

COORDINATING COMMUNITY CHEST solicitation plans is a big job for Claude Hempen, 1916, but his work will be pleasant indeed with the assistance of Mary Foster, center, and Trudi Euler, both 4222-5. The young ladies are helping Claude assemble solicitation kits and will be on duty at the Red Feather booth to be set up in the lobby of Bldg. 800 while the drive is in progress. Remember the phone number, 28264, which is the clearing point for all inquiries about the chest.

Harold Barr Will Present Paper to Engineer Meeting

Harold C. Barr, division supervisor of 5216, will present a paper, "Use of High Speed Photography in Field Testing" at the Oct. 5-11 symposium sponsored by the Society of Motion Picture and Television Engineers in Washington, D.C.

This year marks the 20th anniversary of the industrial use of high speed motion picture photography and the meeting celebrates the occasion with the symposium which is international in scope. Engineers from all over the world will attend.

Mr. Barr will also serve as chairman on one day for the Symposium on High Speed, and as a member of the Society's Engineering Committee on High Speed Photography he will participate in discussions of that group in connection with recommended practices for the industry. On October 15 he will present a paper before a meeting of the Armed Forces Communications Institute at Rochester, New York, on the use of photography in research.

Attending the sessions with Mr. Barr will be T. H. Takahashi, 5215, and I. W. Lenz, 5216, who will participate in the symposium.

Bronze Star Goes To Wallace Eder

Wallace C. Eder, a member of the administrative division of 2451, recently was awarded the Bronze Star by the Secretary of the Army.

The honor, addressed to Capt. Wallace C. Eder, Inf., USAR, cited

his "exemplary conduct ground combat against the armed enemy while assigned as first lieutenant, 149th Inf. Reg., about Feb. 1, 1945, Pacific

Theater of Operations.'

Wallace, who was graduated from the University of Wyoming with a B.S. degree in 1939, served in the armed forces from February, 1942, until January, 1946. Previous to World War II he was an agronomist with the Soil Conservation Program in Arizona and New Mexico and worked briefly in that capacity after leaving the army. Wallace has been with Sandia Corporation for two years. He lives at 2738 San Diego Ave., SE

A Message from the President

Since our nation was founded, a large measure of its strength has rested upon the willingness of neighbors to help one another and by mutual protection and support to meet any and all threats to local,

Donald A. Quarles

state or national well-being. The Community Chest plan for the unification of fund-raising efforts for the various services and agencies supported by the community is typically American. In the same way that our forefathers gathered voluntarily for a barn raising, a corn-husking bee or a quilting bee to help their neighbors, Americans today join hands through the voluntary contribution of funds to support worthwhile agencies and services which strengthen their community.

This year during the Albuquerque Community Chest campaign we in Sandia Corporation are once again sponsoring a laboratory-wide solicitation which will give all an opportunity to participate. In the interest of conducting the drive with the least possible interruption of work schedules we expect to complete the

solicitation within two days. I am confident that each of us as individuals will wish to maintain or even raise the high level of contribution which in the past has identified us with and demonstrated our vital interest in the Albuquerque community.

SANDIA CORPORATION, ALBUQUERQUE, N. M.

New Mexico's Governor and Movie Actress Penny Singleton To Help Open Sandia Corporation's Community Chest Drive

Penny Singleton Adds Glamour to Red Feather Drive

In Los Angeles on official business last week, T. E. Shea, our Vice-President and General Manager, assisted Community Chest Campaign Chairman H. J. Wallis in arranging for Penny Singleton's visit to Sandia Oct. 6 to speak at our Red Feather rally.

Here is the enthusiastic message Mr. Shea sent back after his talk with the engaging Miss Singleton, a fine Irish colleen:

Husband a Marine

"I talked in Hollywood with Penny Singleton, her husband, Producer Bob Sparks, and Perry Lieber, RKO Publicity Director.

"I found Miss Singleton a fine

Penny Singleton

person with excellent personality and sympathetic with social problems. She has had a great deal of experience in appearances of this kind. She teamed up with Governor Dan Thornton of Colorado last year in opening the state-wide Community Chest drive there. She has also had experience in USO work.

"Her husband was a major in the Marines during World War II. In fact, one of her two daughters was born in the Naval Hospital at Quantico, Va. She is a member of the Women's Auxiliary, Marine Corps Association, the American Legion Auxiliary; and the Veterans of Foreign Wars, Women's Branch. She is active in St. Joseph's Guild in San Fernando Valley.'

In Stage Shows

Born Dorothy McNulty, the daughter of a Philadelphia newspaperman, she was the youngest dancer ever to be featured on Broadway. After training in singing and dancing schools and also attending Columbia University, she became a singingdancing star in Broadway hits such as "Good News," "Sweetheart Time," "Follow Through," and "Hey Nonny, Nonny.'

In recent years she has been active as "Blondie" in the movies and also in the Penny Singleton radio show. She has appeared on television in the Ken Murray and the Pulitzer Prize Playhouse programs.

When Penny leaves Sandia she heads for San Francisco for an appearance at the Mark Hopkins.

Payroll Deduction For Chest Pledges

Contributions to the Community Chest may be made through payroll deductions by Sandia Corporation employees. Deductions will start the last pay period in October and may be made in three installments by those on the monthly payroll and 10 installments for those on the weekly payroll. Solicitors will have deduction authorization blanks.

Gov. Mechem

Red Feather Facts

The goal for the 1952 Albuquerque Community Chest Drive has been set at \$230,870.82. These funds will go to services which are provided for children, families, older persons, youth, the sick and the handicapped.

Here is how your Red Feather dollars will be spent:

A. Child Welfare Christina Kent Day Nursery \$ 7,600.00 St. Anthony's Orphanage 17,000.00 Frances Lynn Home 4,860.00 B. Health New Mexico Hearing 1,982.90 Society

Community Health 1,200.00 Center C. Aid to Handicapped and Aged Goodwill Industries 2,000.00 D. Family Welfare Travelers Aid Society 10,000.00 Salvation Army ... 17,250.00 Legal Aid Society 2,000.00 Family Consultation 5,535.00 Service E. Youth Guidance

Men's Glee Club Needs More Voices

TOTAL

Terry Riggin, director of the Sandia employee men's glee club, is sending out a call for those who like to sing such ballads as "The Whif-fenpoof Song" and "The Old Mill Stream." Every Monday night at 7:30 the ballad singers, known as the "Sandialiers" get together at the Coronado Club and practice.

