of luck in the service follow him from his co-workers.

Engineers, Wives Will Dance Mar. 22

Chairmen of various engineering and technical societies in Albuquerque have announced that the second annual dinner-dance, sponsored by the Joint Council of Scientific and Technical Societies, will be Saturday, Mar. 22, at 8 p.m. at Sandia Base Officers Club.

Sandians who are chapter chairmen of the societies represented by the Council are: Don Taylor, 142, AIEE; Jerrie Durrie, 1122, ASTE; Tom Muzzev, 3124, ISA; Ted Church, 1134, IRE; Doug Ballard, 1512, ASM; Hilt DeSelm, 1310, ASME; and Harlan Kelsey, 1512, ASQC.

Tom Muzzev has been named temporary chairman of the central group of the societies which has been formed to coordinate the effort of the groups for a more efficient means of dissemination of scientific knowledge.

Ernie Schwam, 1321, has been named chairman of the entertainment committee which has charge of arrangements for the dinner-dance. Ernie Woods orchestra will play and the dance is formal or semi-formal.

Sandians Invited To Join Membership Of Little Theatre

An invitation has been extended to Sandia Corporation employees and their families to get acquainted with the Sandia Little Theatre.

If you have wondered how to become a member, or have wanted to be an actor or a stagehand, attend the get-acquainted meeting Monday night, Mar. 17. Glenn Pierce, executive director of the group, has announced that such meetings will be held monthly for interested old and new members.

The meeting Monday will be at the Sandia School gymnasium at 7:30. Coffee will be served and Jim Morley, director, will make a progress report on "Ladies in Retirement" which will be presented Apr. 4 and 5.

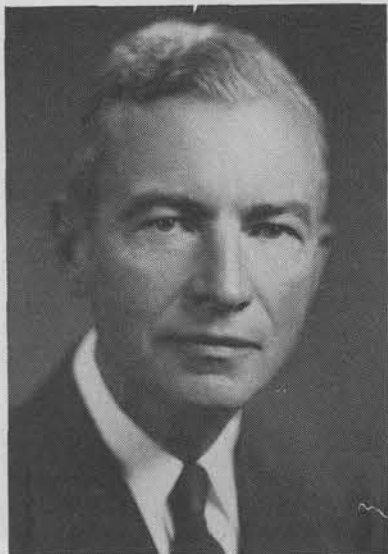

The Little Theatre group is a community project for Sandians and you are invited by members to visit Monday's meeting and get acquainted.

Radiation Labs In Britain, Sweden To Be IRE Topic

"A Visit to Radiation Laboratories in Britain and Sweden" will be the subject of a talk illustrated with colored slides by Dr. E. Dale Trout, technical adviser to the marketing manager of General Electric X-Ray Corp., before a meeting of the Institute of Radio Engineers on Tuesday at Los Alamos.

The lecture will be preceded by a banquet commencing at 8 p. m. at the Lodge. George A. Arnot, 5134, will arrange clearance into Los Alamos if he is contacted today or tomorrow. His base extension is 7137.

B. J. Bittner, 5412, IRE chairman, will preside at the meeting. Other Institute officers are George Arnot, secretary-treasurer, and Ned Wilde, 5414, assistant secretary-treasurer.

Donald A. Quarles

A Message from the President

In assuming the presidency of Sandia Corporation it is my good fortune to take my place on a team already capably discharging an important and difficult responsibility in the nation's defense program. My pride in joining the team is mixed with humility in the face of the job we are called on to do.

I am looking forward to the opportunity of meeting all of my associates in Sandia Corporation as soon as the pressure of work will permit. Meanwhile, I should like to call upon each and every one of you to continue your outstanding work in order that we may forge ahead to the goals set for us.

DONALD A. QUARLES

Illini Plan to Form Alumni Chapter

Alumni of the University of Illinois who work for Sandia Corporation are planning to join forces with former Illinois students in Albuquerque and form an alumni chapter of the University. Also, these Illini are studying the possibilities of forming a Big 10 alumni group in the city.

More than 70 former Illinois students met recently and saw pictures of their school's football team winning its second victory in the Rose Bowl.

Those interested in joining the Illinois group or in forming a Big 10 organization may contact Raymond C. Delicath, ext. 26160, or Frank Cronican, Alb. 5-4393. Social plans for the future include an organization banquet in April or May, a Big 10 picnic this summer and a Big 10 dance in the fall.

Here's One More Plea For Careful Observance of The Golden Rule

Jeff Gammon, 2331, has passed along to the Bulletin a few well chosen words about people who have no regard for another's property. Jeff bought a new car last week and while it was parked in the lot near building 800 someone inflicted a deep scratch the full length of the top, just above the doors. Apparently the damage was done by someone carelessly carrying a box between two cars at shoulder height.

Other reports of damage to parked cars indicate a lack of care and courtesy on the part of some drivers and their passengers. There are some who will tell you they've seen drivers of older cars take sadistic pleasure in banging a door against a gleaming new car next to theirs. We don't think that kind of people work here, but there's no doubt that a lot of hard feelings and incidental damage could be avoided if we'd all be careful.

