Nat'l Engineering Week To Be Observed In New Mexico

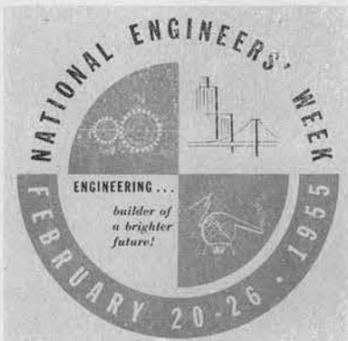

Members of the New Mexico Society of Professional Engineers will observe National Engineering Week with an all-day meeting in Albuquerque, Feb. 19.

Joining in the observance will be registered engineers from almost all branches of the profession.

A feature of the week in New Mexico will be a series of short broadcasts over local radio and television stations. A. Burton Metzger, Sandia Corporation Director of Safety Assurance, and Chairman of the State Engineers' Week observance, has announced the programs.

Recorded remarks will be put on the air from Dr. Walter B. Martin, president of the American Medical Association. Lloyd Wright, president of the American Bar Association, and Clarence T. Shock, president of the National Society of Professional Engineers, will also be heard.

In addition, a recorded talk by

Rear Admiral H. G. Rickover, the Naval engineer who guided the development of the USS Nautilus, the first atomic powered submarine, will be presented.

Registration for the annual meeting of the New Mexico Society of Professional Engineers will be Sat-

urday, Feb. 19, from 8:30 to 2 in the Hilton Hotel lounge.

Board of Directors of the organization will meet at 9:30 and at 11 the Albuquerque Chapter of NMSPE will meet to elect officers.

At 12:15 in the Alvarado Room of the Hilton members will hear a talk by Thomas T. Mann, Roswell, N. M., civil engineering consultant. After the luncheon meeting the Society will have its annual business meeting in the Hilton Hotel ballroom.

Following a social hour at 6:30 in the lounge of the Hotel will be the group's annual banquet. Captain Robert L. Sands, 188th Fighter Bomber Squadron, of Kirtland Air Force Base will be speaker.

A. Burton Metzger, Sandia Corporation Safety Assurance Director, is general chairman for the meeting and Kenneth G. Overbury, 1213, is chairman of the committee in charge of hotel arrangements.

"City of Surprises"

Of interest to Sandians is the article, "Albuquerque, City of Surprises," in the latest issue of Sun Trails magazine now on the newsstands. The story was written by Arch Napier, local free-lance writer. Part of the article tells of Sandia Corporation and its effect upon the community.

Buffet Dinner At Club Feb. 20

Coronado Club members and their guests will gather at a special Sunday afternoon Buffet and Social Hour on Feb. 20 from 5 to 7 p.m.

Cocktails will be served at low Social Hour prices to patrons of the Buffet, according to Gene Newlin, Coronado Club entertainment director.

Terry Worked for Uncle Sam World Over But Admits Best Part Was Coming Home

A desire for adventure which began as a childhood daydream has all come true for Terry Kiley, 1925-1 (assigned to 5522), who has traveled six of the seven seas and seen many of the world's wonders.

Terry spent most of her early years in her native state of Cali-

Terry Kiley
"... six of seven seas"

fornia, but even as a child she had a great desire to see what was on the other side of the mountain.

And in 1942 she began to find out. That year she became a War Department civilian employee by joining the overseas forces of Civil Service. Her first assignment (which was

Vernon Barcafar Instructs Second Training Group

Another group is organizing this week to begin the second training course in fundamentals of electronics, radio and television servicing conducted by Vernon Barcafar, 1611.

Already 41 members of various organizations in the Corporation have enrolled, and Vernon says the class is still open for additional memberships. The course is three hours each week, for 12 weeks. A meeting to determine which evening is most convenient for participants will be held soon. The classes are slated to be held in Bldg. T-833.

Vernon can be reached for information at ext 48143.

Social Security Tax Now Based on First \$4,200 of 1955 Salary

In accordance with the schedule of tax rates under the Federal Insurance Contributions Act and the Social Security Amendments of 1954, Sandia Corporation is now required to make deductions for employee contributions on the first \$4,200 of wages, the Payroll Division announced.

This represents an increase from the \$3,600 base which applied in 1954. The tax rate of two per cent has not been changed.

Sandia Corporation's contribution to each employee's account is increased the same amount.

New GPA Officers Include 2 Sandians

Francis C. Scott, 2412, newly-elected president of the Albuquerque Game Protective Association, took office Jan. 20 at a meeting at the VFW hall.

Ed Kobiela, 1282, an energetic GPA member who sparked the membership drive for the organization, is now serving as secretary-treasurer.

Archimedes Fathered Engineering Back In Days of Ancient Greece

A gray-bearded Greek named Archimedes once told his King, "Give me a place to stand, Sire, and I will move the world."

The proposition was entirely reasonable and he had some of his own highly original mathematics to prove it.

Implements of War

Archimedes, considered the first true engineer, was born in Syracuse, Sicily, in 287 B.C. During his lifetime he perfected war machines and instruments that were not equaled until the early 1700's. He constructed a burning mirror which eager Greeks used to concentrate the sun's rays upon the advancing Roman fleet. The ships burned.

Today, however, the ancient Greek mathematician is remembered by modern engineers not for his war machines, but for the truth he found in pure mathematical science; his geometry of conoids, spheroids, floating bodies, cylinders, and his perfection—to the dismay of count-

The President on Engineers

"The nation has long relied on the skill of its engineers. That skill has contributed to our comforts, our welfare, and our security against potential enemies.

"The responsibilities of our engineers become greater with the passage of each day, and each day we see new evidence of their success in meeting the tremendous challenge of our age.

"To American engineers everywhere, to those working in this country, and to the many abroad who are contributing to the cause of peace, I extend congratulations and best wishes.