If you wish to join the group show up near the piano in the Coronado Club ballroom and join in. For further information call Terry at

Governor Edwin L. Mechem and Movie Actress Penny Singleton will take part in the big Red Feather rally to be held in the Base Gymnasium Monday afternoon, Oct. 6. Attending the meeting will be more than 600 Sandia Corporation employees who make up the fund campaign team, representatives of the AEC, Sandia Base and the Albuquerque Community Chest.

The meeting will be held the day before the kickoff of the campaign in Albuquerque which will seek to raise \$230,000 to finance the work of 21 participating agencies during the coming year. Our drive will be completed within two days except for the final clean-up to include those absent on Oct. 7 and 8.

Meeting to Be Broadcast

Governor Mechem and Miss Singleton will arrive at the Gym just before the meeting at 3:30 p.m. A portion of the meeting will be broadcast by KOAT and will be transcribed for use by other stations later in the evening. The "Sandialiers," a group of men singers from Sandia under the direction of Terry Riggin, will open the meeting with a selection after which Dr. R. P. Petersen, chairman of the meeting, will introduce H. J. Wallis, chairman of our Community Chest Committee.

Others to take part in the program will be Donald A. Quarles, president of Sandia Corporation, C. W. Eggert and K. C. Shinn, members of the Community Chest Committee and presidents of the two unions representing Sandia employees.

We are indebted to RKO Radio Pictures, Inc., for their cooperation in making possible Penny Singleton's visit to Albuquerque at no cost to the Commuity Chest campaign. While here she will also visit Sandia Base hospital, the Veterans Hospital, and if time permits, St. Anthony's Orphanage.

The meeting will adjourn at 4:45.

Leaders to Report

Throughout the Laboratory area brief meetings will be held on the morning of Oct, 7 to give employees a chance to hear reports by the 30 solicitation squad leaders who earlier this week toured the agencies of the Community Chest to obtain firsthand information about their work and needs.

A Red Feather headquarters booth will be set up in the lobby of Bldg. 800 to serve as a clearing house for information during the drive. A telephone will be connected (ext. 28264) and a young lady will be on hand to answer or refer inquiries. The booth will serve as a turn-in point for the team captains on the second day of the drive and a chart will be posted to show the progress of the solicitation by teams.

Planning to Stage **Bridge Tournament** At Coronado Club

Coronado Club members and their guests will have an opportunity to test their bridge skill at the club tournament scheduled for Nov. 16. George Arnot, 5414, is making arrangements for the affair and will have trophies on hand for first and second place winners.

George recommends that you use the Thursday night bridge sessions at the club to brush up on your

Boom Town, USA—Your Stake in Albuquerque . . .

The City of Albuquerque, one of the fastest growing communities of the nation, is finding that there's a lot of truth in the ancient maxim, "All that glitters is not gold." Practically bursting at the seams with a tremendous influx of new citizens, the city is faced with many serious problems in expanding its facilities to accommodate the growing population. These physical facilities will eventually be provided, and meanwhile we are all prepared to make the best of it. But what of the human problems presented by this rapid growth?

Between 1940 and 1950 the growth of Albuquerque was greater than that of any of the country's 165 metropolitan areas, according to official census figures. The population of Bernalillo county more than doubled and the City of Albuquerque registered a population gain of 173 per cent — almost triple the 1940 population. Most of this growth actually occurred in the postwar years, since the population of the state was somewhat depleted during the war. In the two years since the census was completed the influx of people has continued at an even more rapid rate. Our own growth here at Sandia is indicative of what has been happening in the county. There are at least 60,000 more people in Albuquerque than there were in 1945.

All of this brings us to the problems being faced this year by the Albuquerque Community Chest. Is it any wonder that the fund goal has had to be increased by 20% over 1951? Much of the increase can be attributed to rising expenses, but each of the 21 agencies supported by your Red Feather contributions has a much bigger job to do in serving a bigger population — a population with a great many problems of adjustment and human need which are not so prevalent in an older and more stable community.

These human needs — for youth guidance, help for the handicapped, care for orphans, assistance to travelers, recreational facilities for men and women in the Armed Forces, food, shelter and clothing for those temporarily in need — these things cannot wait. The needs must be met NOW, or the human misery and distress will be compounded, lives will be blighted, hopes will be shattered and faith destroyed in those who look to the Community Chest agencies for temporary assistance.

Most of all, if we fail to meet the financial needs of the Red Feather agencies serving our community we will have shirked an obligation to our own families. We have an obligation to them to make our town a healthy and happy place in which to live and no thinking person can be happy with his own good fortune if there are others less fortunate who desperately need the assistance he can give so easily and conveniently through the Community Chest. The foundation we place today under this great new City of Albuquerque will be the base upon which our own children will build its future. We must not allow that foundation to become weakened by the disastrous decay of civic pride and responsibility.

YOUR COMMUNITY CHEST DOLLARS ARE YOUR INVESTMENT IN YOUR OWN FUTURE.

Registration Deadline October 6

If you plan to vote in the general election November 4 you must register on or before October 6. The laws of the state of New Mexico require this registration so remember, if you wish to exercise your right as a citizen and vote you must be registered. Go to the Bernalillo County Court House and register today, don't delay.

Ruby Jean Rarick, 2530, has returned from a fine vacation in which she toured Canada and the northeastern states. She left Kansas City on a special train with a large party and saw the sights of Canada and such spots as Washington, D.C., and Niagara Falls.

Best wishes are sent by the folks in 2531 to Fred Gross who has been ill for several weeks. His co-workers wish him a speedy recovery.

Mary J. Tawzer, 5142, has returned from a tour of Minnesota in her new red Olds convertible, and Bill and Carrie Pumphrey, 5140, included the Grand Canyon, Boulder Dam, San Diego and Needles on their recent vacation trip. The temperature was 61 degrees at 5 a.m. in San Diego on the same day that they visited Needles where the mercury rose to 128 degrees shortly after

AROUND THE DEPARTMENTS

Roger E. Hahn, son of Geraldine Hahn, 2416, and Harry L. Hahn, 2123, was married Sept. 14 to Charlotte Snitchler, daughter of Mr. and Mrs. Clarence Snitchler of Albuquerque. The informal wedding ceremony, held at Sandia Base Chapel, was followed by a reception dinner at Leonard's Restaurant.

