published every other Friday for the employees of sandia corporation, contractor to the atomic energy commission

Vol. 7, No. 12

ALBUQUERQUE, NEW MEXICO

JUNE 17, 1955

Raymond P. Lutz Assumes Duties As Superintendent

Raymond P. Lutz, formerly superintendent of the North Carolina works of Western Electric Company, has arrived here to assume his new duties with Sandia Corporation as Superintendent of Manufacturing,

Raymond P. Lutz

Planning and Inspection. The appointment becomes effective July 1.

Mr. Lutz succeeds Harvey G. Mehlhouse, who has been transferred back to the Western Electric Company as Assistant Works Manager, Kearny, in charge of the Haverhill and Lawrence Shops in Massachusetts.

Purdue Graduate

A graduate of Purdue University with a master's degree, Mr. Lutz is a native of Kentucky, and taught chemistry at Purdue for a year. He has studied at the Mellon Institute of Industrial Research as an industrial fellow.

In 1929, he joined Western Electric as a raw materials engineer, and was later promoted to department chief. He became superintendent of engineering at the Burlington Works in 1951, and superintendent of the Greensboro, N. C., plant in 1953.

Mr. Lutz and his wife and family will live in the AEC Housing Area when housing becomes available.

New 880 Parking Plan Is Effective June 20

The experimental parking and traffic plan for drivers who use lots designated for Bldg. 880 took one more step forward last week. Parking locations were drawn by lot and the new assignments will be used Monday morning, June 20.

Employees are urged to cooperate with the new experimental plan in order to make it workable for all concerned.

Magicians Elect Fred Darugh Head Of Magicians' Group

Fred Darugh, 5311, was elected president of the Albuquerque Magicians' Club, and installed at a recent meeting of the organization.

Elected vice-president of the group was Ray Knight, 1643, and secretary-treasurer, Dean Wise, 2151.

Outgoing president, Howard Westgate, 1613, was awarded a gold wand for his services during the past year.

Sandians who are professional, semi-professional or amateur magicians are invited to join the Albuquerque Magicians Club. Further information may be obtained from Fred Darugh, 8807 Menaul NE, or Ray Knight, 10120 Propps NE.

Entries Are Still Being Received For Sandia Service Pin Contest

Only one week remains before the close of the contest to select the design for Sandia Corporation's service recognition emblem. Your sketch must be received by the Employee Services and Public Relations Department by the close of business Friday, June 24, to be eligible for consideration.

Response so far has been "gratifying", according to the secret committee appointed to screen the contest entries and select the best ideas. Finished art work will be prepared and the Sandia Lab News will carry photographs of several entries selected as finalists. Employees will be invited to vote on the emblem of their choice and results will be announced in the near future. The winner will receive an award of \$75.00 in U. S. Savings Bonds, maturity value.

As soon as the winner is determined arrangements will be made

for the emblem to be reproduced as a crest which will grace the service recognition pins to be awarded employees having five years' or more service with the project. No date has been set for the initial presentation ceremonies.

Here are the rules for the emblem contest. Remember that you don't have to be an artist to submit an idea. A rough sketch and verbal description will be sufficient.

Contest Rules

1. Entries must be prepared and submitted as a sketch in enlarged form on 8½x11-inch paper.
2. Copyrighted trademarks of other companies or organizations should not be imitated.
3. The design must be simple enough that it will have a recognizable and distinctive character when reduced to lapel button size.
4. The design should include some

provision for indicating length of service in multiples of five years.

5. Entries must be submitted no later than June 24 to the Public Relations Division, 3125, Bldg. 829.
6. The name and organization number of the person submitting the entry should not appear on the sketch. The entry should be sealed in a blank envelope and enclosed in an outer envelope which bears the entrant's name and organization. Entries will be numbered for identification when received, but will be considered anonymously.
7. Only Sandia Corporation employees are eligible to participate. As many entries as desired may be submitted by an individual.
8. The Corporation reserves the right to modify the winning entry as desired, or to reject all entries if the judges rule that a suitable design has not been submitted.

Tech Writers to View Movie, Hear Speaker On Photo-Lithography

A movie on "Photo-lithography" will be a feature of the Albuquerque Society of Technical Writers' meeting, June 20, at 7:30 p.m. in the Coronado La Cana Room.

A. H. Perry, 2462, will exhibit photo-lithographic materials used within the Sandia Corporation, and will discuss the technical writer's part in successful photo-lithographic printing.

Refreshments will be served. Members and guests may call Justin Heineman, ext. 21148, for reservations.

Security Inspectors Undergo Re-training

Sandia Corporation security inspectors have been enrolled recently in re-training sessions and among the perfect scorers at the Corporation pistol range are these men:

C. B. Kraus, Clifford R. Baxter, Hugo Flores, Eugene Reddick, and Benny Anaya, all of Shift 1.

From Shift 2: Malcolm Ward, Robert Cresson, Robert Crompton, Hubert Hacker, and Richard Cash.

From Shift 3: Johnny Harlow, Thomas Carbin, Jack Rich, and Clyde Lovin.

Special Caller to Preside for Club's Square Dancers

Square dancers at the Coronado Club, June 24, will get a chance to hear one of the nation's top-notch callers in the person of "Butch" Nelson.