"May the observance of National Engineers' Week in 1955 serve to remind our citizens once more of the great service performed by American engineers."

DWIGHT D. EISENHOWER

Gold Diggers of '49 To Party At Coronado Club

Gold miners, trappers, gay blades, and comely beauties will crowd the ballroom of the Coronado Club tomorrow night, when members and guests stage a '49-er Gold Rush Party, from 9 p.m. to 1.

Doc Savage's Orchestra will fiddle for the affair, as singing waiters stroll through the crowd. There will be Monte Carlo activity in the dining area.

A featured troupe of strolling players will present an old-time "mellerdramar" under the direction of Margaret Wetzel, Coronado Club membership chairman and thespian of note. Rehearsals for the play, "Egad, What a Cad" or "Virtue Triumphs Over Villainy," have been going on for some time.

A costumed group of Can-Can dancers will flounce through an original Can-Can routine, and other acts will be presented in a typical Gay Nineties stage show.

"Gay Nineties" costumes will be worn by participants, and admission prices have been set at 50 cents for members, \$1 for guests.

Surplus Auction Sale Planned By Base Radio Club

Members of the Sandia Base Radio Club will stage an auction of surplus radio parts and electronic components on Feb. 14 at 8 p.m., at Building 364, corner of Texas and "H" Streets on the Base.

Art Perry, 2462, who has had considerable experience in auctioneering, will preside.

Coffee and doughnuts will be served after the auction.

D. H. Sampson to Return to W. E. In New York City

Douglas H. Sampson, assistant purchasing agent for Sandia Corporation since June, 1951, will report Mar. 1 to Western Electric Co., 120 Broadway, New York City, where he has been named assistant Superintendent of Planning.

D. H. Sampson

Mr. Sampson has been with Western Electric Co. since 1930 when he was graduated from the University of Pennsylvania with a B.S. degree in economics. He worked at the 120 Broadway offices of the company before joining Sandia.

The Sampson family has resided at 3334-49th Loop, Sandia Base. Moving east with their parents will be Mary Louise, 13; Robert Douglas, 10, and John Howard, 9.

E. C. Deutschle, formerly department manager of 4150, has been named to succeed Mr. Sampson.

Mr. Howarth Named C. of C. Director

Max H. Howarth, Vice-President and General Manager of Sandia Corporation, has been appointed a director of the Albuquerque Chamber of Commerce by President Jack Wentworth.

Other members appointed by Pres. Wentworth are Chapin S. Carnes, president of the Credit Bureau of Albuquerque; Dan Eitzen, president, Motor Hotel Association of New Mexico, and Maurice Sanchez, chairman of the City Commission.

"I will move the world"

less struggling engineering students—of Euclid's theory of integral calculus.

First Engineer

Archimedes was the first in a long line of trained men who called themselves engineers, men whose work demands a considerable expenditure of energy and creative skill.

As a science, engineering did not spring from any single civilization or culture. All peoples of the globe have contributed some significant portion. Leonardo da Vinci and Galileo of the Renaissance, the ancient Egyptian tomb builders, the Chinese who labored for centuries to erect the Great Wall, all of these were engineers.

But it has been over a recent span of 200 to 300 years that engineering

The "Invisible" Engineer

There's a story entitled "The Invisible Man" which is centered about a person whose presence in the plot is so commonplace that no one notices him or is even aware that he was there.

Our daily lives are affected in a great many ways by "invisible men." They are the people upon whom we depend for comfort, health, pleasure, and even the safety of our nation. Most Americans seldom see them or think about the part they play in our affairs.

The week of February 20-26 has been set aside in recognition of some of these "invisible men"—The Engineers.

Albuquerque and the whole state of New Mexico teems with engineers—probably one of the greatest concentrations of men of this profession in the world. Petroleum engineers are helping bring "black gold" from the earth. Engineers are working to solve our water problem. Mining engineers are scouring the state for uranium and other precious minerals. Mining engineers are enriching the soils of the country with the potash they find in New Mexico.

Engineers are building our highways, streets, homes, office buildings. They are assuring us of communications, ample electricity, gas for heating, pure drinking water and better crops.

At Sandia Corporation, at Los Alamos, at the Armed Forces Special Weapons Project, in Santa Fe Operations of the Atomic Energy Commission, at the U. S. District Engineers office and elsewhere in this state, engineers are striving to make your life better.

Your homes, your highways, and your health, to mention only a few things, are better through the efforts of engineers. Much of the work of New Mexico engineers is seen every day, but vast labors of these men are truly "invisible" and must remain so until the cloak of security is lifted from atomic research and development projects being conducted for the nation's defense.

When the day arrives that all the labors and accomplishments of our engineers may be told, these men will join the ranks of the great men whose works are also in the annals of history.

Not-So Welcome Home

Returning from a recent business trip was 5512's Jim Brown whose family, including three-year-old son, Jay, went to Santa Fe Station to meet him. Jim saw Jay running toward him on the platform and dropping his suitcase, the proud father opened wide his arms, prepared for a big welcome-home smack. Instead, the youngster ran right past papa for a better glimpse of a shiny new diesel locomotive. "How can I compete with the Santa Fe?" asks Jim.

Tot's Travel Tale

Life aboard a train was most trying for another three-year-old, Steven Peterson, whose pop, Ernie, works in 2620. Small Stevie was constantly jostled, stepped on, and generally crowded in the aisles during a recent trip. Folks would beg his pardon with steady "Sorry, young man" apologies. Disembarking at a station, Stevie, himself, accidentally stepped on an elderly man's toe. He was quick to remedy the situation with a "Sorry, young man" remark to the oldster.

He Could Sell Salt!

Don Williams, 1611, has a new respect for the American salesman. Don went down town to purchase a door handle for his old car, came home with a brand new automobile!