Congratulations to R. C. Spence, 5221, and his wife, Marie, who welcomed little Karla Marie into their home recently. Karla, who weighed 6 pounds, 14 ounces, has a six-year-old sister, Karen.

William M. Wells, Jr., 1332, and his wife moved into their new home at 3412 Calle del Sol recently from their Sandia Base apartment.

A son was born Sept. 2 to Mr. and Mrs. W. E. Treibel. Congratulations.

Add stork department news: a girl, Mary Charlotte, to Wm. C. Chandler, 4232, and his wife, Betty, Sept. 11. The baby, who weighed 6 pounds, 5 ounces, was visited by grandparents from Texas.

"Skid" Spiller, 2121, returned recently from a two week vacation when he did some painting and other odd jobs around home that he didn't finish during his vacation in 1951.

When **Dorothy Blair**, 2100, and her family enjoyed a vacation to the west coast recently, they stopped at Yosemite and at Hoover Dam on the return trip.

Shelton "Tony" Shannon and his wife, Jean, announced that little Toni Jean, weighing 7 pounds, 10 ounces, arrived Sept. 6 to take up residence with them.

Another visit to Acapulco was on the vacation schedule for **Bob Chesnut**, 1911. Bob is practically an old resident of that beautiful Mexican town and reports he had a grand time in the sun and surf.

TED FORCUM, 2234, and his wife, Mildred, landed this fine string of trout at Red River during the long holiday week end this month. Here was another Sandia couple who wouldn't have to worry about the high price of steak for several tasty meals.

Among vacationers from 2464-2 were Lorinne Estep who joined her husband and children on a two week trip to Colorado and Wyoming, and Mae Grae Daniel who welcomed home her son from a summer tour of Europe with NROTC. Geraldine Tebbe spent her vacation time in Grants with friends.

Charlene Scott, who was welcomed into 2464-2, was honored recently by her former co-workers in 4131. The party, held at the home of Clara Wittacher, included Edna Barnard, Beulah Hansen, Betty Mobbs, Cleo Smith, Eve McFarland, Donna Ross, Evelyn Garman and Janell Scott.

Harry U'Ren, 4153, and his wife are the proud parents of a daughter, Karen Helen, who was born Sept. 13, weighing 7 pounds 6 ounces. Congratulations!

JUST ABOUT READY for "night-night" is Stephen Remy, son of Carl W. Remy, 1512-2, and Mrs. Remy. Stephen, who was born last March, is the only child of the Remys and his parents are understandably proud of the husky youngster.

Back at work after a wonderful vacation is Eva Sanchez, 2312, who visited San Francisco. Another visitor in California is A. N. Granum, 2312, who also went on to the Pacific Northwest.

Jack Fullerton, 2321, is back at work after a vacation in Joplin, Mo. He went back to pick up his wife and daughter who had been visiting her parents.

A vacation of sightseeing in Arizona was enjoyed by Mildred Knight, 2310.

Dewey Blair, 2333-2, spent a busy two weeks of his vacation time working on his new home.

A visit in Texas and Colorado with relatives was the vacation enjoyed by Ruth Womack, 2333-1, and her husband.

Neal Rozell, 2411, spent his two week vacation at home working on some of the final details of his new house which will be ready for occupancy the end of September. R. J. Callahan, 1932-2, chose to spend his vacation at home where he rested, and J. E. O'Connor, 1932-2, spent his vacation beautifying the grounds around his home and laying a new walk.

4151 personnel on holiday recently include Davie Ray who vacationed at home, Bernice Gustafson who enjoyed a camping trip to Colorado and "Spike" Coombe who motored to Connecticutt in her new automobile.

Congratulations to Eugene and Rosemary Aas on the birth of their son, Jeffrey Allan, Sept. 15. The baby weighed in at 7 pounds. Eugene is in 1331.

Three 2512 vacations include Charlene Hall who spent hers watering her new lawn, Dee Stites who went to Phoenix, and Aileen Moore who entertained her husband's parents who are visiting from Louisville, Ky.

Gil Stapleton, 2331-2, former University of New Mexico cage star, is now playing with the Schwartzman Packing Company's basketball team.

Daurice Hall and Ann Otero, both of 4222, are donating their services to the Veterans Hospital every Thursday night by operating movie projectors for the patients.

WITH A STRING of fish like that you can't blame Mel Pliner for the satisfied expression. Mel caught the trout recently on a week-end trip to Red River. He works in 2352.

Get-well wishes are extended to Jerald J. Johnson, 1932-1, who has been hospitalized recently.

Eloy C. Pena, 1932-4, has returned from a trip to Maryland and Washington, D.C., where he visited old friends.

While Queento Vandi, 1932-2, and his family are enjoying their vacation they will visit relatives in Iowa. They also hope to attend a big league game in New York.

R. E. Vinson spent his two week vacation from 1321 visiting in Colorado.

HAIL HAIL AND the gang was all there for Mary Lunsford's surprise housewarming recently. The girls from 2231 "dressed as crazy as possible" (witness above) and swarmed in upon Mary at her new house.

Dr. George Flessas Joins Corporation As Fellow in Occupational Medicine

Dr. George Flessas, a Fellow in Occupational Medicine for the AEC has joined the medical staff of Sandia Corporation. Dr. Flessas is one of six physicians selected last year by the AEC in competitive examinations to study occupational medicine. He has completed a year of study at Harvard University and will study the practical aspects of occupational medicine for the next year at Sandia.

A native of Boston, Dr. Flessas spent three years in the Army during the war and completed his medical education after the war at Boston University Medical School. He interned at St. Mary's Hospital in Madison, Wisc., and then re-entered service and spent a year with the Air Force on Guam.

Discharged from the service, he continued practice at Boston City Hospital where he was senior resident in pediatrics. Last year he was selected to join the AEC program and attended Harvard where he earned his Masters Degree in Industrial Health.

Weddings and Engagements

Mrs. John R. Green is the former Monira Hindi who was married recently to Tech. Sgt. Green in a ceremony at the home of her parents, Mr. and Mrs. William Hindi, Duran, N.M. The Greens took a wedding trip to Kentucky and Michigan where they visited relatives, and have returned to Albuquerque where they established a home at 1042 Buena Vista Dr., SE. Monira is a member of 2334.