Sandians In AEC Housing Give \$1000 To Red Cross Drive

Residents of the AEC housing area at Sandia have already turned in more than \$1,000 in the Red Cross fund drive, and more is expected.

Mrs. T. T. Robertson, who coordinated the residential solicitation, said the total will probably exceed \$1,100.

Employees who do not live on the Base and who have not been contacted at home by a Red Cross volunteer solicitor, should send their checks to:

Bernalillo County Chapter
American Red Cross
Albuquerque, New Mexico.

The Rio Grande May Act Up —

Sandia Radio Club Prepares for Spring Floods

In a CAP Exercise

Sandians in Albuquerque's Civil Air Patrol disaster units are giving serious thoughts to a threatened spring flood of the Rio Grande. The CAP is offering local officials trained personnel for communications purposes, levee protection, medical work, rescue tasks, transportation problems and the feeding of flood victims.

In a recent exercise scores of Albuquerqueans participated and one of the units which drew special praise for its work was the Sandia Base Radio Club, which played a vital part in the maintenance of mobile communications.

Using radio-equipped automobiles, the members of the club patrolled levees of the Rio Grande and simu-

lated conditions which might occur if the flood waters appear.

Aubrey H. Perry, state civil defense coordinator, is in charge of the rescue activities of the CAP.

The accompanying picture shows the Sandia Corporation and AEC employees, members of the Radio Club, who participated in the exercise.

SANDIA RADIO CLUB amateur operators posed for this picture before they swung into action recently to participate in "Operation Flood CAP." L to R, standing: Joe T. Knight, W5PDY, AEC; Jess D. Wright, W5QDW, 1521-1; Robert J. Seussel, W5WGW, 6121; H. H. "Pat" Patterson, W5DAH, 1131; Si Upson,

W5UXT, AEC; Ed Bales, CAP Group Commander, 2112; John H. Eckhart, W5CTG, 1621-1; Vincent Hanse, W5RVD, 2122-2; Robert Reed, W5MUS, 1621-2; Vaughn Nogle, W5TJT, 2126; Jack Holliday, W5PIZ, 1615. Kneeling in the foreground are two Albuquerque CAP members.

A Farewell Message

Before leaving Sandia to take up my new duties in New York City, I wish to take this opportunity to express my sincere appreciation to all Sandia Corporation people who have so capably assisted me since my arrival here in 1949. I am proud of Sandia's accomplishments and I have full confidence in its ability to meet even greater challenges in the future.

George Landry

The new president of Sandia Corporation, Donald A. Quarles, has been closely associated with the work of the laboratory since the Corporation was formed and having spent much of his time in our work is well-known to many of us. He is an outstanding engineer as well as an experienced executive and I am sure that the Laboratory will continue to progress steadily under his able leadership.

During the next few weeks I will be spending at least a portion of my time here, and as a director of Sandia Corporation I hope it will be possible for me to return to Sandia occasionally to renew the acquaintances I have here and to visit my many friends. Since it will not be possible for me to bid each of you a personal goodbye, I take this opportunity to say that it has been a privilege to work with you and to extend best wishes to each of you.

George Landry

Owner of 60 Pipes Has Own Theories On How to Smoke, Enjoy Them Most

Twelve years ago Charles Katzenberger, 4212, smoked his first pipe and since then he's accumulated more than 60 pipes and a firm set of convictions on their care and treatment.

Frowns on Filters

For instance, Charlie has his own theory about filters. He removes them. "A metal filter in a pipe causes more condensation," he says, "and chances are the pipe will get soggy too fast."

When he buys a new pipe the first thing Charlie does is sand down the inside of the bowl. "A lot of pipes are varnished all over, including the bowl. I get rid of that by rubbing it right down to the briar. Makes it easier to build a cake and gives you a better smoke right from the start."

Building a cake is a matter of principle with Charlie. At the rate he smokes—a can of tobacco every two days—it takes him about a week to cake up a new pipe. There are exceptions, though, notably a thick little briar he bought several years ago.

"It took me three years to build a cake in that pipe," he recalls, "I've never been able to figure out why it took that long, but it's a sweet smoking pipe now."

Making a Cake

The Katzenberger recipe for getting a cake in your pipe is compounded mostly of patience. After you've sanded out the bowl you pack just a little bit of tobacco in the bottom of the bowl and smoke it down to the ash. Leave the ashes in the bowl until your next smoke, then shake the loose ash out and start over again, this time using a little more tobacco. At the end of a week you're smoking a full pipe and your cake is well on its way. Charlie's collection is a varied

array of briars, cherrywoods, clays, and one or two he isn't quite sure of himself. He has several pipes from Europe, some he picked up over there during the war and some that were sent by friends. There's a bent stem briar with a horn bit that came from Sweden, two or three cherrywoods from France that Charlie's quite fond of—they give a sweeter smoke than most briars, he says—an Italian briar, a German peasant-type, and several briars from Belgium and England.