Nelson has traveled in 33 states, acting as guest caller for some of the country's outstanding square dance conferences.

The dance will be held in the main ballroom of the club, and western attire will be worn by the dancers. Dancing is from 8:30 to 11:30 p.m. to the music of the Duke City Cowboys. Admission is 50 cents for members, \$1.00 for guests.

Robert Knudson Named President Of Coronado Club

Robert A. Knudson, 3164, was elected president of the Coronado Club at the Club's annual meeting last Monday and will take office on July 1. He succeeds Charles B. O'Keefe, president during 1954-55.

Elected vice-president was Joseph R. Heaston, 5212. Harold V. Catt,

R. A. Knudson —President— J. R. Heaston —Vice President—

1920, was elected treasurer, and A. M. "Milt" Fellows, 3151, secretary.

Both Catt and Knudson were elected to two-year terms on the Club Board of Directors.

Others elected to the board included Bill Bramlett 2452, Ray

A. M. Fellows —Secretary— H. V. Catt —Treasurer—

Schultz 1320, Martha Howard 1641, Charles Kaspar 3153, and Robert Culley 5213.

O'Keefe will continue to serve on the board of directors, having been elected to a two-year term last year.

An excellent turn-out of Coronado Club members was in evidence, despite the thunder showers during most of the evening. The members expressed approval of the Anderson-Dunham management of the Club during the past year, and passed a motion to commend the catering organization.

ENGINEER of Blondie's Hot Rod, Avris McReynolds, pauses between runs along trackless streets of Sandia Corporation Technical Area. Let-

tering job on tender behind locomotive was done by one of Blondie's co-workers in 2353. The train speeds up freight delivery in the tech area.

'Blondie's Hot Rod' Is Not A Sports Car

The right-of-way for Blondie's Hot Rod — according to Blondie — "runs along the main drag of the Technical Area from Building 892 to Building 840. From here I break it down and run my string of 'flats' all over the area."

Blondie — who is Avris McReynolds of 2353 — is the "engineer" of a train of 18 to 25 road-running flatcars, employed in Shipping and Receiving to distribute incoming supplies throughout the Sandia Corporation. His freight includes elec-

tronic components, medical supplies, cement, office furniture, fire extinguishers—"every big and little item we use in our work," Blondie says.

Roundhouse for Blondie's Hot Rod lies just south of Building 894. Here the empty cars are stored overnight, and here, at the quarter-mile long docks of the Receiving Section, the trains are made up for later deliveries to all buildings in the Technical Area.

Blondie says his locomotive is capable of 18 miles an hour "without

too much of a load behind," but he rarely exceeds 5 to 8 miles an hour with a string of flats. "Flats" are four-wheel oaken-decked dock carts commonly used to transport freight by hand from one loading dock to another. For Blondie's Hot Rod, however, the flats have been equipped with automatic couplings. Blondie can hook up an entire string in a few minutes, but uncoupling operations must be done manually.

Blondie's "engine" is a tug or "dock mule," complete with steel cab, speed indicator, brakes, and a coup-

ling device that rattles the windows nearby when he "humps up" one of the four round trips he makes a day. The tug is maintained by expert mechanics in the Motor Pool.

Blondie has been a Sandia Corporation employee since 1952. He and his wife, Mary, and 6-year-old daughter, live at 1401 Tobacco Road SW, Albuquerque.

Why do they call him "Blondie"?

He took off his locomotive cap, ran his hand over his almost bald pate. "It shines in the sun," he said.

Coronado Club Quinquennial

A new group of directors and officers will be in command as the Coronado Club celebrates five years of successful and prosperous operation next weekend. The responsibilities these unpaid directors assume become greater as the years go by but their job is made easier by the solid foundation of progress laid by previous Boards.

Looking back to 1949 when construction of the building was begun, one wonders how those first difficult hurdles were ever cleared. At that time the University of California was surrendering the management of the Laboratory to the newly formed Sandia Corporation.

There was a good deal of speculation about the future of the Laboratory, the nature of major activities and the ultimate size of the installation. At the last minute, budgetary limitations forced the revision of plans for the club but adequate funds were provided to go ahead with construction of the present building.

As the time drew near for the grand opening, an interim Board of Directors launched a membership campaign with nothing to sell except hope and confidence but by the time the club opened on June 9, 1950, nearly 1,000 charter members had been enrolled.

Since that time the club has enjoyed a steady though unspectacular growth. There have been seasonal fluctuations in membership but a surprising number of those who joined 5 years ago have remained loyal to the club and have helped to guide and strengthen it through the years.

The Sandia Lab News takes this opportunity to congratulate the Coronado Club for its part in strengthening the social and recreational program available to Corporation and AEC employees here at Sandia.

Hal Gunn Lands Large Sailfish During Week's Vacation in Mexico

Honors for the largest sailfish boated in Guaymas, Mexico, so far this season were accorded the PRIDE, Hal Gunn's rented cruiser, during a week's vacation at the Hotel Playa de Cortes on the Gulf of California. Although Hal, 3153, didn't hook the biggest one, he managed to land an 88-pounder that week.