Beret Facts

A couple of our security inspectors, having lunch at a Gallup cafe recently, noticed a neighboring booth was occupied by four gentlemen, all wearing berets. The Sandians commented audibly on such headgear being worn in the southwest. About that time the other parties arose to pay their checks. The inspectors were amazed to see Gorgeous George and three of his husky cohorts from the wrestling world tower above them.

Mobile Radio Law To Be Explained To Caravan Club

Ben Caine, former judge and now newscaster for radio station KDEF, will speak at a meeting of the Amateur Radio Caravan Club of New Mexico, Feb. 23, at 7:45 p.m.

He will give an interpretive discussion of various aspects of laws as they relate to mobile radio operation and functions of the sheriff's deputy. All members of the club have been deputized by the Bernalillo County sheriff.

The meeting will be at Lovelace Clinic Radiation Therapy Center on Gibson Blvd., Harlow Beene, 2122, publicity chairman, has announced.

Reid Samuelson, 5523, on military leave, has reported to Camp Kilmer, N. J., prior to overseas assignment.

John Russell, 5521, has returned from an emergency trip to Superior, Wis., to attend the funeral of his brother-in-law. John was accompanied by Mrs. Russell and their two sons.

Carmen Hillebrand, 2464, is recuperating at home following her recent operation.

From 2463: Paul House and his wife have moved into their new home at 1400 Indiana NE; Gail Ward's family joined the new Sandian here Feb. 2, arriving from California; John Bassett vacationed for two weeks in Bermuda.

Charles Puglisi, 2613, a new employee, was joined by his family this month. Formerly of Tuckahowe, N. Y., they are now at home at 3137-39th Place, Sandia Base.

Skiing at Squaw Valley, Calif., was a week's holiday for 1641's Marilyn DeBetty who visited Reno and Las Vegas, Nev., en route home.

Charles C. Burks, 1326, was married Jan. 30 to Sally Ann Olson of Seattle, Wash., at St. Johns' Episcopal Church in Seattle. The newlyweds are now at home at 1601 Tijeras NE.

A corner in 2231 was decorated with streamers and paper storks Jan. 26 when Ethel Yeast's co-workers honored her with a break-time cake and gift shower. The honored guest, formerly Ethel Abeyta, has been with the laboratory for more than 8½ years.

Norma Booth and Harvey Kubiak are both wished a fast recovery from illness by their co-workers in 2231.

Welcomed back to 2231 recently was Verna Clark who underwent an appendectomy several weeks ago.

W. G. Jenkins, 2224, and his wife, accompanied by their daughter, are leaving this week to attend the wedding of their son, Bill, to Anne Carter, Feb. 13, in Nashville, Tenn.

around the departments

THE MARRIAGE of Anita E. Warnick, 2221, and John Wesley Ransom III was held recently in the home of the bridegroom's parents, 940 Rio Grande Blvd. NW. The couple were attended by Norman Ransom, brother of the bridegroom, and Janet Meinert, 2221.

W. H. Weaver, 2232, and his family are back from a vacation in Los Angeles and vicinity.

Gus Kleindienst, 2232, is another Sandian hit by the flu bug. His fellow employees wish him a quick recovery.

E. J. Whitmore, 2235, became a grandfather Feb. 1 when E. J. Whitmore III was born at Bel-Air hospital.

His friends in 1932 welcomed Carlos Baca back to work recently following his recuperation from surgery.

Among new homeowners in the city are Chris Padilla, 1643, who's now living at 2721 Charleston NE, Ashley Bie, 1641, at home now in the residence at 2917 Valencia Dr. NE.

Bernice Beeson, 3162, was surprised by her friends in 1630 who honored her at a birthday luncheon at the Desert Sands recently.

Leo Adams, 1631, visited his wife last week in Denver where she is recuperating from surgery.

Marilyn Langmyer, 5210, appeared on a recent Johnny G TV show, singing "Musetta's Waltz" from La Boheme and "Make Believe" from Show Boat. She'll appear again soon on the show, accompanied by a string quartet.

Violet Shine, 1324, and her husband are enjoying their new Oldsmobile, a two-tone cream and rust color.

Joe Manley, 2561, has recently moved into his new home at 1222 Elizabeth NE.

Proud new grandmother, Rose Mary Morrissey, 2545, displayed the clever cards announcing the birth of the granddaughter. They read: "The 1955 'Ford Special' is here. This is the BEST model Ford ever made. This model is not for sale but may be viewed at our own private show rooms after Feb. 5, 1955, providing it is not being oiled, washed, or reupholstered. This model is 22 inches long, weighs 9 pounds 7 ounces, and is a very lovely blond named Kathryn Elizabeth Ford."

When members of 2561 enjoyed a Spanish pot-luck lunch recently, marking several transfers, they asked Susie Navarette, who was on vacation, to attend and to bring her delicious Spanish rice. Susie interrupted her holiday to join in the event.

The engagement of Patricia Ridges of Salt Lake City, Utah, to Carter D. Broyles, 5111, was announced recently at a tea in Salt Lake City. Plans are being made for a spring wedding to be held in Beverly Hills, Calif. Miss Ridges is the daughter of Mr. and Mrs. A. H. Ridges, Santa Monica, Calif.

Now residing in their new home at 2501 Texas St. NE are 5112's Ted Holmes and family.

Beverly Adams, 3153, returned recently from a week's visit with her mother who is convalescing in a Denver hospital.

Driving a handsome new green Chevrolet is 3151's Jay Davidson.

CREDIT UNION OFFICIALS, recently elected to head the Sandia Laboratory Federal Credit Union during the coming year, include, left to right, front row: R. J. Blount, treasurer; David Tarbox, president; Joe Hickey, chairman of credit committee, and rear row: C. John Hess, chairman of the supervisory committee, and C. H. DeSelm, vice-president. These officers will serve for one year, until the next annual meeting.