For all of his convictions about how to treat a pipe, Charlie has no system in his smoking.

"I should rotate them, I know, but I never do. Usually I'll pick up a pipe and smoke it for three days running, which is two days too many, before I switch to another one."

Charlie's pipes are as much a hobby to him as they are a pleasure, and since, like many pipe smokers, he doesn't inhale he feels it's a healthful hobby.

The mother of Mary Witcher, 3153, is visiting her from Hobbs, N.M. Mary's father, who is ill in the Veterans' Hospital here, is much better.

Sally Wood, 1223, is anxiously awaiting the orders that will permit her to join her husband in England. Elvira Antuna is learning Sally's job so she can take over when that happy day arrives.

A welcome is extended to June Kelly and Joan Adkins from personnel in 1922-2. June transferred from 2352 and Joan was previously with 4131.

Charles Rettinger, 2123-6, and family just returned from a week's vacation in Chihuahua, Mex. Four-month-old Manuel Ray was baptized in the Cathedral of Chihuahua while they were there.

"It's heaven," says Mrs. Edsel Gunn in reference to their new home on Finley Road. Edsel is in 2232.

There's a proud father in 2232. Ralph Hoobler's son, Harold, has just been sent to Officer's Candidate School after serving a year in Korea.

Frank Means, AEC, spent a very successful day fishing on the upper Rio Grande on this side of Taos recently. Frank says he not only caught the full limit but two game wardens besides.

Fellow employees welcome LaRue Bagget, AEC, back to work. LaRue, returning from a maternity leave, has a new daughter, "Mickey."

It was a case of the losers entertaining the winners in 3152 the other day when Molly Nason and Martha Brown took Wink Fellows and Pat Thrane to lunch at the Officers' Club. The "pay-off" was the result of the daily noon hour bridge battle.

After converting their garage to a rumpus room someone had to put the finishing touches inside so Pat Farley, 3153-1, is tackling the job. At present Pat is engaged in the mysteries of building floor-to-ceiling bookcases.

Employees of 2470 are glad to have "Matt" Torres back after a two-week illness.

Organization 4131 welcomes Amie Smith, transfer from 4222. Helen Swanson is taking over Amie's old secretarial duties in 4130.

R. E. Hopper, 2440, and Mrs. Hopper have proudly announced a newcomer to the family. The new arrival has been named Clarinda Lee.

Traditional candy and cigars were passed around in 1222 recently when Bill Barth became the very proud father of Gary Richard. Congratulations, Bill!

The sick list in 3150 for the last two weeks has included Jim Galbreath, 3153, Lila Ness, 3152, and Dan McCarthy, 3152-1. It's good to see them all up and around again.

The brand new parti-cocker belonging to Neil Hansen, 3152, is spoiled already. In spite of all resolutions on Neil's part he continues to sleep at the foot of the bed each night.

The household of Liz Wallick, 3152, is going to the dogs these days. Five spaniel puppies are part of the family now.

Leo A. Dunn, 1281, together with his family (wife and three children) has been in Washington, D.C., for the past two weeks. Washington is the home of both Leo and Mrs. Dunn.

Organization 2512 has put the "welcome mat" out on a wholesale basis for seven people reporting into the fold. They are: Leta Faber, transferring from 4222; Delia Stites, from 4222; Levaughn Doran, from 4222; Aileen Moore, from 4153; Mary Jean Lucas, from 1542; Charlene Hall, from 2224; and Texas Maupin, from 2544.

Congratulations to E. J. Smith, 2124-4, on his new addition to the family. Jim became the proud papa of a girl Feb. 13.

There is a proud new car owner in 2123-6. Cliff Taylor says there's nothing like an Olds "98" after trying his new auto out on a recent trip to Phoenix, Ariz., to visit his mother. Accompanying the Cliff Taylors were Jim Taylor, 2124-4, and his wife.

Mr. and Mrs. Anthony Repetti enjoyed the recent three-day holiday in Phoenix as did Walter Tillman. Tony and Walt are both in 2123-2.

There are two more new car owners in the 2120 group. Everett Cowan, 2124-2, is sporting a new Studebaker. Also H. Pyetski, 2123, is mighty proud of his new Mercury.

There's a big smile on the face of Samuel Thomas, 2452, these days. As of Feb. 22, Sam is the father of Charles Anthony Thomas. Congratulations, Sam!

A visit with his wife's family took J. L. Veeneman, 2126, to snowy Cincinnati, O., on his vacation.

Fellow workers in 2126 wish Orval Wallen a speedy recovery from the illness that has kept him at home for several weeks.

After spending three weeks studying in the Monroe Calculator School in San Antonio, Tex., Bill Olheiser, 2422-2, is back on the job.

Congratulations to proud papa Richard Carlisle, 2413. The new addition, an 8-pound girl, checked in at Presbyterian Hospital Mar. 5. This makes one of each, boy and girl, for the Carlises.

Talk of floods and disaster in the valley has driven S. V. "Stan" Swanson, 1281, to the hills—literally. He has started construction of a home in the beautiful Sandia Mountains and plans to move in early next fall.