The party aboard the Pride brought three "sails" to shore and an uncounted number of smaller fish including barracuda, pompano, and

mackerel. Some of the smaller fish used as bait for the trophy fish, he said.

With Hal on his trip were his wife Betty, and son, Timmy, 10.

Hal says he spent several days in Guaymas, just 830 miles from Albuquerque, either fishing or swimming. He says the blue water off the Mexican coastal village contains fish of all descriptions and as far as he's concerned, the Sea of Cortez is the best fishing hole in the world.

GRINNING Hal Gunn offers incontrovertible proof of fishing prowess on his recent week-long vacation in Guaymas, Mexico. Hal claims Guaymas is a fisherman's paradise. Wife Betty, center, and son, Timmy, right, agree.

around the departments

Louise Lewis, 2152, and her young daughters chose Pennsylvania for their 1955 holiday; Ann McFarland, 1621, and sons are vacationing at Balboa Island, Calif., for a week. John Bryson, 2151, and his family, and Chester Corbin, 2124, and his family are visiting in Indiana with relatives. Crater Lake is the vacation destination this month for Louise Klopolsky, 2113, and her family.

Their friends at the Laboratory wish a fast recovery for Florence Gustafson, 2100, and Walter Tillman, 2151, who have been ill.

Entertaining guests from Pennsylvania and California are Edith Bloom, 2120, and her husband.

Irene Berger, 2561, and her husband, John Berger, 2452, were called to Maine on an emergency due to the serious illness of Irene's father.

Lew Longmire, 1611, has returned from a one-man invasion of the sovereign state of Texas—included was a conquest of crappies in Buffalo Lake.

Vacationers from 2231 included Lucy Cochran, who visited relatives in Oklahoma; Lillian Liskovec, a tour of Carlsbad; Fred Callahan, to visit relatives in El Paso; Patsy Garrett, a visit with a sister in Indiana; and Ruth Gustin, off for a holiday in Ohio.

His friends at the base send their get-well wishes to Ernest Lovato, 2231, who has been hospitalized at Veterans Hospital.

Cliff Erickson, 1643-1, and his family drove to Midland and El Paso, Texas, recently. They also visited Juarez, Mex.

Carl Kentfield, 1643-1, and family recently returned from a vacation in Indiana and Iowa where they visited friends and relatives.

Mary Ray Houston, 1641-3, and Hobson E. Houston, 5313, and their son, Bill, recently returned from a motor trip to Tupelo, Mississippi.

Tony DiBenedetto, 1641-3, recently returned from a trip to Ft. Smith, Little Rock, New Orleans, and Pensacola where he visited friends and relatives. He also visited his parents in Mississippi.

Martha Howard, 1641-3, visited at Carlsbad and El Paso recently.

Thomas Doyen, son of Juan Doyen, 1641-4, won the Albuquerque City Jr. Chess Championship which was held at the YMCA May 28, 29, and 30th. Thomas has been playing chess for eight years.

C. A. Tucker, 1641-3, and family are enjoying a vacation in Boston, visiting friends and relatives.

Mary Beth Stroud, 4131, August bride-to-be, was honored May 25 with a "Wear Your Gift" kitchen shower. Joyce Nicoll won first prize wearing a luncheon set as a sarong and hot pot holders as earrings.

Louis Narvaiz, 4131, is spending two weeks vacation in California enjoying the sights around Los Angeles.

From 2462: Co-workers of Ruth Lilley and Millie Graves entertained the girls at a birthday party recently. Roger Williams is back at work after an illness. Richard Hodges and his family are vacationing in Omaha.

Oklahoma and Arkansas are the vacation destination for AEC's E. T. Cook and family.

ROBERT LEE WALLIS, 5214, and his bride, the former Helen Louise Laughrin, were married recently at the All State Episcopal Church in Brawley, Calif. The couple honeymooned at the Grand Canyon and Las Vegas, Nev., and are now at home on Allen Street in Brawley. The bridegroom is assigned to Salton Sea Base.

Members of Dept. 1610 enjoyed a picnic June 12 at the Hope Nursery, Alameda.

Friends and co-workers of Ruby Pearson, 2333, surprised her with a spaghetti dinner at the home of Frances Brightfield recently.

Eleanor Maxwell, 2333, and her husband are leaving today for a visit with their families in southern California. A belated honeymoon to Catalina Island is planned.

Enjoying a tour of the western states is the vacation plan for the Frank Moon family. Frank works in 2333.

Another vacationer from 2333, Frances Brightfield, and her family were expected back this week from a trip to Mexico. Mary Sumpter, 2333, is taking an enforced rest, recuperating from surgery.

Florence Gamez, 1922, spent a recent weekend touring the Petrified Forest, the Painted Desert, and the Grand Canyon. Estelle Muses, 1922, enjoyed a hike to Oak Creek Canyon with the Hikers Club over the holiday weekend, notwithstanding her encounter with poison oak.

Edward Kells, 5252, and his family have moved into their new home at 3310 Hoyle NE.

Mel Vick, 5211, and his family are vacationing in Iowa.

Allan P. Gruer, 5210, has been kept busy attending graduations—Allan, Jr., from the University of New Mexico, and John from Highland High School.