Sandia's Engineers Are A Versatile Group

Continued from Page 1

Archimedes Is Father of Engineering

Engineers in War

came of age, significantly a serving art to military science and tactics.

Where modern man took his armies, his engineers were forced first to lay roads, later to build the siege guns, the vehicles, and the aqueducts to bring them water. The barge canals of Washington's time, the rifles and cannons, the cobblestone streets in Boston on which Washington's armies trod, were all forerunners of the Panama Canal, Hoover Dam, and the Golden Gate Bridge. And atomic weapons.

Today some 600,000 American engineers (over 1,000 of them are in Sandia Corporation) are practicing their profession. Their engineering work lies in agriculture, aeronautics, in chemical, civil and electrical engineering and similar fields. Surprisingly, almost 7,000 of these engineers are women.

Engineers Needed

The engineering needs of America's Atomic Age are staggering. Though more than 25,000 engineers were graduated from the nation's engineering schools last year, the number is not enough to meet the nation's minimum needs.

Today's engineer is a most popular fellow. He is a perceptive person, grimly aware of the competitive race he runs against time and against the technological advances of other, less peaceful nations. No longer derided, even in ballads, as an uncouth chap who "lives in caves and ditches," he is a member of the select group of "doers" upon whom the world relies for progress.

Photos by Laskar

ENGINEERS - - - THEIR FIELDS

No single occupational group possesses a creative monopoly in the development of atomic weapons. The creative talents of thousands of individuals are joined in this common effort.

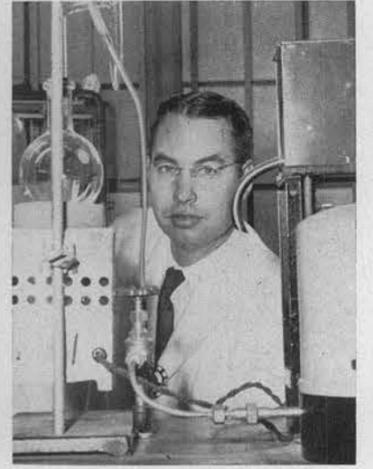

With all the diverse groups in the field, engineers are helping provide a cohesive force that welds the best efforts of these many people into an efficiently functioning machine.

It is the versatility of the engineering profession that helps make possible its accomplishments. It was probably an engineer who first said, "The difficult we do immediately, the impossible takes a little time."

A few of Sandia's engineers, and their specialized fields as represented by professional societies, are pictured here.

PROMOTIONS

CHARLES L. STONER to section supervisor, 2541-1. Charles came to Sandia four years ago from Dayton, Ohio, where he had worked for the Miami Valley Tool and Die Company. During World War II he was with the special engineering detachment assigned to Los Alamos Scientific Laboratory. Previously he had worked for other tool and engineering firms in inspection machinist jobs. He served his apprenticeship in the Frigidaire Division of General Motors and later studied mathematics and design in trade school.

FRANK A. GOSS, to division supervisor, 5313. A graduate of New York University with a B.S. degree in electrical engineering, Frank came to Sandia two years ago after working for Bell Telephone Laboratories for 24 years. He started work at Bell on sound picture development, later transferring to broadcast transmission research at Whippany, N. J. After eight years there, Frank returned to New York for a year of development work on low frequency quartz crystal filters. He subsequently worked on airborne radar at Whippany before moving to Albuquerque.

JOHN W. PEARCE to division supervisor, 1614. John came to the laboratory three years ago from North Canton, Ohio, where he had worked in the engineering division of Hoover Company. He was an instructor in aircraft school for the Ford Motor Co., Dearborn, Mich., for four years and previously had taught chemistry and physics in public high school. John received an A.B. degree from Northern Michigan College of Education at Marquette and his M.A. degree in physics from the University of Michigan.

EDWARD L. EISENBERG to division supervisor, 1722. Ed came to Sandia in September, 1949. Immediately before that he was an assistant to the vice-president and factory manager of Ainsworth Manufacturing Corp. in Detroit, Mich. After obtaining his degree from Dartmouth college, with majors in engineering and business administration, he worked as a construction engineer for Michigan Alkali Co., at Wyndotte. Later he joined the purchasing and planning organization of Chrysler Corp., then he joined Grand Rapids Metalcraft Corp. as assistant general manager in charge of production.

HORACE M. "MAX" ROBERSON to division supervisor, 2413. Max joined the Corporation in October, 1948. For a year prior he had been in business for himself in Albuquerque. A native of New Mexico, he was secretary-treasurer of the Federal Land Bank branch at Estancia, N. M., for several years. Previously he was associated with the department of public welfare.

REINHARDT A. QUELLE to section supervisor, 3122-1. Bert joined Sandia Corporation in July, 1951, coming here from Peru, Neb., where he had been dean of Nebraska State Teachers College. Previously he had served as supervisors' conference leader at Western Electric's Lincoln Shops and as supervisor of the training section at Duluth Shops, Western Electric Co. For two years he headed the department of vocational rehabilitation for the State of Nebraska, preceded by supervisors' conference work for Western Electric at its Hawthorne Works, Chicago. Bert was a district accountant for Montgomery-Ward in its Atlantic Coast region at one time, and he served as coach, instructor, principal and superintendent of schools for various schools in Nebraska early in his career. He holds a B.A. in arts and sciences, from Midland College, Fremont, Nebr., and has done graduate work at the University of Chicago, the University of Nebraska, and Colorado State College of Education, Greeley, where he earned his master's degree in education administration.