Baby gifts galore were showered on Connie Gonzales by the girls in 2461-3 during a Feb. 26 noon hour party.

Congratulations to H. G. and Mrs. Worstell, 1281, on the arrival of Mark Holmes, weighing in at 8 pounds and 3 ounces. "Curley" passed the cigars and candy Mar. 3 and announced he and Mark were going fishing when the weather was warmer—said it was too cold for an old man like himself.

Ray Poetzl, 1714, is entertaining his mother-in-law who came here from Carbondale, Ill., to spend a week at the new Poetzl residence on Leah Dr.

Arthur Gregory, 2423, will leave the 17th for two weeks of vacationing at the "Lake of the Ozarks" in Missouri. Art promises to have some fine fish stories and authentic snap shots of all the "big ones" when he returns.

Sam DeHaan, 2223-1, was beaming with pride around the office the other day as he showed his daughter Lynn's recent bit of handiwork. Lynn plans to send her grandmother the butterfly pin of tiny colored shells that she made in her 4-H work.

It was a tie between Jean Goldberg, 1714, and Virginia Miller (wife of Ed Miller, 1293) for first place in the Turquoise Toastmistress Club speech contest. The run-off to select the speaker to represent the club in the council contest will be held Mar. 19.

The home of Betty Moore, 1710, was recently the scene of a shower for Frances Long and Florence Burwell. It was a wedding shower for Frances and a baby shower for Florence. Present at the party were: Romayne Davis, 1715, Ginny Williams, 1713, Martha Barker, 1710, Jean Gillette, 3124, Jean Goldberg, 1714, Lois Barney, 2464-1, Ginny Roy, 5210, and Thelma Renwick, 1713.

Joe Gregory, 1716, is recuperating nicely from a broken ankle suffered a week ago Sunday in a skiing mishap at the La Madera ski run.

After a week's vacation, most of which was spent showing his Long Island in-laws some of the sights in and around Albuquerque, Earle George, 1714, is back at work.

Ginny Williams, 1713, has moved off the base into a brand new house at 1328 Gerald.

A word of welcome is extended to Peggy Cole who recently joined the staff of 2471.

Mary Helen Sharkey, 2230, and her husband, M/Sgt. John J. Sharkey, celebrated their 11th wedding anniversary Feb. 22 by entertaining a small group of friends at the Kirtland NCO club with a buffet supper. Guests included: Mr. and Mrs. Robert Findlay, Mr. and Mrs. William Otero, M/Sgt. and Mrs. Arthur Gilcrease, Ethyl Abeyta, Don Wader and Toni Anderson.

Looking just like a poster advertisement for the Marines, Buddy Abeyta, formerly 2231, stayed in Albuquerque during part of a two weeks' visit with his family in Tucumcari. Buddy sends his regards and best wishes to his former co-workers, according to his sister Ethyl, 2231.

The welcome mat in 2461-2 is out to Mrs. Lyndall Carter who recently transferred from 2221.

Emmie Segura, 2470, was pleased with her husband's promotion. He is stationed at Kirtland Field and was recently promoted to M/Sgt.

"Larry" Karpen, 2471, is a father again. This one is his third, a boy named Gary Dean, weighing 9 pounds and born on Feb. 29.

Weighty problems are on the minds of all the girls in 2464-1. A contest is in progress to see who can gain or lose the most weight. A graph is kept on gain and loss, and calories are closely counted. Prize will be a box of Rye-Krisp, or a box of Milky Ways, depending on the winner.

Bob Compton, Frank Martin, Jim Deakin, all of 2452, recently spent a day at Elephant Butte Lake luring crappies into their boat.

Back after a leave of absence, Barbara Tyner, formerly of 1531, will be in 1522.

It's good to see John McPhate, 1521, around again after his recent illness.

The welcome mat is out for Rhoda Kutzscher who recently transferred from 2222-1 to 1924-2.

Congratulations to E. J. Whitmore, 2235, and his wife, Helen. The Whitmores celebrated their 21st wedding anniversary Mar. 5 by doing the town—complete with dinner and dancing.

THE GAVEL CHANGES HANDS as President Lee Deeter, 1282, turns the meeting over to Max Weber, 1714, Toastmaster for the evening, at a recent gathering of Sandia Toastmasters Club, 765.

Public Speakers Are Made, Not Born Thus We Have Our Toastmaster Clubs

Do you get stage fright? Do your knees shake when you have to talk to an audience of more than three people? Do your thinking processes grind to a halt when you stand up to give a speech?

It's Not Easy

If so, get in line, brother, you're not the only one. Few people, if any, are born with the ability to stand all

alone in front of an audience and speak coherently and interestingly on a given subject no matter how well-informed or self-confident they are. It's an ability that must be learned and a large part of the learning must come through practice.

Realizing this and realizing the need to be able to talk intelligently before conference groups, at dinner meetings, and in front of their clubs and lodges, a group of Sandians decided almost two and a half years ago to form their own Toastmasters Club.