Mrs. Green

Miss Palladini

Announcement was made this month of the engagement of Gloria Palladini, 2334, to Cpl. Donald F. Vetter, son of Mr. and Mrs. Russell Vetter, Lodi, N.J. The wedding will take place in St. Joseph's Church, West New York, N.J., October 18. Gloria is a graduate of St. Mary's High School. Cpl. Vetter attended New York University before joining the Air Force. He has been stationed at Sandia for 6 months.

Mary Agnes Koppes, 2221-1, will be married the end of December to S/Sgt. Jack Miller of Kirtland Air Force Base, it was announced this month. The wedding will take place in St. Patrick's Church, Dubuque, Ia., home of the bride-to-be. Mary attended St. Joseph's Academy in Dubuque and Sgt. Miller, son of Howard Miller of Toledo, O., attended Toledo University after his graduation from Toledo-Waite High School. The couple plan to make their home in Albuquerque.

Miss Koppes

Mrs. Hatchett

Mary Catherine Bryant was married August 24 to James L. Hatchett in a small family wedding at her home in Cambridge, Mass. Mary Catherine, a member of 2463, attended the School of Boston Museum of Fine Arts; her husband is a graduate of the University of New Mexico. He is employed in Albuquerque with the United States Geological Survey. Following a wedding trip to the Jemez area, the couple established residence at 2211 New York Ave., SW.

Dr. Flessas

Sandia Employees Play With Civic Symphony This Year

Two Sandia Corporation employees and the wife of an employee will appear with the Albuquerque Civic Symphony in the winter series of concerts. The programs begin Oct. 8 and the final concert is May 8.

Sandians playing with the symphony this year will be P. D. Wesson, 6000, viola; Ruth Grothe, wife of Martin Grothe, 4151, bass viol; and Ralph Kuttner, 1242, bass clar-

Season tickets for the concerts may be purchased from Mrs. Nate Wineberg, ext. 29194; Jane Goldberg, ext. 21250, and Bill Luxford, ext. 25136. They are \$6 for adults, \$3 for students and general admission is \$1.80 per concert.

Following is the winter schedule of concerts:

Oct. 8-Orchestra

Nov. 18-Guiomar Novaes, piano Dec. 14-Christmas concert with Albuquerque Choral Association

Feb. 24-Herva Nelli, soprano Mar. 28-Leonard Rose, cellist May 8-Orchestra

Concerts are presented at Carlisle Gymnasium on the University cam-

Toastmistresses to Meet Wed., Oct. 1

Turquoise Toastmistress club will have a dinner meeting October 1 at 6:30 p.m. in the Coronado Club when the theme of the evening will be "Music Appreciation" with topic mistress Mrs. D. E. Fitchhorn. Speakers will include Mrs. Nate Wineberg, Mrs. Henry Goldberg and Mrs. Curtis Biggs

Sandia Little Theatre Group Tryouts Planned; To Present Maugham's "Rain"

Tryouts for the 14 parts in Somerset Maugham's "Rain" will be held October 1 and 2 by the Sandia Base Little Theatre at Building T-243 on F Street, it was announced this week by Bill Freyermuth, 2530, vice president of the group. New director for

the coming season is Lt. Fred Belcher who was graduated from the University of Redlands in California and who has had previous experience directing small acting groups. "Rain" will be produced about the middle of November.

2123-2. Russ was employed by New Mexico School of Mines before coming to Sandia in April, 1949. He has been assistant general foreman at the Nash Kelvinator Tool Division

Co. in Lansing, Mich., and superintendent of the tool division of a die and stamping company in Grand Rapids, Mich. He has 30 years experience in machine shops. Russ is married, has two daughters, and has a home in Albuquerque.

DON WORTHEN is the newly appointed supervisor of Section 3231-1.

Don started work for Sandia Corporation in September, 1950. after graduation from the Univer-sity of Southern California with a Bachelor of Science Degree in Electrical Engi-

neering. Don also worked for Firestone in Los Angeles and served four years in the Navy with duty in the Atlantic and Pacific areas. He is married and makes his home on Sandia Base.

DELOS W. KEASLER has been appointed supervisor of Division 2143.

He has been working here since January, 1950. Prior to coming to San-dia he had spent five years at Batavia, Ill., as a process engineer. Prior to that he worked as an engineer for the

Kaiser shell plant in Denver and a tool company in Aurora, Ill. He attended the University of Illinois where he studied process engineering. Delos is married, has two boys and a girl and lives in the Wherry housing area.

RAYMOND E. VINSON has been named the new supervisor of Section

1321-3. Ray joined Sandia Laboratory in January, 1949, after graduation from the University of Colorado. His degree was Bachelor of Science in Engineering Physics.

Since graduation from Colorado he has continued his studies there and at the University of New Mexico with graduate work. Ray was in the Air Force for three years during the war and saw duty on the Aleutian Islands where he did radio work. Ray is married and he and his wife live in town.

HARRY L. HAHN is the new supervisor of Section 2126-2. Harry came

to Sandia Corporation in December, 1949, from General Motors Corp. in Detroit. He had been an experimental toolmaker in the tool and research department. Prior to that for four years

he had worked as a production supervisor with an electrical manufacturer in Detroit and for 11 years was an employee of the Ford Motor Company. Harry is married and has three children. The family lives on Sandia Base.

Admiral Kraker Speaks to AIEE

The Northern New Mexico section of the American Institute of Electrical Engineers will hold a dinner meeting Monday at 6:30 p.m. in the Fez Club, 809 Copper, NW. Admiral George P. Kraker, deputy manager of the AEC Santa Fe Operations Office, will be the speaker. His subject will be "Engineers and Atomic Energy," a non-technical subject of vital interest to anyone making or planning to make a career with the AEC.

Academy Graduate

Admiral Kraker is a native of New Mexico and was born in Gallup where his parents still reside. He entered the U.S. Naval Academy in 1916, was graduated and commissioned in 1919. He returned to the Academy in 1925 for a post-graduate

He served as Commanding Officer of the U.S. Naval Ordnance Office at Indianapolis during 1941-43. Throughout 1944 he was Commanding Officer of the U.S.S. Marblehead and in 1945 was assigned as Chief of Staff to the Commander, Pacific Headquarters, Guam. In May, 1948, Admiral Kraker retired from the Navy after 29 years of service to accept the task of establishing Sandia Laboratory as a permanent installation for the Atomic Energy Commission. He remained as Sandia Field Manager until the late spring of '51. During this period Sandia's physical plant changed from two or three war-built wooden buildings to many modern structures representing an investment of more than \$32,000,000. When the Commission transferred its Santa Fe Operations Office to Albuquerque from Los Alamos it selected Admiral Kraker to serve as deputy engineer.