DON R. WELDON to section supervisor, 1921-2. Don joined the Corporation in Sept., 1950, following sales work for the New York Life Insurance Co., in Albuquerque. Previously he had piloted planes for Carco Air Service here for two years. An Air Force pilot during World War II, Don was assigned to the China-Burma-India theater where he flew the "hump". He attended the University of New Mexico after returning from 3½ years military service. Before the war Don was circulation manager for the *Current Argus* in Carlsbad, N. M., his home town.

CHARLES S. STACK, to section supervisor, 1931-2. Charles re-joined Sandia Corporation last year following graduate study at the University of Cincinnati. He first worked here in 1950 after graduation from Ohio University, Athens, O., where he received his B.A. degree. While in college, Charles was general manager of a retail store. He is a veteran of three years with the U. S. Navy.

Sunday, Feb. 13
"Time Out for Ginger," 8:30 p.m., Little Theatre.

Friday, Feb. 18
John Mason Brown, Drama Critic,

N. Y. Times, Student Union Bldg., UNM, 8:15 p.m.

Saturday, Feb. 19
"The Joyless Street," Greta Garbo, Mitchell Hall (UNM Film Society).

Tuesday, Feb. 22
Civic Symphony Concert, Carlisle Gymnasium, UNM campus, 8:30 p.m.

Through Friday, Feb. 19
New Mexico Art League's All-Albuquerque artist exhibition at Botts Memorial Hall of Public Library, Hacienda in Old Town, Johnson Gallery, UNM campus, and Hilton Mezzanine.

AIEE Ladies Night Planned for Feb. 25

A joint dinner meeting and Ladies' Night of the Northern New Mexico section, and the Los Alamos-Santa Fe sub-section of the American Institute of Electrical Engineers will be held Feb. 25 at 7:30 p.m. at the Coronado Club.

A short talk, and a showing of slides taken at the summer general meeting of the AIEE held last year in Los Angeles will be made by Earl Craven, 2443.

ASME Meets Feb. 16

W. F. McCormack, fuels and lubrication engineer for the northern New Mexico area of the Standard Oil Company of Texas, will speak on "Progress in Lubrication and Power" at a meeting of the Albuquerque section of the American Society for Mechanical Engineers. A movie will be shown, Dick Freeman, 1623, publicity chairman, announced.

The meeting will be held 7:30 p.m., Feb. 16, in Room 101 of Mitchell Hall on the University of New Mexico campus.

Refreshments will be served.

ROBERT A. KNUDSON to division supervisor, 3164. Bob came to the Laboratory in Jan., 1952, from Fort Dodge, Iowa, where he had been a practicing attorney, and in addition city attorney and county prosecutor, Webster County, at various times. Bob received his B.A. degree and law degree from the University of Iowa. During World War II he was a chief petty officer in the U. S. Navy in the Pacific and American Theatres. Bob, who passed the New Mexico bar a year ago, is a member of the New Mexico State Bar Association, the Albuquerque Lawyers' Club, and a member of the Iowa State Bar Association. He has been admitted to practice in the federal courts.

No job is so important and no service is so urgent that we cannot take time to perform our work safely.

Sandians Mourn Employees' Deaths

Thelma Gordon, 2480, died Sunday, Feb. 6, at her home in Hatch, N. M., after an illness of several weeks.

Miss Gordon joined Sandia Corporation in August, 1952, and worked here until May, 1953, when she transferred to a secretarial post at Salton Sea Test Base.

A native of New Mexico, Miss Gordon attended New Mexico A&M College and held a teacher's certificate from that school. Before joining Sandia, she had held various bookkeeping and auditing jobs in Carlsbad, N. M.; El Paso, Tex.; Davenport, Iowa, and in Hatch. She is survived by her parents and a sister in Hatch, and a brother in Houston, Texas.

Roy B. Evans, 2414, a Sandia Corporation employee since September, 1954, died of a heart attack on Feb. 4. He was 45.

Roy was a member of the Baptist Church, the Masonic Lodge of Port St. Joe, Florida, and is survived by his widow, Mrs. Ruth Evans, a daughter, Jane, and a son, James. The family lives at 1509 Hendola NE.

Funeral services were in Albuquerque, Feb. 7th, from the Hoffmantown Baptist Church.

Sympathy

His friends at the Laboratory extend their sympathy to George W. Browning, 2352, whose father died Jan. 15 in Forest City, Ark.

Sympathy is extended to Marie Therkildson, 3151, for the death of her mother in Greensboro, N. C., recently.

QUICK LUNCH facilities in the cafeteria of Bldg. 880 are now in operation. Alice Winchell, 1925, acts as cashier during the noon hours. Elaine Leeper is manager of the Cafeteria in Bldg. 880.

HUNGRY SANDIANS, soon to have their appetites satisfied, get their food at the cafeteria in Bldg. 880. Facilities of the eating establishment have been enlarged to include a quick lunch counter where a meal may be purchased in a matter of a minute or so with a minimum of waiting.

BROOKS, BROWN, CLAY, ALSUP

Operators of A "Tight Little Island"

Each day, perhaps hundreds of times, vehicles assigned to Sandia Corporation by the Atomic Energy Commission pass through the gates of the Corporation motor pool. It takes a good man to know what cars and trucks are in, what ones are out, where they are, what pieces of equipment are being repaired and when each car and truck needs lubrication and an oil change.

The four men who know each of these AEC vehicles, maybe better than they know their own car, are dispatchers of 2417-1.

"Taxi Service"

The phone will ring. "Taxi service," Harry Clay says. While still taking down information he pushes a button, a uniformed driver bobs up at a window, gets his information and is off on a fresh run.

Harry Clay goes through the dispatch ritual more than 200 times a day—as he estimates it—and despite the "hurry up" characteristics of most of the calls which filter through his telephone, he remains calm and unruffled.