The first Toastmasters Club was founded by a man named Ralph C. Smedley who lives at Santa Ana, Calif. It was incorporated as a non-profit, non-commercial corporation in 1932 and the movement grew until now there are clubs chartered in almost every state, Hawaii, Alaska, Canada, Great Britain, and South Africa. It's estimated that about 150 clubs are added each year. The Sandia Toastmasters Club is number 765 on the list of clubs and, since then, the number has gone well above a thousand.

Four-Fold Purposes

In brief, the purposes of Toastmasters as outlined by the parent headquarters, Toastmasters International, are four-fold—speech education, personal development, business progress, and leadership ability.

At a typical meeting, such as the one pictured above, a regular procedure is followed. For instance, at this one Corry McDonald, 1210, gave the invocation and President Lee Deeter, 1282, introduced Max Weber, 1714, as Toastmaster for the evening. Max's job was to conduct the program of the evening, introducing the speakers and the Topicmaster. The Topicmaster was Earl Craven, 2133. His topic was "Public Spending, Taxes, and Inflation". He presented a question bearing on the topic to each of the members and guests and they each had two minutes to give an extemporaneous talk stating their opinions. The purpose of these Table Topics is to accustom members to thinking on their feet and to make certain each member gets at least one chance to speak at every meeting.

Basic Training

Following the topic discussion four speakers appear in order and give speeches of their own choice designed to improve their ability in a certain phase of speaking. There are 12 types of speeches in what is called the Basic Training Course and each emphasizes a certain factor such as gestures, organization, word pictures or sales technique.

After the speeches come what is perhaps the most constructive part of Toastmastering—the evaluation. Each speaker is assigned a critic who rises after the talks and comments in no uncertain terms on what was wrong and what was right with the speech.

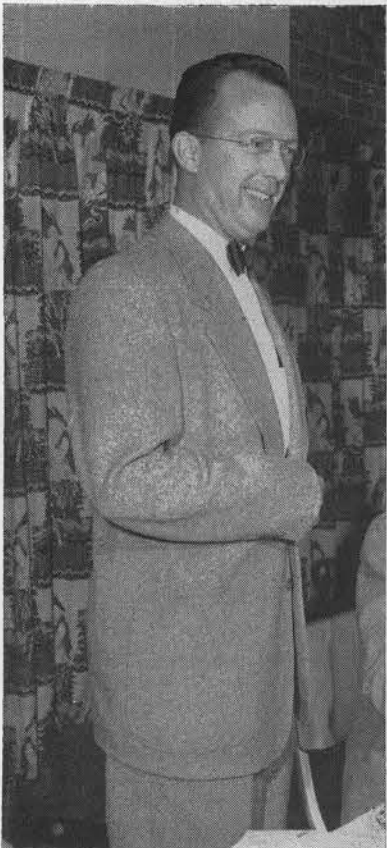

Finally, the meeting winds up with a general evaluator—in this case Art Jones, 4332—who goes over the meeting as a whole, criticizing and praising the entire session. Timing is stressed throughout, and brevity is cultivated.

The Sandia Toastmasters Club, 765,

holds a dinner meeting every Thursday night at 6:30 at the Coronado Club. Members include representatives of almost every department of the Corporation and a few from the military personnel on the base. They're all enthusiastic about their club, because, as their slogan goes: "Toastmasters is more than a club—it is an education."

Weddings — Engagements

In an evening ceremony at the Sandia Base Chapel Pat Russell, 2461-3, recently became the bride of Jerry Luetkehans. Beverly Harbison, 2536, attended the bride as maid-of-honor. Pat lived in Carmi, Ill., before coming to Albuquerque and attended Eastern State College in Illinois.

Mrs. Luetkehans Mrs. Wilkinson

Arlene Deavenport, 2224, was married to Charles Wilkinson Feb. 23 at the First Christian Church in Breerton, Wash. Arlene is from Albuquerque and has a BFA degree from the University of New Mexico. She is a member of the music fraternity, Sigma Alpha Iota. Charles, a graduate of St. Mary's high school, is an electrician's mate, 3/C, and has been in the Navy four years.

Honeymooning in New York City are Mr. and Mrs. Frank O. Lane, Jr., after a Mar. 1 wedding at the First Presbyterian Church in Albuquerque. The bride, the former Sadie Ayer, is an education senior at the University of New Mexico. Frank, 5132, received both his bachelor and master's degrees from the University here.

Josie Jaramillo became the bride of Larry Lesperance, 2412, Feb. 23 in El Paso, Tex. Josie is an Albuquerque girl and Larry is from Las Vegas, N. M. Following the ceremony the couple honeymooned at his father's log cabin in the mountains near Las Vegas.

Mrs. Dunkelberger

Marcella Edwards, 3151, became the bride of Sgt. Don Dunkelberger in a Feb. 21 ceremony. The wedding was at 6:30 p. m. in the Sandia Base Chapel. Lorna Thomas, 3151, was matron-of-honor and Leonard Lind, 3151, gave the bride away. Marcella is from Kennett, Mo. Don, a professional golf player, is from High Point, N. C.