Reservations Urged

Reservations should be made in advance by calling any of the following: H. C. Biggs, 1205 Jackson SE, Alb. 5-5624; E. H. Craven, 3139 39th St., Alb. 6-4411, and exts. 21265 or 23139; J. L. Ellis, 1215 Sigma Chi Rd., Alb. 2-0544.

Cost of the dinner is \$2.50 per person and all reservations should be made before 3 p.m. Sept. 26.

Ernie Fields and Will Osborne to Be At Coronado Club

Coronado Club dancing fans will have their big days early this month when two famous bands, headed by Ernie Fields and Will Osborne, will make their appearance at the club.

First to appear, and for a return engagement, is Ernie Fields, "Crown

Friday, Oct. 3, is Ernie's date and dancing will be from 9-1. The Ernie Field band prides itself in being able to present a wide variety of music, ranging all the

from symphonic swing to boogie, blues and bebop. Take your

Appearing with Ernie is a floorshow group which will round off the evening with a 20-minute presentation of the history of Dixieland music. Tickets are \$1.50 for members and \$2 for their guests. Reservations will be made when you buy your tickets.

Friday, Oct. 10, Will Osborne orchestra will make its first appear-

ance on the base. Will, who claims to have been heard on more

ability to play the trombone. These are great factors in drawing his

Sandian Granted His Fifth Patent

A patent has been granted to John T. Kane for a device developed by him while he was working in the St. Paul Shops

of Western Electric Company. The device, which John describes as "simple," is a tool for threading loose end wires of various lengths through

a small aperture in a panel. John said he developed the tool after he saw the difficulty employees

had handling the wires. With the new gadget they can do the work 10 times faster, he says. This is the fifth patent which has been granted to John.

Sympathy

Sandia Corporation employees extend sympathy to Abel Lavato, 2415, whose mother, Anita S. Lavato, a lifelong resident of Albuquerque, died Sept. 15.

We extend our sympathy to R. F. Brodsky, 5141, who lost his fatherin-law, George Derby, Sept. 10.

Our sympathy is extended to Miriam Furches, 3153, whose husband, Stephen L. Furches. died Sept. 11 as a result of an auto accident near Ganado, Ariz. Miriam has taken a leave of absence and has gone to Statesville, N.C., where the funeral was held.

Sympathy is extended by the employees of Sandia Corporation to Mr. and Mrs. A. M. Hoge who lost two children recently from polio. Michael, 5, died Thursday, Sept. 11, and Linn, 6, died Sunday, Sept. 14.

Employees of Sandia Corporation extend their sympathy to Richard G. Pershing for the death of his wife Julia Louise Sept. 12.

We are very grateful to our many friends whose thoughts and prayers were with us in our time of need and whose generous gifts enabled us to make a substantial contribution to the National Foundation for Infantile Paralysis in memory of our children, Michael and Linn.

Al and Marian Hoge

MORE AROUND THE DEPARTMENTS

Erma Shumate and Ted Spack, both of 4153, vacationed recently. Erma spent her vacation in Houston and Ted went to Denver.

When George D. Horne, Sr., 4153, returned from a recent leave for surgery, he announced that while he was away he joined the ranks of the Sandia grandfathers. Welcome back and congratulations!

Enjoying their new home in Albuquerque are Virginia and Pete Lasater who moved in recently. Virginia is in AEC.

William Ragsdale, AEC, confined to Veterans Hospital, wishes his friends would call on him there. He is in Ward 5, third floor.

Her mother from Chicago is spending a few days with AEC's Gerri Marko.

When Jack Ward, AEC, was transferred out of the state his coworkers honored him recently with an office party.

George J. Pasko, 2541, and his family are enjoying a vacation to New York City via New Orleans, Charlotte, N.C., and Washington, D.C. Anna Martinez, also 2541, has returned from a recent vacation with relatives in Taos.

2225 vacationers were Dora Apodaca who visited two weeks with her parents at Hurley, N.M., and James Coughlin who spent two weeks at Springfield, Ill.

Corine Smith, 2221-2, and her husband are visiting their parents in Vallejo, Calif., Melba Kennedy, also 2221, and her husband have returned from a visit with their parents in San Bernadino, Calif.

Entertaining his parents from Gary, Ind., is Bob Nelson, 2222-3, who is showing them the sights of New Mexico.

Merlein Keller, 2220, and her husband, Bill, 2411, vacationed in Ouray, Colo., Los Alamos and Juarez.

Ed Kubiak and his wife motored to Rochester, N.Y., during his recent vacation from 2225.

Louis Aragon and Charlie Goltermann, both of 4152, took their respective vacations in California and Nebraska.

Clark Read, 2234, enjoyed a visit this month from a friend who lives in Washington, D.C., and reports his visitor found Albuquerque as fascinating as the capitol city.

Returned to work in 2232 is James Coleman who underwent a recent appendectomy.

Vacationers include Albert Lucero, 2232, who visited in southern New Mexico and Mexico, and Milton Lew, 2235, who stayed home to prepare his new house for occupancy. Berta Guest, 2231, who spent her time fishing in the Jemez, was re-lieved to know the big "Yellow Bear" had been killed.

When the parents of James Hockett, 2464-2, visited here recently from their home in Springfield, Ill., they were shown the scenic spots around Albuquerque by James and Nancy Hockett, formerly of 4131.

Vacationers from 2334 this month include A. L. Hudson and his wife, who visited San Francisco and Los Angeles, and Charlene Cook who spent a week with her husband prior to his transfer overseas.

Congratulations to Laura and Harry Johnson on the birth of their son, Sept. 17. Laura is in AEC.

V. G. Redmond, 1211, enjoyed a week of vacationing and entertaining relatives from the East recently.

Congratulations to E. L. Gunderson, 2331-1, on the birth of a son, Eric, who arrived Sept. 12. The baby's mother, Margaret, formerly worked in 2450.

Congratulations to Jim Merrill, 5122, who became the father of a girl Thursday, Sept. 18. She was . named Barbara Gail.

Mr. and Mrs. Robert Breslin recently returned from a week in Los Angeles where they visited relatives. Bob is in 1521.

Congratulations to Mr. and Mrs. Gerry Lombardi on the birth of their son, Ralph. Gerry, who is in 1522, passed cigars to his fellow employees to celebrate the event.