Arnold Bentz, 5213, and family enjoyed a fishing trip to Red River, New Mexico, Memorial Day weekend.

A. L. Romero, 5611, has returned from two weeks vacation in Mexico City.

Ray Anderson, 5611, is vacationing in Colorado and Utah. George Bradley spent his two weeks in El Paso and Andy Chacon relaxed in northern New Mexico.

W. C. Elskes, 2411, and Mrs. Elskes and son vacationed for two weeks in Houston, Texas, visiting their families.

C. H. Crass, 2415, and Mrs. Crass and son vacationed for three weeks at Jackson, Tenn., and Harriman, Tenn., visiting their families.

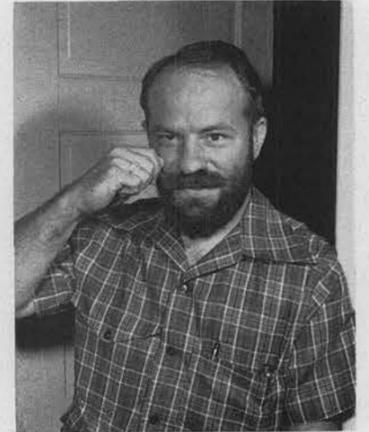

J. H. Simmons, 2413, vacationed for a week at Fresno, Calif.

F. C. Scott, 2412, and Mrs. Scott vacationed at Claremont, Calif., visiting his sister.

Welcomed back to 2414 after a long illness is Geronimo "Chief" Alexander.

Lew Sorley, 3124, has been elected president of Los Autores, local writers' organization.

Roma Coats, 5211, and her husband enjoyed a two weeks vacation fishing and camping at Lake Mead, Nevada.

HEADED for his hometown's centennial this summer will be 5210's Anthony J. Peterson, who will surprise the home folks with this handsome display of spinach. Bement, Illinois, scene of the "old timers'" celebration, is Pete's destination.

W. T. Smith, 5215, attended the IRE convention in Chicago, Illinois.

Edwin L. Jenkins, 5212, and his wife, Waneta, 5421, are vacationing in Illinois.

Ira B. Ward, 5212, and family are vacationing in California.

O. B. Tjeltweed, 1212, and family have just returned from a two weeks vacation in Wayne, Arkansas, where Mrs. Tjeltweed's parents live. "Ozzie" reported his fishing was somewhat marred by rainfall up to four inches per day.

Betty Pickel, 2310, will catch up on her reading while spending the week in Ruidoso with her husband and son who plan to fish. Joan Linenthal, 2312, enplaned to Chicago recently to visit her parents who live in Lake Bluff, Ill.

All-Day Fiesta to Mark Coronado Club Fifth Anniversary

An all-day Spanish style Fiesta will mark the Fifth Anniversary celebration of Coronado Club members beginning at 10 a.m., June 25, and lasting until the early morning hours of June 26.

Sole event open to non-members of the Coronado Club will be the Fiesta Dance from 9 p.m. to 1. Ray Giles orchestra will play, and guests will be admitted at \$1 per person. There will be no admission charge for members.

Entertainments scheduled for the day's program include an appearance of the world-famed Phillip Whitecloud Indian Dancers, folk songs by Robert Jamieson, and a gala square dance in the patio. In the pool, professional divers will stage a diving exhibition.

A free lunch of wieners and beans will be served at 5 p.m., and birthday cake and coffee will be served. The MBC trio will play.

Children present at the Fiesta will be given free treats and gifts.

The Coronado Club patio and ballroom areas will be specially decorated for the affair. In charge of arrangements is Gene Newlin, Club entertainment director.

G. I. News—

From Sandians in The Armed Forces

A recent visitor to the Laboratory was Ens. Ed Janssen, on leave from 1284 and now stationed at the San Francisco Naval Shipyards on the coast.

Word has been received here of the recent arrival of James Clark Kadlec, son of Ens. and Mrs. Emil Kadlec. Emil, on leave from 1322, and his wife, the former Georgia Coffey, of 5433, and their new son are living at White Sands, N. M.

Lt. James F. Conlon, on military leave from 4152, writes from Japan where he is stationed with the U. S. Marine Corps to give his new mailing address. Jim reports that he's been corresponding with other Sandians who are on military leave, having received their location from the Sandia Lab News. His address is:

1st Lt. James F. Conlon
H and S Co., 1st Am. Trac. BN
FPO, San Francisco, Calif.

Word has been received of the birth of a son, John Patrick, to Mr. and Mrs. George Glaser, Jacksonville, Fla., on June 2. George is on military leave from 5222. Mrs. Glaser is the former Pat Shea, daughter of Mr. and Mrs. Timothy E. Shea.

Ben Petterson, on military leave from 5223, writes that he would enjoy hearing from some of his friends at Sandia. His address is:

A/C B. J. Petterson
A.D. 18447940
Box 434, Graham Air Force Base
Marianna, Fla.

Safety Saying —

Good Housekeeping is Good Safety.