The Holy Rosary Church in Albuquerque was the scene of the Feb. 22 wedding of Josephine Finegan, 3151, and Neil Collins. The bride and groom are both from Youngstown, Ohio. Following the ceremony Josephine and Neil honeymooned in Santa Fe.

The engagement of Janice Haas and Ed Janssen, 1222, has been announced.

New Employees

A welcome is extended to the following new employees who joined us between Feb. 20 and Mar. 5:

Two More Men Back From Service

Two employees have returned recently after completing their tours of military service.

Claudio J. Gonzales returned last week to 2472 after 16 months service in the Navy. He was engaged in aircraft maintenance work.

Gary Weber returned to work Monday after a year in the Air Force. He was employed in 1912 at the time he entered service with the New Mexico Air National Guard, and returned to a position in 1931.

Chicago, Ill., is the hometown of both Janice and Ed. Wedding plans for an Oct. 4 ceremony are being made.

PROMOTIONS

FRANK BACZEK is the new division supervisor of 2351. He joined us as a supervisor this month. Frank has had six years experience here at Sandia. For the past four years he was chief of property management for the AEC Field Office. Before that he worked two years as head of the inventory section for the Manhattan Engineering District located on the Base. Frank has had three years Army service and for a year prior to entering service he was supervisor of the stock records section for the Revenna Ordnance Plant, Revenna, O. Frank is married and has two children.

KEITH E. SCHRODER has been promoted to division supervisor of 2536. He joined us in 1950 with five years experience in production engineering at the Western Electric plant in Lincoln, Neb. Keith went to the Lincoln Shops after five years in the Army and before that he spent four years as a chemist, assistant supervisor and ore buyer for the American Smelting and Refining Co., in Colorado. Keith also worked two years for the Nebraska Department of Roads and Irrigation immediately after graduating from the University of Nebraska with a B. S. degree in chemical engineering. He is married and has two children.

ROBERT E. McCLENDON has been named section supervisor of 2532-7. His first job was with an oil refinery laboratory in Pampa, Tex. After two years there he went into the Navy for three years. When he got out Bob enrolled at the University of New Mexico and after two years transferred to the University of California at Berkeley where he secured his B. S. degree in physics. For a year following graduation, Bob was assistant manager of an auto sales agency in Portales, N. M. Then, shortly before he joined us in 1950, he went back to the University of New Mexico for graduate work in physics. Mr. and Mrs. McClendon are making their home in Albuquerque.

DWIGHT L. RUSSELL was recently named supervisor of Section 2534-5. He came here in 1948 after a year with an Albuquerque electric supply firm. Previously, Dwight was first assistant to the purchasing agent of Engineering Laboratory, Inc., Tulsa, Okla. He was there for eight years. Before that, Dwight spent two and a half years with a fountain pen manufacturing company in Tulsa. For a year in Harrison, Ark., he worked as manager of a branch office supply company. Mr. and Mrs. Russell make their home in Albuquerque.

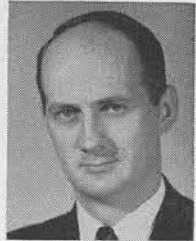

H. H. "PAT" PATTERSON was recently promoted to supervisor of Division 5411. He has a B. S. degree in physics from Tennessee Polytechnic Institute. While there Pat spent a total of two years as transmitting engineer for radio station WHUB, Cookeville, Tenn. Pat is a veteran of three years service in the Navy. After his discharge he went to work at the Naval Ordnance Test Station at Inyokern, Calif. He stayed there for two years as an electrical engineer before coming to Sandia in 1948. Pat is married and has a 4-month-old son.

LEONARDO GUTIERREZ was recently named supervisor of division 1331. Leo holds B. S. and M. S. degrees in electrical engineering. He joined the Laboratory in 1947 after receiving his M. S. from the University of New Mexico. He is a veteran of four years in the Navy and it was while he was in the service that he earned his B. S. degree at the University of New Mexico. That was through an accelerated course of one and a half years under Navy auspices. Before going into the service Leo studied a year and a half toward the degree at New Mexico A&M College. He is married and has three children.

CHARLES L. CROSSEN was recently named section supervisor of 2532-2. He joined us last April after receiving his M.A. degree in business administration at Michigan State College. He had previously graduated from Michigan State with a B. S. degree in electrical engineering and had gone to work for a public utility engineering firm in Jackson, Mich., as an engineering designer. After two years there, he returned to Michigan State to work for his M. A. Three years in the Army split his college career in half. He attended Michigan State for two years before entering the service and for two years after his discharge. Charles is married and has a 3-year-old daughter.

A. M. "AL" GARBLIK has been promoted to division supervisor of 1321. Al came to us just a year ago from Bell Telephone Laboratories, Whippany, N. J., where he was concerned with the design and development of navigation and communication equipment. He was with the Laboratories for 10 years and before that he spent a year at the Signal Corps laboratory at Fort Monmouth, N. J. Al also has seven years experience with the Radio Corporation of America in New York City where he worked on high speed radio operations. He is a graduate of the Polytechnic Institute of Brooklyn with both a B. S. and an M. S. degree in electrical engineering. Al is married and has two children.