Clay's role as one of the dispatchers for Sandia Corporation makes him responsible for the movements of taxis, pick-up trucks, cranes,

patch office located at the entrance of the motor pool. Past this "tight little island" daily flow more than 500 routine trips, all necessary in the activity of the Corporation.

Burl controls the movements of vehicles regularly assigned to various organizations of Sandia Corporation.

He explains that his drivers pick up their daily trip tickets each morning, returning the slip at the close of the day. Alsup reviews all trip tickets, noting comments on the function of the vehicles. When the occasion requires it he deadlines the car or truck for repairs or preventive maintenance.

The Alsup-Clay team is on duty from 7:30 in the morning until 4:30 at night. Clay has been a Sandia employee since 1949; he is married, has a 17-year-old son and lives at 1637 Grand Ave. NE.

Alsup, his wife, Elizabeth, and son Jerry, live at 3121 County View Road SW.

Long Trips Too

Their supervisor is Stan Brooks, 2417-1. Stan predicts, then schedules the long-distance hauling needs of the Corporation, particularly when tests begin to shape up in the field. In addition to the dispatch activities which are part of his job he also operates a small "long distance moving van line." In a year's time his semi-trailer drivers have logged more than 300,000 miles of cross country travel.

Stan Brooks is married, has two sons, Randy and Phillip. With his wife, Margaret, and boys he lives at 4624-10th NW and has been working at Sandia since 1946.

None of the big-time drama of the cross country hauler can be found in Marion Brown's fork lift yard. These little vehicles, there are more than 100 of them here, supply the lifting and transportation requirements for many tasks. They have hooks to lift, "squeezing" arms to handle barrels, tilting forks for stacking.

Some of these small vehicles are gas and diesel powered, others run by electric motors getting power from batteries. A close watch on the batteries helps keep them rolling and batteries are charged at convenient times.

Relief Dispatcher

In Building 875, relief dispatcher Carl Michaels keeps close tab on auto licenses, and operators permits. He administers driving tests and when Harry Clay and Burl Alsup go home at 4:30, Carl takes over their combined duties until 6 p.m. Since 1951, when he came to Sandia Corporation, Carl has maintained records of gasoline consumption in the motor pool.

SUPERVISING the movements and maintenance of more than 200 automotive vehicles is Bob Flaxbart, division supervisor of 2417, who directs activities of Motor Pool Division.

BUSY HARRY CLAY monitors a "hurry-up" request for taxi service, meanwhile writing out the trip ticket. Harry does this over 200 times a day.

HUNDREDS of spare car keys line the walls of Stan Brooks' office. Dispatch Supervisor Stan handles dispatching, too, of long-distance over-the-road hauls.

MIKE MARTINEZ, candidate for a driver's job on the Dumpster truck in the background, is being given a check run by Relief Dispatcher Carl Michaels of the Corporation Motor Pool. All licenses and permits are handled in Michaels' office.

BILL SEDILLO AND TONY GABALDON peer through the dispatch office glass as they pick up their daily trip tickets from vehicle dispatcher, Burl Alsup. On board at left are maintained the hundreds of trip tickets used daily in motor pool activities.

sweepers, graders, buses, and semi-trailer trucks—all being sent out on one-time trips. Twenty-six drivers and heavy equipment operators are operating the equipment he dispatches.

So often does Clay's telephone ring with requests for immediate dispatches, and other summonses, that he talks much of his eight-hour day.

"Tight Little Island"

Clay's close associate at work is Burl Alsup, his partner in the dis-

Carl, his wife, June, and three children, Deborah, John, and Gary, live at 409 Tahoe Place NE.

It's the cooperation of men like Stan Brooks, Harry Clay, Burl Alsup, Carl Michaels, Marion Brown, and Bob Flaxbart, their division supervisor, that keeps vital wheels rolling efficiently.

Sandia Artists to Display Work

The second Annual Coronado Art Show will be held April 3 to April 11, Chairman Dick Strome, 2463, has announced. Pictures will be hung in the Coronado Club Ballroom.

Pictures in all media will be accepted: oils, pastels, water colors, and the like. All pictures should be new pictures, Strome said, and must not have been formally exhibited elsewhere.

Some 69 paintings were displayed in last year's highly successful exhibition, and increasing interest promises a good show in 1955.

Artists who submit paintings for display are asked to remove the hanging wire from the paintings, although screw eyes should be left on the frames. Special mounts are employed to hang paintings at the Club.

Speech Contest

Don Jenkins, 3154, won the speech contest in the Sandia Toastmasters' Club recent run-off and will represent the group at the city contest in March.

Don's winning talk was titled "How Big Need a Big Bomb Be?". Don was the district winner in last year's contest. Runner-up at the Sandia club's meeting was L. W. Newhouse, 1645.

ASQC Meets Feb. 25

"Statistical Considerations in Measurements" is the talk chosen for the Feb. 25 meeting of the Albuquerque section, American Society for Quality Control, at 8 p.m., Room 122, Mitchell Hall, University of New Mexico.

The speaker will be James R. Duffett, head of reliabilities section, systems analysis branch, Ordnance Mission, White Sands Proving Ground.

Congratulations

BORN TO:
Mr. and Mrs. Ray Arvidson, 5523, a son, Edward Francis, Jan. 29.

Mr. and Mrs. Don L. Rost, 3171, a daughter, Debra Layne, Jan. 30.