OFFICIAL OPENING—George W. Landry, President of Sandia Corporation when the Coronado Club was dedicated, spoke to the more than 1,000 guests present for the club's dedication, June 9, 1950. Members of the first Board of Directors are, L to R: T. G. O'Hara, Harold W. Sharp,

Ted B. Sherwin, Mr. Landry, Harold Gunn, Geneva Bishop, Robert E. Roy, and R. W. Henderson. Other members of the Board not in this picture were R. J. Hansen, J. L. Rowe, D. F. Worth, Dorothy Youel and L. J. Heilman. The party was the Coronado Club's first large social function.

5 Years History told by Coronado Club Presidents

Hal Gunn 1950

Ed Brawley 1950-1951

Dave Tarbox 1951-1952

Charlie Campbell 1952-1953

Al Gruer 1953-1954

Charlie O'Keefe 1954-1955

Five years old this month and a husky 'un is the Coronado Club whose seventh set of officers will take over the reins for the coming 12 months.

Six presidents have spearheaded the club prior to Robert A. Knudson, 3164, who was elected top officer at Monday's membership gathering. The brief history of the Coronado Club is traced in interviews with the past presidents.

Hal Gunn, 3153, was first president and headed the interim board in their preparations for launching the recreation center.

"We held a membership drive, incorporated the club, wrote proposed by-laws, house rules, organized the Bingo parties, started bowling leagues — even purchased furniture and kitchen equipment and supplies," Hal recalls, "all before the Club actually opened."

He remembers that Opening Night saw 1,000 persons present. "It was on its way due to the hard work of many Sandia employees."

Ed Brawley, AEC, was the first elected full-term president. "We were kept busy establishing policy, anticipating the needs of members and making financial plans," he reports.

The Board of Directors of 1950-1951 and Ed conceived the Egg Nog party during the holidays and it's now a traditional celebration for Coronado Club members. Much of this group's work was in setting up a firm financial foundation for the operation.

In 1951, Dave Tarbox, 2350, as president saw a rapid increase in membership.

"By the end of the year," he recalls, "we had 1,400 members and we were still growing. More members meant a greater need for facilities and LaCana Room was added."

"At the end of my term," he explains, "it was apparent that the future of the club depended upon the members' interest—and in turn, what the club could offer its members."

Dave left the Board in 1952, but remains an ardent booster of the Coronado Club.

Charles W. Campbell, 1900, became president in 1952. "That year," he says, "accounting procedures of the club were taken over by the concessionaire, Anderson-Dunham."

Big-name entertainment was presented with nationally prominent bands playing for dances. "We built the new bandstand, added cabanas in the patio and opened a summer snack bar in the pool area."

Al Gruer, 5210, was president for the 1953-1954 term. Al recalls that the gradual shifting of more financial responsibilities onto the club, itself, was underway; it was necessary for Al and his board to effect some operating economies.

The bar operation was changed to "regular" bar service, permitting a cut in the bar staff and at the same time improving service. Revenue adjustments were made, bringing the club to a maximum of operating efficiency.

Improvements made during that

tenure included refinements in furnishings—new carpeting, drapes, additional planters, etc.—refurbishing of the popular billiard tables and bowling lanes, along with the purchase of safer, more durable aluminum diving boards in the pool area.

President of the club for 1954-1955 was Charles B. O'Keefe, 1932. "We followed the pattern set by the previous boards," Charlie says, "but we made some changes in the Club's operation."

"Efforts were made to improve group recreation and we modified accounting systems, started the junior bowling league and enlarged the entertainment schedule."

During President O'Keefe's term the second swimming pool was launched, more re-decorating undertaken. The membership, still growing, reached an all-time high.

Charlie, who retires from office July 1, looks on the Coronado Club with approval as he says "it provides leisure-time recreation at a low cost enjoyed by few civilians elsewhere in the country."

Today the healthy five-year-old social center has reached a maturity through intelligent and careful guidance.

Presidents Gunn, Brawley, Tarbox, Campbell, Gruer, and O'Keefe, their boards, and club members are responsible for the success of the undertaking.

As Hal Gunn comments, "The first five years were probably the hardest. We're only beginning to thrive. The club's future is limited only by the interests of the members."

L/IL PHIL Whitecloud, small son of Philip Whitecloud, will appear with his father and a troupe of world-famed Indian dancers during the Fifth Anniversary Fiesta of the Coronado Club.

Kansas State Alumni to Meet

Alumni and former students of Kansas State College will hold a reunion dinner at the Cedars in Cedar Crest, June 21. The dinner will be 7:30 p.m.

Reservations may be obtained from Neal Humble, Alb. 53706, and should be phoned in before June 18.

EVENTS

Around the departments

Vacationing from 2313, is Doris Brothers, who is caring for her 11-year-old daughter, Susan, who is recuperating at home from an attack of spinal meningitis.

Visiting relatives in Nebraska is 2315's Heny Moeding, who will be on vacation this month. Sally Lewis, 2311, began her vacation this week to return to her parents' home in Michigan.

Rear Adm. (Ret.) A. M. Granum, 2313, is visiting his daughter in Boston and a son in Norfolk this month. The Granums, who motored east, are also spending a part of their holiday in Montreal, Canada.

From 4135: Ed Herrity has returned from a week's vacation in Nebraska; Irene Kay is spending her vacation relaxing at home; also at home is Bea Dusek, who plans some re-decorating at her North Adams St. residence; Virginia Haley is enjoying her vacation to take her children to some points of interest in the Land of Enchantment.