Mr. and Mrs. Ben F. Blythe chose Colorado as a vacation spot this year. Upon his return, Ben showed his fellow employees in 1521 some interesting and scenic pictures taken throughout the trip.

Gary Weber, 1931, has gone to Chicago for his vacation. Gary plans to spend two weeks in the Windy City with his friends.

Employees of Division 1524 were recently entertained by their division supervisor, R. E. (Tim) Butler, and his wife, at a lawn party at their home. An evening of fun and dancing followed an excellent dinner of Mexican food.

Marie is the name chosen for the newly arrived daughter of Mr. and Mrs. Robert P. Crabb. Congratulations, Bob (1522) and Theo!

Paul E. Haddon, 2532, was married Sept. 6 to Jeanne Dukley in Connecticut. Both are natives of Connecticut. Best wishes to the newlyweds!

Oscar Berlier, 2232, is looking for a driver who saw an accident at Eubank Drive gate July 3. If you can help him out, call ext. 33236.

Silverio Lujan, who is hospitalized, wishes to thank his fellow employees for remembering him while he is away from 2232.

Among those vacationing from 2351 are Elmer Temple, Al Mares, and Onofre Perea.

Florence Bland, 2351, flew to San Diego over a week end recently to visit her husband who is stationed

Estes Park, Colo., was the destination recently for a few days of visiting and sightseeing for Ruth Archer of 2352.

Co-workers of Inger Johnson, 2231, wish her daughter, Susie, a speedy recovery from her recent illness. Personnel of 2231 extend their getwell wishes also to Kay Wilson who

Pedro Arbelo, 2234, took his recent vacation to welcome home his wife who had visited in Havana, Cuba.

Congratulations are extended to Carmen "Gabe" Gabriel, 2535, on the birth of a daughter on August 29. She was named Debra Ann and weighed 6 pounds, 9 ounces.

Evelyn Hughey, 3153, took her recent vacation in California where she enrolled her son, Jeffrey, in Brown Military Academy in San Diego. She also visited in Los Angeles.

Helen Gaither, 3153-1, has transferred to 4153 and Gertrude Butler, formerly of 3153-2, will be working in 2464-1.

"The Great A-Bomb Robbery" -

Scotland Yard Nabs Dr. Klaus Fuchs And the Net Begins to Close on Gold

By Bob Considine International News Service (World Copyright, 1951, by International News Service) Reprinted by Special Permission

The following article is the tenth of a series giving the detailed story of how Russia carried out history's most fateful international conspiracy and stole America's atomic secrets.

The round-up of Dr. Klaus Fuchs, Harry Gold, Sgt. David Greenglass and Julius and Ethel Rosenberg who combined with persons known and unknown to steal the multibillion dollar A-Bomb secrets and thus drastically alter the course of history - is cloak-and-dagger drama at its ultimate.

The major share of the credit belongs to the FBI. The Bureau's work in the face of the remotest possible clues stands as an enduring monument to its public service. Scotland Yard played a vital role also, as did at least one agent who cannot be named nor his affiliation indicated.

agent - astoundingly That one enough - can be said to be "close" to the inner workings of the dreaded Russian MVD. While in East Germany in 1948 he managed to obtain a coded MVD memorandum which made passing reference to a communist agent well known in atomic research. It did not mention his name, the FBI learned later when its master cryptanalyst broke down the difficult code.

Russians Have A-Bomb

A bit earlier, as the cold war grew colder, British Intelligence people inside Russia learned that Russian production of a prototype A-Bomb was well along the way. Then in September, 1949, to the horror of the free world, geiger counters and other radiation detecting devices rimming the iron curtain picked up appalling evidence that the U.S.S.R. had successfully tested its bomb. The Soviet Union could thenceforth commence its stockpile and, with confidence, make bold aggressions against the democracies.

The horse, so to speak, had fled, but it did not lessen the determination to lock the barn door. For by that time we had greater A-Bombs in the process of manufacture and the holocaustic H-Bomb.

By determining how robbed the first time, and by catching and convicting the robbers, we might guard against a repetition.

Scotland Yard's chief clue as to the identity of a top spy in the atomic picture looked better than it really was. The single word "Fuchs" had appeared in one of the many notebooks seized from the quarters Allan Nunn victed atomic spy, in 1946. But there was no other reference to the name in May's notes. Other well known and trusted names also had appeared in May's notes, for he was a man engulfed in the world of nuclear fission and his friendships were admittedly wide.

Nevertheless, the British denied Fuchs permission to travel to east Germany to visit his father, a famed Quaker and professor of religious science - after Fuchs returned from Los Alamos to become head of the theoretical division of Britain's top atomic energy project at Harwell.

Fuchs Returns

In November, 1947, Fuchs returned briefly to the U.S. to take part in the Atomic Energy Commission's socalled de-classification conference. This is a little known but shocking fact. The British, perhaps at the suggestion of Scotland Yard, had left him off the team of experts assigned to aid the top brass in the AEC to decide which information could now be revealed, which must remain secret, and review the latest developments.

But three renowned American atomic scientists insisted that Fuchs be among the British physicists invited to attend.

So, one of History's master criminals arrived, took part in vital hearings, and later spent a short time at the University of Chicago's Argonne Laboratories, a key research center.

Fuchs returned to England with a fresh store of advanced information, though there were feeble cries later from U.S. scientists that he had not learned much that he did not already know. On the first Saturday of the month following his return he passed the information to the British courier who had taken the place of Harry Gold as Fuchs' contact man.

FBI Investigates

Shortly after it was learned by the FBI that Russia was building the same type of devastating bomb whose secrets this country expected to possess exclusively for many years to come, J. Edgar Hoover's office - cognizant of the provision in the Quebec agreement which enabled British atomic scientists to enter the U.S. without scrutiny came to the conclusion that the guilty man or men must have been on the British team.

The FBI was prodded to this conclusion, and its earliest suspicions of Fuchs as the "leak," by what it calls "one mistake" the brilliant scientist made during his years in this country.

It will not reveal the mistake or its informant. Suffice it to say that the FBI sent word to Britain in the Fall of 1949 that it had better inquire into Fuchs' activities.

The net was closing. And Fuchs, whom Rebecca West later called a 'supreme egotist," was beginning to have his first doubts. But before Miss West could assay those doubts, Fuchs' communist contact had, Fuchs began missing meetings with the contact. The contact's superior in the soviet spy ring insisted that the courier force £100 (pounds) on Fuchs and demand that he - who had a contempt for money - accept it to prove his loyalty to the party and the intrigue.