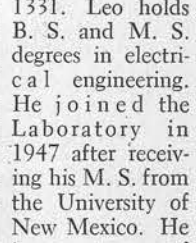

WILLIAM R. GALLOWAY is the newly appointed supervisor of Section 2532-6. He came to Sandia in 1948 with four years experience with the National Advisory Committee for Aeronautics. While at the Cleveland laboratories he worked in turbine and compressor design and technical liaison. Bill graduated from Iowa State College with a B. S. degree in mechanical engineering. His home town is Ames, Ia. Bill is married and has a 3-year-old daughter. The Galloway family is living on the Base.

JAMES L. COURSEY is the newly promoted section supervisor of 1544-4. He started work here last May following a year and a half in electrical work at Clarksville Base, Tenn. Previously, he was high school principal at Elkton, Ky., for a year and a half. For two years Jim worked as a training facilities specialist with the Veterans Administration at Louisville, Ky. He is a veteran of four years service in the Navy. Jim graduated from Georgetown University with a B. S. degree in chemistry. He is married and has two children.

WILLIAM M. WELLS, JR., is the new supervisor of Division 1335. He is a graduate of The Citadel, the military college of South Carolina, with a B. S. degree in civil engineering. Bill was called into the Army after graduating and it was two years before he was discharged. As soon as he shed his uniform, he began graduate work in civil engineering at the Massachusetts Institute of Technology. In addition to his studies he worked for the Institute as a research associate. Before coming here in 1950, Bill was awarded his Doctor of Science, Sc. D., in civil engineering. He and his wife are living on the base.

KENNETH F. CROWDER has been promoted to supervisor of Section 5143-1. He came to the corporation in 1949 after graduating from the University of New Mexico with a B. S. degree in mechanical engineering. For three years before enrolling at the University Ken was in the Army. Prior to his Army service, he worked for seven years in the engineering contracting business. He was a heavy equipment operator doing civil engineering work throughout New Mexico. Ken is married and has two children, a 4½-year-old daughter and a 2-year-old son. The Crowder's are living in Albuquerque, Ken's home town.

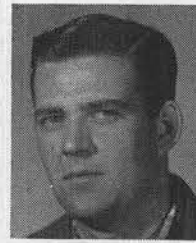

ATOMIC ENERGY COMMISSION officials met with officers of Sandia Corporation in Albuquerque recently. L to R: Donald A. Quarles, President of Sandia Corporation; D. F. Worth, Jr., AEC Sandia Field Manager; Dr. Henry D. Smyth, member of U. S. Atomic Energy Commission; George Landry, Vice-

President of Western Electric Company and former President of Sandia Corporation; and Carroll L. Tyler, AEC Santa Fe Operations Manager. Dr. Smyth, author of the famed "Smyth Report" was on a routine visit to atomic installations in this area.

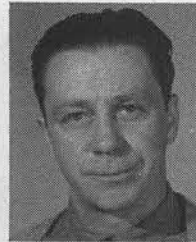

Biggs is Named AIEE Chairman

Curtis Biggs, 2122-3, has been elected chairman of the Northern New Mexico section of the American Institute of Electrical Engineers to succeed Don Taylor, 1242, who resigned recently, it has been announced by the Institute executive committee.

STANLEY D. BROOKS was recently appointed section supervisor of 2417-1. He joined us in 1950 after working for eight months with the Civil Service Commission at Kirtland Air Force Base as a heavy equipment operator. Previously, Stan spent three years with the AEC on Sandia Base, also as a heavy equipment operator. He was in the Army for a year—half of that time stationed at Sandia—and he was a layout operator at the Vancouver, Wash., shipyards for a year. Stan is married and has two children.

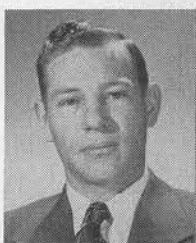

JOHN S. CUNDY has been named supervisor of Section 1932-1. He came to Sandia after three years at Kirtland Air Force Base. For six months there he was controller in Army flight services with the War Department and for two and a half years he was airway traffic controller at Kirtland for the Civil Aeronautics Authority. He also worked for the CAA in the same job at Newark Airport, N. J., and La Guardia Field, N. Y. Before that, John was a wireman with Federal Telephone and Telegraph in Newark for two years. He and his wife are making their home in Albuquerque.

THOMAS W. HOLMES was recently appointed division supervisor of 2535. He came to the Laboratory in 1947 with nine years engineering experience with the Boeing Aircraft Corp., Seattle, Wash. For two years during the war, he was an engineering representative for Boeing in England. Before starting with Boeing, Tom worked a year as an electrical engineer with Electromotive Corp., Chicago, and a year at the Western Electric Hawthorne plant, Chicago, also as an electrical engineer. He has a B. S. degree in electrical engineering from Kansas State College. Tom is married and has a 4-months-old daughter.