John Frizzell, 2332, is spending a few days' vacation at home to entertain relatives from Illinois. Bill Garcia, 2332, returned recently from a two weeks' naval cruise with the Reserves at New Orleans.

Vacationing recently in Chicago were Margaret Gunderson, 2450, and her husband, "Gunnar", 2331.

George Dingman, 2452, has been recuperating at home from an appendectomy. Mike J. Sylvester, 2452, is spending two weeks on active military duty with the army reservists. Walt Smith, 2452, and his family chose California for their vacation headquarters this month.

W. M. Bacchus, 5413, took a group of Boy Scouts to Philmont Scout Ranch near Cimarroncito, N. M., recently.

Howard Wiche, 5122, and his wife and two children are enjoying a vacation in Lakewood, Calif.

Recently elected to head the men's club of Central Methodist Church was Purdy Meigs, 5122.

Kay Graff planned to accompany her husband on fishing excursions around the state this month and do a little painting at home while vacationing from 5131.

C. R. Koontz, 1932, is home from a vacation in Oregon and Washington and reports the fishing was good—he returned with five 28-inch salmon and two gallons of razor clams.

Everyone in 1932 welcomed Rod Lord back to work after an eight-months illness.

From 1932: Amado Chavez spent a week vacationing at McNary, Ariz., where he visited relatives; Billy Neil visited Kansas City; Philburn Pettigrew took his summer holiday at Fort Worth, Texas; Richard Callahan and his wife and children visited relatives in San Francisco.

Among new homeowners are John Armijo who will be moving soon into his new residence at 3308 Madeira St. NE, and Robert Barry, now living in his new Princess Jeanne Park home. Both work in 1932.

Visiting her parents at Ponca City, Okla., recently was Kay Jones, 2520. Geneal Horton, 2523, has returned from a short holiday in Arizona, accompanied by her mother who is visiting from Oklahoma.

William Hurford

Robert Crow

Albert Goodman

Three Sandians Earn Degrees

College degrees were awarded recently to several Sandians.

William Hurford, 5251, a project engineer in the Corporation's Field Test organization, received his MS degree in civil engineering from the University of New Mexico.

Bill joined the Laboratory eight years ago after earning his BS degree in civil engineering from UNM. A native of Alabama, he moved with his family in 1939 to Roswell, N. M., where he attended high school. He entered the University here in 1943.

Bill is married and lives at 903 Parkland Circle SE with his wife and three sons.

Robert E. Crow, 1932, completed

requirements for his BS degree in business administration and government last January and received his diploma May 27 from the College of St. Joseph.

A member of the field services organization, Bob came to the Corporation seven months ago after serving four years in the Air Force at Sandia Base. His earlier college work was done at the University of Georgia.

Bob's wife, Shirley, works in 6021. They live at 1800 Britt Ave. NE.

Albert Goodman, 5143, was awarded a Master's Degree in Physics at the University of New Mexico

graduation exercises last week. Al joined the project in November, 1946, and was employed for a time at Los Alamos Scientific Laboratory before coming here.

Prior to his work at Los Alamos, he worked for the Hazeltine Electronics Corporation on Long Island, New York.

Al secured his BS degree in physics at City College of New York, and has done graduate work at Brooklyn Polytechnic Institute. He is presently working on his PhD at UNM.

He lives with his wife, Aileen, and two daughters, Maura and Doreen, at 10012 Blume NE.

Hal Thomas Pitches 1-Hit Softball Game As Team Wins 10-0

Harold Thomas, 2562, hurled a neat 1-hit game for the Braves this week in "A" League competition, when they ran over the Dodgers, 10-0. Lone hit of the game came in the last half of the seventh stanza, when Cliff Rudy beat out a bunt.

The Braves collected 11 hits off Dodger Pitcher Cliff Rudy.

In "B" League, the Indians of 1240 took over undisputed possession of first place by defeating the Yankees, 10-6. Fred Shoemaker, 1241, pitched a six-hitter for the Indians, while banging out 10 hits from Ken Gillespie, 5351. Big blows of the evening were home runs by Ray Pierotti and Russ Robinette of 1243.

In "C" League, the Padres from 1300 are having things pretty much their own way. They have won all five of their season games by wide margins. Manweller is the Padre hurler.

Welding Group Names New Slate of Officers

Elected first vice-chairman of the Albuquerque chapter of the American Welding Society was Charles Boettcher, 2531, with O. S. Howard of the Brown-Olds Plumbing and Heating Co., of Albuquerque, named chairman.

Olay Nerhus, 1281, was chosen committee member-at-large for the group, and William McClure, of ACF Industries, secretary.

Sympathy

To Max Lopez, 2417, for the death of his mother last week.

To Henry Saavedra, 2112, for the death of his father recently.

To Bill Spradling, 2152, for the death of his mother.

To Mr. and Mrs. Hadley M. Rowe, 2413, for the death of their son, Darryl, last week.

Sarah Giannini, wife of the late Renato Giannini, 2541, and her children wish to thank Sandians for their thoughtfulness during the family's bereavement.