Fuchs protested at first. But to demonstrate his faith he accepted the money, to his apparent disgust. He told the courier that while he was still of the opinion that a Marxist world would be a better world than the free one, he reserved to himself the right to criticize certain activ-

ities of the communists. Lead Fuchs On

Scotland Yard played Fuchs like a difficult fish. Three months before his arrest it arranged a tidy promotion for him at Harwell to allay any fears he might have, and obstruct any efforts the Russians might have of "liberating" him. His pay was raised from \$4,480 to \$5,040 a year.

In January, 1950, Scotland Yard put the question to him. Fuchs stared blandly at them, the perfect picture of a scientist who found police crude and beneath him. William James Scardon, a security investigator at Harwell, put it quite bluntly. Fuchs shook his head and the little group of British officers were about to leave - for they had no real evidence against him - when Fuchs stopped them.

"I will make a statement," Fuchs said quietly.

In the subsequent interview that followed, and in several others, Fuchs proved a bewildering target to the direct-method police. At one point Scardon accused him directly of giving away A-Bomb secrets.

Fuchs seemed surprised. "I don't think so," he said.

Many exasperating interviews later Fuchs told Scardon, "I will never be persuaded by you to talk." It was shortly before lunch time and Scardon suggested that he think it over during the repast. After the luncheon Fuchs' attitude changed. He agreed to answer questions because he now had a clear conscience.

His historic confession followed. It began with his "very happy childhood," his pride in the role he played

Industrial Clinic Visited in Illinois

Dr. F. C. Hirsch, Corporation Medical Director, and Joan Longhurst, 3154, recently returned from Illinois where they had visited the Caterpillar Tractor Co. mental hygiene clinic in Peoria. Mrs. Longhurst has a doctor of philosophy degree in psychology and works in pre-employment testing in Employment and Personnel Department. The clinic was started in 1945 by Dr. Harold T. Wolff of Cornell University Medical College as a research project.

Dr. Hirsch studied under Dr. Wolff while a student at Cornell Medical College. The Caterpillar clinic is considered as one of the best in the country and is being used as a pattern by much of the country's industry.

with the communist youth of Germany, his years of atomic work and betrayal, and his growing doubts about the perfection of communism.

Fuchs said he was prompted to do what he did because he believed that the Western allies were deliberately allowing Germany and Russia to fight each other to death.

He added that he was a case of "controlled schizophrenia."

Fuchs Tells All

"I used my Marxian philosophy," he expanded, "to conceal my thoughts in two separate compartments. One side was the man I wanted to be. I could be free and easy and happy with other people without fear of disclosing myself because I knew the other compartment would step in if I reached the danger point. . . . I succeeded in the other compartment in establishing myself completely independent of the surrounding forces of society."

His conscience was so clear, he said, that he could see no reason why he could not now be retained at Harwell or be permitted to take a University job which would enable him to carry on his work in atomic

To Prof. Michael Perrin, a fellow scientist, Fuchs gave a detailed report on the information he had given to the Russians. It is a report that has never been released, except in the broadest generalities, because of the fear that he used this device to tell the Soviet Union - by means of the report's publication - things that either had slipped his mind or he had learned since his last contact with his courier.

In sentencing Fuchs on March 1. Lord Chief Justice Rayner Goddard intoned:

Judge Castigates Spy

"You have betrayed the hospitality and protection given to you with the grossest treachery.

"Dare we now give shelter to political refugees who may be followers of this pernicious creed, who may well disguise themselves and bite the hand that feeds them?

"You might have imperiled the friendship between this country and American Republic with whom His Majesty is allied. You have done irreparable harm both to this land and to the United States of America, and you did it as your statement shows clearly for the purpose of furthering your political

The FBI, which had supplied the British with vital tips leading to Fuchs' arrest, had difficulty arranging to see the prisoner after he was taken to Briton and given certain prison tasks which provide time for him to continue his scientific studies.

It was not until the following May that agents Hugh Clegg and Robert Lamphere were permitted to speak to Fuchs, in the presence of a prison officer, Clegg and Lamphere wanted information about Fuchs' American

Fuchs explained that while in the U.S. he had had only one contact. He knew him only by the name "Raymond." He did not know where he lived or worked, judged him to be between 40 and 45, a chemist, and perhaps a first generation American.

From that meagre story the FBI found Harry Gold!

(Next issue: The Round Up.)

The Inquiring Reporter Asks:

"Why Do You Support the Community Chest?"

DALE FASTLE, 5216. I believe in contributing to the Community

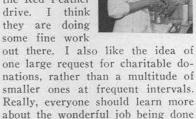

Chest because it is just what it says it is - a community fund used to aid and support worthy and charitable causes in the community. I think it is a good idea to

telescope all the donations into one campaign; that way you aren't constantly being asked for contributions first from one, then another. Your money goes to good use among these

MARGUERITE BARNCORD. 3162. One of the main reasons I

contribute to the Community Chest is that St. Anthony's Orphanage is one of the agencies that is helped by the Red Feather drive. I think they are doing some fine work

out at St. Anthony's.

BERNARD ROLSMA, 1311. I like the idea of one drive being made.

to all with separate donations and this way you are helping a lot of charitable groups, at least a little bit to each one. I've been annoyed in the past with

frequent requests for donations and I like this sort of coverage best. Also, in supporting the Community Chest persons are giving to worthy organizations that they otherwise wouldn't be reaching.

WINIFRED M. DeWITT, 2335-2. I have always supported the Com-

munity Chest back in Chicago and I'll continue to support it in Albuquerque. Some of our church organizations such as orphanages, etc., receive a portion of the donations,

and they are doing good work and deserve whatever one can spare to help the children. I like the idea of one big drive rather than so many small ones. Your money is going for a good cause and it's spread around to reach many charities.

NEIL HANSEN, 3152. The Community Chest provides all of us with

a concerted means to help those in necd. Individual efforts, while meaning well, could not furnish the over-all machinery to insure that the maximum benefit is

obtained from each donation. Experienced agencies can determine how to get the greatest results with the money available.