ALAN POPE is the newly appointed section supervisor of 5141-1. He came to us last July after 10 years as professor of aerodynamics at Georgia Tech. He is very much an alumnus of Georgia Tech, having graduated from there with a B. S. in aeronautical engineering and having gone on to earn an M. S. degree in the same field. With his master's degree in hand, Alan went to the Glenn L. Martin Aircraft Corp. in Baltimore as a structural engineer. After several months he became flight test engineer for the National Advisory Committee for Aeronautics. A year later, in 1941, he went back to Georgia Tech. Alan is married and has three children.

AROUND THE DEPARTMENTS

The familiar face of Verne Vrockway, 2411-2, is around the office again. Verne was returned to work after a two weeks illness.

Congratulations to Lt. and Mrs. Paul House. They are the parents of a new daughter, Beverly Jean, weight 8 pounds 13 ounces. Paul was in 2463 and is now on military leave on duty at Quantico, Va., with the Marines.

Stephen Raymond, 6 pounds 9 ounces, is a new member of the Dave Gomez, 2464-2, household as of Feb. 25. Congratulations, Dave!

"On your guard," says Francis C. Scott, 2412, to all contestants in the annual Champion Liar's contest sponsored by the Game Protective Association. He's all prepared to spin a "bigger and better" yarn this year at the Mar. 27 gathering. In 1949 Scotty was judged Champ and he's out to capture the title again this year.

Employees in 2413 hope to see Jack Eaklor around on his job soon. At present Jack is at home sick.

Florence, 2124, and Howie, 5100, Sander have moved to their new home at 2607 Mesa Linda Dr. "You are welcome any time to come see us," says Flo, "just as long as you bring your own chair."

She had a wonderful time but it was hard on the bank account reports Mary Bengel, 4143, of her recent trip to Oklahoma City.

Margaret Ella, weighing 6 pounds, arrived Feb. 28 at 7 p.m. The next day Jim Becker, 4142, came to work carrying candy and cigars to pass around. Margaret's mama, Marcie, formerly worked for 2121.

He just "had" to take the children to see the New York Giants in their spring training camp, says Jim Hay, 2123-6, when asked about the recent week end he spent in Phoenix. The biggest thrill came when Leo Durocher gave them his autograph.

Joanne Boettcher arrived Feb. 25 to take up permanent residence with Charles Boettcher, 2124-6, and his wife. Congratulations!

John Ransom, 2422-2, has been popping vest buttons and passing pink cellophane covered cigars these days. The reason: Nancy Ann, 7 pounds 11 ounces, arrived Mar. 5. This makes one boy and one girl for Ransom. Congratulations!

Congratulations to Art Jones, 4232, and his wife, Pat, formerly of 5410, who became the parents of a daughter Mar. 6. Art reports Randi Elizabeth weighed in at 6 pounds 3 and ¾ ounces and has been gaining steadily.

ALAN POPE is the newly appointed section supervisor of 5141-1. He came to us last July after 10 years as professor of aerodynamics at Georgia Tech. He is very much an alumnus of Georgia Tech, having graduated from there with a B. S. in aeronautical engineering and having gone on to earn an M. S. degree in the same field. With his master's degree in hand, Alan went to the Glenn L. Martin Aircraft Corp. in Baltimore as a structural engineer. After several months he became flight test engineer for the National Advisory Committee for Aeronautics. A year later, in 1941, he went back to Georgia Tech. Alan is married and has three children.

IT'S SPRING AGAIN

We bow to the ladies and please the men with our Spring Fashion Show. Some of the latest in finery is modeled for us by Val Walters, AEC, Roseanne Bascom, 2222, and Allie Dayton, 3155.

VAL WALTERS
Navy lace on nylon net . . . one from a beautiful collection of formal originals by Steinman.

ROSEANNE BASCOM
This costume spells after 5 or late evening . . . the hat by Madcaps; dress by Henry Conder and the perfume, Shalimar.

ALLIE DAYTON
Suited for Spring in this season's new fashion by Jaunty Junior. The velvet trimmed straw is by Ruby Ross.

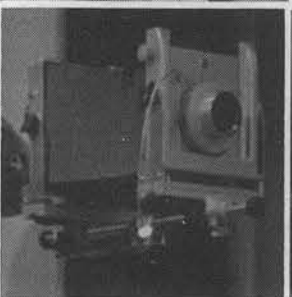

VAL WALTERS
Let Easter find you looking pretty says this jewel trimmed short coat by Sporttown and original hat by Ruby Ross.

ROSEANNE BASCOM
Quilted taffeta coat dress in dainty checks by Suzy Perette, versatile in style. Shell pumps by Martinique.

ALLIE DAYTON—
Youthmore styles a full length coat with the newest of new sleeves . . . the hat—a French Room Gage.

The Spring Styles pictured here are brought to the readers of the Sandia Bulletin through the courtesy of Kistler-Collister & Co. of Albuquerque.