Parents of Blind Children Organize

An organization for the parents of blind or visually handicapped children is being formed by the wife of Sandia's James N. Demas, 5521.

The group will assist parents with their special problems. Braille lessons will be available and problem discussions will be held at weekly meetings. Another feature will be play periods for the children.

Meeting time is 7:30 each Thursday. Further information may be secured from Mrs. Demas, Alb. 6-1347.

Gretchen Quelle Visits Mexico on Work-Study Tour

Gretchen Quelle, 19-year-old daughter of "Bert" Quelle, 3122, will travel to Alejandra, Mexico, this summer, where she will participate in

Gretchen Quelle

the construction of the new Alejandra Episcopal Mission buildings. She will leave Albuquerque, June 19, returning about August 20.

Some 30 campers will work on the construction of a dormitory for grade school children, she said. The work will be almost entirely manual labor, supervised by native Mexican artisans. The new dormitory will provide educational facilities for Mexican children who would not otherwise obtain an education.

Weddings and Engagements

Colleen Ramsey, 1925, will become the bride of Charles Nelson tomorrow at a 7 p.m. candlelight ceremony in the chapel of Central Methodist

Miss Ramsey

Church. Mr. Nelson, a student at the University of New Mexico, and Colleen are planning a delayed honeymoon trip in late summer. They will be at home at 2711 Silver Ave. SE.

The engagement of Lorraine Medina, 1932, to Richard L. Cook of Kirtland Air Force Base, has been announced by her parents, Mr. and Mrs. F. N. Medina of Questa, N. M. The date for the wedding has been set for June 25.

Congratulations

BORN TO:

Mr. and Mrs. Richard Clark, 5512-3, a daughter, Virginia Vonceil, April 29.

Mr. and Mrs. John Wakeland, 4112, a daughter, Janice Helen, May 28.

Mr. and Mrs. Grover Tuck, 5213, a son, Merlyn Val, May 31.

Mr. and Mrs. Elmer White, 1612, a son, David Robert, May 30.

Mr. and Mrs. Earl Davis, 1641-4, a son, May 13.

Mr. and Mrs. Jimmy Winters, 2418, a son, Thomas Gordon, May 29.

Mr. and Mrs. Art Jones, 2464, a daughter, Barbara Ann, June 9.

Mr. and Mrs. A. J. Clark, 5352, a son, David Perrine, May 28.

Mr. and Mrs. Robert W. Malley, 5242, a son, Randall, June 1.

PROMOTIONS

MICHAEL J. NORRIS to supervisor of A Division, 5121. "Mike" came to Sandia Corporation two years ago as a mathematician in the Systems Analysis Department. The previous seven years he taught at the College of St. Thomas, St. Paul, Minn., where he had received his BS degree in 1939.

In the summer of 1949 he was with the Ordnance Research Group, No. 1, at the University of Chicago, and in 1952 was assigned to a Navy research project at the University of Minnesota. Mike received his MA degree in mathematics from Harvard University in 1941 and his Ph.D from Harvard in 1944.

A veteran of two years' service in the Navy, Mike was a combat information officer aboard a destroyer, the U.S.S. Terry, in the Pacific Theater, in addition to teaching mathematics for the U. S. Naval Academy in Annapolis for several months.

WOODROW W. BLEDSOE, to supervisor of D Division, 5124. A Sandian for the past two years, "Woody" has worked as a mathematician in the Systems Analysis Department.

He received his B.S. degree from the University of Utah and his M.A. and Ph.D degrees in mathematics from the University of California where he was a teaching assistant and lecturer before coming to Albuquerque.

Woody spent five years in the Army when he was assigned as assistant operations officer for an engineering group. He saw duty in the European Theater.

CHARLES F. MUEHLENWEG to supervisor of Design Division, 5143. "Charlie" joined the Laboratory in 1941, working in research design. Last November he was promoted to supervisor of Design Section 5143-1. Charlie did undergraduate work at Southern Methodist University, leaving there in 1942 for 44 months' service as a pilot in the Marine Corps. He was an instructor at Corpus Christi, Tex., and later a transport pilot in the Guam area.

Upon his release from service, Charlie re-entered SMU, later transferring to Oklahoma A&M College where he received his BS degree in mechanical engineering. He accepted employment at Westinghouse Electric Corp., in Newark, N. J., and while in the east did graduate work at Stevens Institute of Technology in Hoboken, N. J.

He completed work in mechanical engineering at the University of New Mexico last year, to receive his MS degree.

Benefit Dance for Gary Hatcher Is Scheduled Tonight

Sandians who love to square dance will have an opportunity to enjoy themselves and at the same time help out a young fellow who is seriously ill.

A benefit square dance will be held for Gary Hatcher, son of Bill Hatcher, 2414, tonight at Highland High School. The 7-year-old youth is suffering from leukemia.

Tickets are \$1.50 per couple and may be obtained from Gene Birrell, 5351, Albuquerque telephone number 5-6446.

the way it's done

Moving - - -

A Job for Specialists

When an organization is "transplanted" to a new location within the Laboratory it is Plant Engineering's job to accomplish the move with the least interruption to that group's normal activities.

Back of this objective lies much careful planning and coordination—everything from the initial meeting of the committee which allots space to the final telephone hook-up.