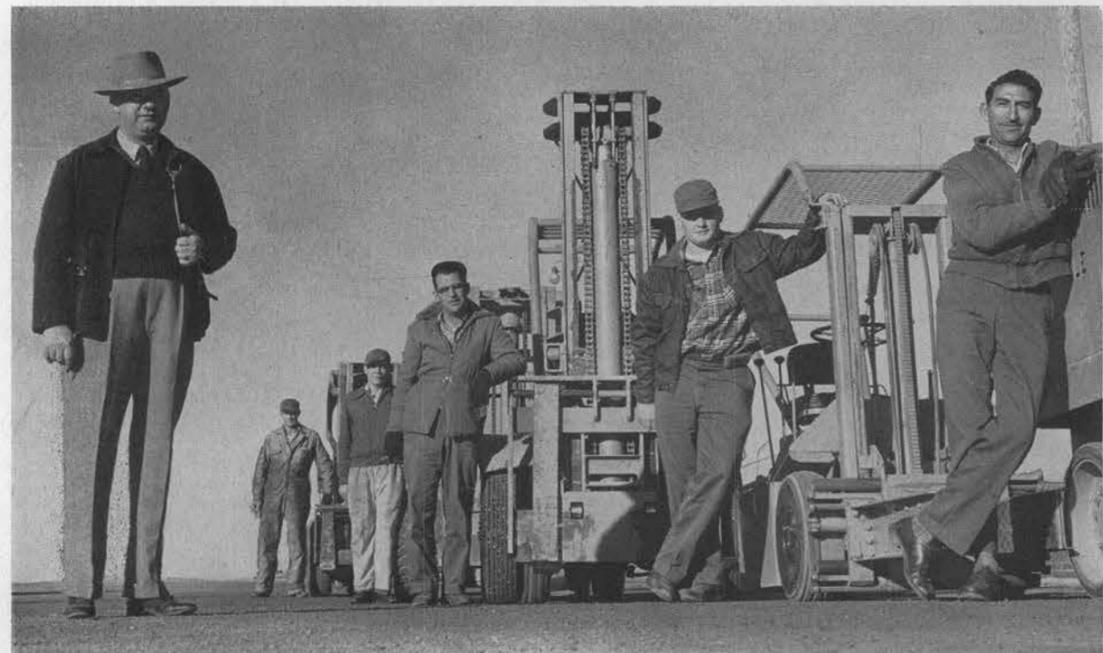

Mr. and Mrs. Charles D. O'Connor, 2351, a daughter, Betty Jo, Jan. 22.

Mr. and Mrs. John Tanner, 1932, a son, Michael Timothy, Jan. 27.

Mr. and Mrs. Jim Martin, 1713, a son, Peter Albert, Jan. 23.

Safety Saying . . .

You can get a permanent injury from a temporary repair job.

FORK LIFT DISPATCHER is Marion Brown, left, left to right, are Elmer Templeton, Robert Hartenberger, Rafael Montoya, Paul Kind, and Carlos Ortega.

WANTED—

DRIVING MEMBER to join car pool from vicinity of Rio Grande Blvd. and Candelaria Rd. to tech area gate 4 or 5. Galbreath, Alb. 4-4306.

RIDE from vicinity of 3400 Anderson SE to Bldg. 894 or tech area. Adeline Scharping, ext. 20262.

RIDE or join car pool from north 4th to south or east parking lot. C. Ross, Alb. 4-2677.

RIDERS or will join or form car pool from vicinity Princess Jeanne Park to south gate. Joe Manley, ext. 31510.

RIDE to south gate or will join car pool. Lloyd Barnes, 2717 Indiana NE, ext. 28238.

RIDER from vicinity 3800 block Rio Grande NE or pick up in vicinity of Rio Grande and Mt. Rd., Juan Pedroncelli, ext. 23255.

RIDE to Bldg. 880 from 15th St. and Lomas NW. Raye Knoff, ext. 31134.

RIDE from 2929 Cuervo Dr. NE to Bldg. 880. Morris Goebel, ext. 37147.

LONG-HAIRED KITTEN. Brown, ext. 33257.

RIDE from Peralta, N. M., to Sandia Base. Fita Aragon, ext. 40148.

JOIN or form car pool from vicinity Joe Weeks' Rackheath Park to Bldg. 880. Wallace Hansen, ext. 33245.

TWO OR THREE bedroom house or apartment furnished; adults, prefer east side for March 1 occupancy. Maginnis, Alb. 4-1367.

RIDE from corner of SE Edith and Central East to vicinity Bldg. 880 or 887. Barbara Fiori, ext. 31141.

DRIVER for car pool, Snow Heights No. 1 to Bldg. 880. Walt Barbier, ext. 29247 or Dick Watkins, ext. 32251.

Handball Players Start Competition

Some 17 entries in the Sandia Employees Handball Association have begun play in singles and doubles ladder competition this week and additional entries were anticipated shortly.

Both singles and doubles matches are being played in the New Base Gym, at times arranged by players. Matches may be played any week day from 5 p.m. through 10, and on Saturdays, from 10 a.m. to 5 p.m. Play on Sundays is from 1 to 5 p.m.

Entries in the Sandia Corporation Employees handball competition include: Les Dasoff, J. W. McKiernan, John Souza, Jim Kelly, Nick Pavletich, Bob Lozano, Dick Heim, Ray Pierotti, Harold Cochrell, Tom Van Zandt, John Hainlein, Harold Wicke, Harold Cushman, Gene Lucero, Robert Dean, Herbert Howe, and Frank Castillo.

I Professional R Group E Activities

The Albuquerque-Los Alamos section of the Institute of Radio Engineers will hold a buffet dinner and meeting Feb. 18, 6:30 p.m., at the Coronado Club.

The technical portion of the meeting, scheduled for 8:30 p.m., will hear C. W. Johnstone, of Los Alamos, who will speak on "100-channel Height Analyzer Using Magnetic Storage."

Ladies and guests of IRE members are cordially invited to attend. A square dance demonstration will be held for the ladies after the buffet dinner.

Antenna-Microwave

The IRE professional group on antennas and propagation will hold a joint meeting with the group on microwave theory and techniques Feb. 17, at 8 p.m., in the Electrical Engineering Building on the University campus.