SHIRLEY TAGLIAFERRI, 3222. In supporting the Community Chest

I feel that I am giving to a worthwhile program, especially since part of the donation goes to orphanages and welfare groups. There are a lot of other advantages to the Red

Feather campaign, too - you make only one gift and it stretches out over many groups, the Y's, the Scouts, the Salvation Army and all the others. At least you reach them all with only a single donation and aren't being asked for money con-

Famous Dance Bands Scheduled For Club; Also Bridge, Bingo, Buffets

All you Coronado Club members better make your plans for the coming two weeks-there are big doings ahead! Name bands, square dances, bridge, informal dances, buffet dinners and other events are all on the menu at the club. Here it is:

Tonight you may relax in the lounge and listen to the piano music of Maurice Karnowsky and tomorrow night an informal dance from 9 to 1 will be held to the music of Al Hamilton and his orchestra.

Sunday, again Maurice Karnowsky will play in the cocktail lounge from 5 until 9. Thursday, Oct. 2 George Arnot and his committee will have bridge on the schedule. It's 25 cents per player with prizes for the winners. Bridge will be played every Thursday unless there is a conflict with some other activity of the club.

Ernie Fields, his orchestra and floor show will return to the Coronado Club Friday night, the third, and dancing will be from 9 to 1. Tickets are \$1.50 per person and reservations will be made when the tickets are purchased. Get your name in early. Maurice Karnowsky will preside at the piano in the lounge from 5 to 9 p.m.

Saturday the fourth, Al Jordan will present accordian music in the cocktail lounge from 7 to 11 and there will be an informal jukebox dance in the ballroom. October 5 is buffet dinner Sunday. Tickets are \$2 per member and \$2.50 for guests. Johnny Laughlin will provide music from 6 to 10.

Wednesday, Oct. 8, is bingo night with the usual array of prizes and thrills. Oct. 9 is the time for card players and this time duplicate bridge will be played.

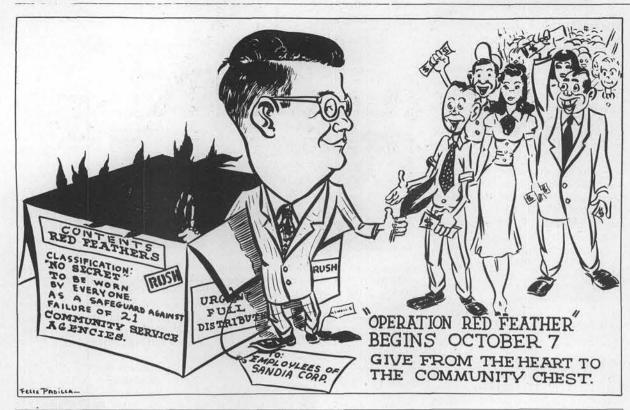

Friday, Oct. 10, is another big night at the Club. Will Osborne, inventor of "slide music" and the perennial campus favorite, will be on hand. Dancing will be from 9 to 1 and tickets are \$1.50 for members and \$2 for guests.

It's Best to Check Your Social Security Account Yearly

Every person whose income comes under the provisions of the Social Security Act should make a regular check of his account as shown on the government records. This is necessary because some mistakes cannot be corrected after three years have elapsed. It is recommended that the check of the records be made every

Each worker's earnings are credited to his Social Security account. The notification of your wages received from Sandia Corporation should be saved and used in checking the Social Security accounts.

You may check on the accuracy of your account by writing the Social Security Administration, Baltimore, Md., and asking for a statement. Be sure to give your Social Security account number. A special post card blank form for this purpose may be secured from the office of the Insurance Counselor, Employee Services, Bldg. 301, or from any Social Security office.

Touch Football Team Wins, Loses In Exciting Games

Sandia Employees touch football team won one and lost one in two thrilling grid contests played re-

The Sandia gridders have a season record of two wins and one loss in Sandia Base Military league play.

In a rough and tumble contest the Sandia Employee team dropped a close decision to the 1099th Sp. Rept. Sq. 30-25 on September 9.

The lads from the 1099th drew first blood in scoring two quick touchdowns. Both attempts at conversion failed.

The Corporation and AEC gridders recovered from these TD's rapidly and tallied twice on two long passes from Larry Callahan to end Dick Heim. They made good on one conversion on a pass from Callahan to Frank Duggin and the Sandia Employees led at the end of the first quarter 13-12.

18-13 at Half

This lead was short-lived, however, as the 1099th scored early in the 2nd quarter to lead 18-13. The two teams battled to a draw for the remainder of the period.

In the third quarter the 1099th ran a kick-off for a TD. The Sandia lads quickly rallied, however, as Jim Clemons intercepted a 1099th pass on the 30 yard line and scampered 70 yards for another Sandia

The 1099th came back a few minutes later to score their final touchdown in the middle of the 4th quarter on a pass. Sandia scored their last touchdown toward the end of the 4th period when Callahan hit-Frank Duggin in the end zone with a short pass.

Play Again Oct. 1

On Sept. 19 the Sandia employee team edged out the 8454th Medics 12-6. The Sandia gridders' passing attack was marred by strong and gusty winds. Both of their TD's were made on passes, however, after a strong running attack put them in scoring position. Larry Callahan's tossing to Frank Duggin was the combination that netted the Corporation lads both of their scores.

Sandia Employees' defensive platoon held the Medics to only one first down during the entire game. The Medics' score came when Frank Duggin's punt was blocked in the first quarter and one of the 8454th's linemen recovered the ball in the end zone for a TD.

The Sandia Employee team was scheduled to play the 580th VH on Wednesday, Sept. 24. Next week they play the 8463rd on Oct. 1 and on Oct. 8 they are scheduled to meet the 8457tht MP Co. All games are played in the evening under the lights of the Sandia Base baseball diamond. Visitors are welcome.

Bowling Leagues Begin Winter Play

League matches of the Sandia Employee Bowling Association began at the Coronado Club alley last Monday. The four leagues comprising the association bowl on Mondays, Wednesdays, Thursdays, and Friday evenings.

On Monday evenings the Jungle League has the alleys. Charley Campbell is president of the league.

The All-States League bowls on Wednesday evening. Pat Laguori is the president.

On Thursday and Friday evenings the Major and Indian Leagues respectively bowl. President of the Major League is Robert Parry. John Gray is president of the Indian

Anyone interested in being placed on one of the teams is asked to contact Dick Heim at ext. 2-9157.

Women Bowlers Choose Team Names

The ladies Jewelette League of women bowlers has designated the following names to the eight teams it comprises: Garnets, Emeralds, Zircons, Diamonds, Turquoise, Onyx, Sapphires and Jades.

Bowling Results MAJOR LEAGUE