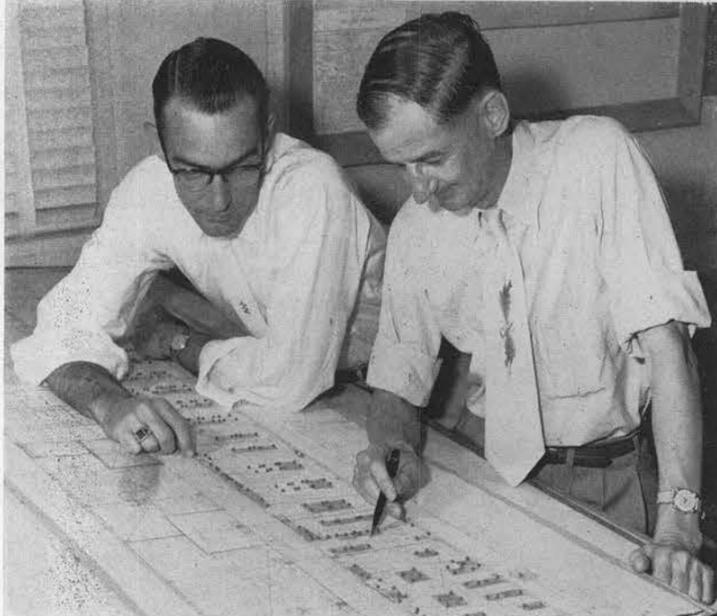

Maintenance personnel are involved—carpenters, painters, plumbers, electricians, sheet metal workers and the moving crew.

Programming their activities are the architectural engineer, the air-conditioning specialist, the blue print boys with an eye toward operational efficiency.

The SANDIA LAB NEWS gives you a picture story of an in-plant move. Shown are only a few highlights involved in the move of an organization to new quarters. But like moving day anywhere, it is the systematic, beforehand planning that smoothes the way.

THE SPACE COMMITTEE studies a floor plan—the first step in a contemplated move for an organization. L to R, the committee includes Robert E. Hopper, 2440; Jack Howard, 1330; W. C. Scribner, 2520; Charles Campbell, 1900; David Tarbox, 2350; C. W. Dickinson, Jr., 4160; and Eugene W. Peirce, 3120. Doris Beaver, 2440, next to Chairman Campbell, takes notes of proceedings of Sandia's Space Committee.

CHARLES STARR, right, of Plant Engineering staff, confers with Mac Deaton, 1931, liaison man for the 1000 and 5000 organizations. They will determine placement of desks, benches and other equipment to be installed for convenience of the incoming organization.

FRESH coating of paint is applied to a new wall partition. Larry Lesperance, 2413, does the job.

ENGINEERS DISCUSS modifications to be made—L. Billy Officer, 2441; Dave Wilkinson, 2443; Don Knott, 2443; Neal Humble, 2441.

CORPORATION Plumbers Manuel Sanchez, left, and Marshall Servis, both of 2414, complete their assignment on the building which is being "custom-renovated" to accommodate a new organization.

ELECTRICIAN Salvador Armijo ties in circuits to one of the main panels.

MOVING DAY arrives. Transferring equipment to the building which is now readied for occupancy are the moving crew—L. to R., Tom Vigil, Efren Ortega, Albino J. Lesperance, and Leo Armijo.

BEFORE—Great changes are to be made in this building when Sandia Corporation Plant Maintenance and Service Department men get underway. Thought, planning and materials must precede the actual work.

AFTER—The job's done and Sandia Corporation's task in research and development is made easier by better working quarters. It's a result of teamwork and more teamwork by many Sandia Organizations.

Sandia's Golfers End First Round; Teams 8, 2 Lead

Sandia golfers enter the final week of the first round of links play during the week of June 20. Second round play will begin July 11.

For second round play, maximum handicaps of 18 will be permitted, the handicap committee has announced. First round play was made with a handicap limitation of 13.

Leading "A" Flight this week was Team 2 with 15 wins, 3 losses. The Kelly Brothers, Jim, Tom, and Bob, make up Team 2 roster. Second rung on the "A" Flight ladder is being held by Team 5, 14-4, with Pat Donovan, Tim Butler, and Frank Abbott playing.

Team 8 is leading "B" Flight competition with 16 wins, 5 losses; Dennis Chavez is links captain of the team composed of L. H. Chandler and Kenny Foster. In second place is Team 8, of Bill Siglock, Bill Zemka, and Carl Kentfield. Team 6 ranks third.

Fred Silva, Frank Kohut, and Karl Portz of Team 1, "C" Flight, lead the flight with 17 1/2 games won, 3 1/2 lost. Ranking second is Team 8 of "C" Flight, composed of Marston Skidmore, George French, and Roy Wilcox.

Saves Youngster's Life

First aid training in Boy Scout leadership courses probably saved the life of a young automobile accident victim last Sunday in the Jemez mountains.

Scoutleader Gerald Van Gundy, 2531, was returning from a family outing in the area and happened upon the scene of the accident. He applied pressure to stop bleeding of the girl's lacerated arm, staying with the victim while police escort and ambulance rushed her to a Santa Fe hospital.