Roger White, of Roger White Electronic Devices, will give a paper on "Traveling Wave Tubes, Carsinotrons, Gas Detectors, and Electronic Control of Microwave Energy."

RIDE from Lomas and 10th NW to Bldg. 800. Marlene Gurien, ext. 42164.

RIDE from 8517 Trumbull SE or Wyoming and Trumbull SE to Bldg. 802. Nellie Sanchez, Alb. 5-0228.

COMMUNICATIONS receiver, Hallicrafter or what-have-you. Shane, 208 Dartmouth SE, Alb. 5-4811.

ANY SIZE steel or bone knitting needles. Moser, Alb. 5-9429.

CAPABLE conscientious lady to care for two small children, do light housework for working parents 5 days a week. 3157 44th Place, Sandia Base, ext. 25173.

RIDER who can provide transportation for others two afternoons a week. Snow Heights No. 2 to Bldg. 880 or 802. Al Goodman, ext. 30134.

GOOD USED PLAYPEN, reasonable. Kitty Dillon, Alb. 5-1880.

NEED ONE PERSON to join car pool from vicinity San Mateo and Menaul, Mossman section. Westman, ext. 36161.

RIDE from 201 High St. NE to Bldg. 802. Pat Dixon, ext. 20244.

FOR RENT—

FURNISHED ROOM with lavatory and private entrance, 1 block from base, 219 Virginia SE. Frank Snider, Alb. 5-9364.

CALIFORNIA STYLE 2-bedroom house, den, fireplace, hardwood floors, sprinklers, landscaped, 5417 Rosemont Ave. NE, \$80. Shock, ext. 52150.

SMALL EFFICIENCY apartment, completely furnished, utilities paid \$50 mo., 605 Fitzgerald Rd. NW. Mayer, Alb. 6-4958.

UNFURNISHED 2-bedroom duplex, attached garage, separate entrance, stove, refrigerator, blinds, March 1 occupancy. Nott, Alb. 3-9145.

UNFURNISHED 1-bedroom apt., refrigerator and gas range furnished, 515 Quincey Place SE. Kirtley, Alb. 6-5817.

LOST—

AT OFFICERS CLUB evening Jan. 21, man's overcoat, green-gray wool gabardine, Washburn's label, information appreciated. Worth, ext. 20235.

FOUND—

LADY'S diamond set wedding band, loser may identify and claim at Employee Services, ext. 26149.

TRADE—

.32 AUTOMATIC for .22 revolver. Flowers, 1833 Kentucky NE.

MISCELLANEOUS—

TO GIVE AWAY: Boxer-Collie puppies, both parents registered. Mark, ext. 42250.

New Son in Robert Kraus Home Makes Flying Trip From Germany by Himself

A little bit of heaven flew out of the skies this month and into the hearts of Robert and Sarah Kraus, brand new foster parents to a 22-month-old German-born orphan boy. Little Robert Joseph arrived in Albuquerque by plane from Munich only three days after the adopting parents received final word that they could have the child.

"And ever since," his father explains, "our whole household has been in a state of excitement."

Two prouder parents aren't to be found. The cuddly brown-haired youngster, a laughing, friendly toddler, is the focal point of their lives. His arrival here followed almost two years of negotiation through Catholic Charities.

Robert, who works in 2222, is taking a week's vacation to become better acquainted with his son and to help Sarah with the shopping they must do for Bobbie's wardrobe. The family lives southwest of the city, west off Coors Road.

"Got to get him a haircut, too," says dad. "Then we'll visit the zoo, buy some toys, and take him calling to see our friends. That little fellow is so loveable . . . he's never met a stranger."

C. E. Jordan Joins Labor Relations As Section Supervisor

Cecil E. Jordan, formerly supervisor of the Engineering Methods Section of the Business Methods Department, has been named supervisor of Section 2621-1, Labor Relations Department.

Cecil has been with Sandia Corporation since January, 1952. He is a graduate of the University of Notre Dame Colleges of Commerce and Law and served as an agent for the Federal Bureau of Investigation before joining Sandia.

Prior to that time he was employed as a sales representative with International Business Machines Corp. and also served several years in the Navy Supply Corps during World War II.

He was admitted to the bar in Indiana in 1942 and the New Mexico bar in 1954. Cecil also has been admitted to practice before the Federal courts of the New Mexico Judicial District.

Valparaiso Tech Alumni to Meet

Delta Chapter of the Valparaiso Technical Institute Alumni Association will tour the Person Power plant Feb. 11, at 8 p.m., according to John Lannon, 5221.

Members and guests of the VTI Association will meet at the Person plant south of Albuquerque on South Broadway, State Highway 47.

Further information may be obtained from James C. Drake, ext. 40232.

Weddings and Engagements

Elva Kollander, 1925, became the bride of Thomas H. Martin, 2111, Jan. 22 at St. Timothy's Evangelical Lutheran Church. A reception in their honor was held at the home of the bridegroom's brother, William L. Martin, 2613. The newlyweds are now at home in Tijeras.

Mrs. Martin Miss Moser

The Rev. and Mrs. Carey R. Moser, Danville, Va., recently announced the engagement of their daughter, Marjorie, 1925, to David H. Davis of Albuquerque. Marjorie resides at 612 Madeira Dr. SE with her brother and sister-in-law, Mr. and Mrs. Robert C. Moser.

K. E. Mead Speaks To ASM Members

Keith E. Mead, 1621, will discuss "Ultrasonic Testing" at a meeting of the Albuquerque chapter of the American Society for Metals, Feb. 24, at 7:30 p.m., according to Lee McKittrick, 1634, publicity chairman. The meeting will be held at the University of New Mexico mechanical engineering building.

Mr. Mead's talk will include a demonstration, and motion pictures on the topic will be shown.
