

# SANDIA LAB NEWS

published every other friday for the employees of sandia corporation, contractor to the atomic energy commission

Vol. 7, No. 20

ALBUQUERQUE, NEW MEXICO

OCTOBER 7, 1955

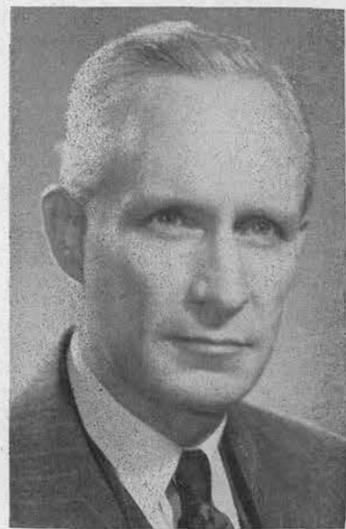

## Philip D. Wesson Retires Nov. 1 After 30 Years Service With W.E.

Philip D. Wesson, General Attorney, Secretary and Treasurer of Sandia Corporation, will retire Nov. 1, 1955. He will be succeeded by Kimball Prince, who comes to Sandia from Western Electric Company headquarters in New York.

Mr. Prince arrived here Oct. 3 and will take over his duties officially on Nov. 1.

A graduate of Harvard, Mr. Prince received his LL.B. degree from New York Law School, which he at-

Mr. Wesson was first with Sandia Corporation when it was founded in November, 1949. He assisted in writing the original contract between Western Electric Company and the Atomic Energy Commission for oper-

Kimball Prince  
—to be General Attorney—

Philip D. Wesson  
—to live in Albuquerque—

tended while employed with a law firm in New York City.

During World War II he served as Chief Counsel in the rationing division of the Office of Price Administration in New York, and in 1944 he joined Western Electric.

### In Community Affairs

Mr. Prince has been active in community affairs in his home town, Short Hills, N. J., having served as chairman of the Township Board of Adjustment, as secretary and later president of the Short Hills Association.

He also has served as governor of the Short Hills Club and as vestryman of Christ Church (Episcopal) of Short Hills. Mr. Prince is a member of the New York County Lawyers Association and the Harvard Club of New York.

Mr. and Mrs. Prince will live on Sandia Base at 3411, 51st Loop.

They have two daughters, Mrs. James I. Marsh, Jr., Schenectady, N. Y., and Miss Elizabeth W. Prince, Cambridge, Mass.

## Meteorologists to Gather Here for National Meeting

Sandia members of the American Meteorological Society began preparation this week for the national convention of the Society to be in Albuquerque, Sept. 5-7, 1956, according to Herb Plagge, 5243, chairman of the convention publicity committee.

General chairman of the event is Dr. C. E. Buell, University of New Mexico professor and a staff meteorological consultant to Sandia Corporation. Jack Reed, 5111, is assisting in general arrangements, and Chuck Charles, 5133, is chairman of the arrangements and finance committee. Serving on the entertainment committee is Albert T. Marrs, 5243.

The three-day convention will be at the University of New Mexico, and will be attended by meteorologists from throughout the United States, Canada, and Mexico.

## ★ Campaign Pledges Being Compiled; \$41,985 to Thursday

As of Wednesday night, Oct. 5, Sandia Corporation employees had donated \$35,616 to the 1955 Community Chest-Red Cross United Fund Drive.

Sandia Corporation corporate gift this year is \$6,000. The Coronado Club will determine the amount of its gift at a meeting today. Anderson-Dunham Coronado Club concessionaires, is contributing \$325.

Sandia Laboratory Federal Credit Union employees participated 100 per cent in giving \$44.

## Kenner Hertford Becomes Manager Of SFOO Oct. 1

Kenner F. Hertford became Manager of the Atomic Energy Commission's Santa Fe Operations Office in Albuquerque, Oct. 1.

He succeeds Donald J. Leehey who has resigned and will make his home in Seattle, Wash.

General Hertford, in his new position, will head the organization which

Kenner F. Hertford  
—Retired Major General—

has responsibility for the Atomic Energy Commission's program for research, development, production and testing of nuclear weapons.

General Hertford retired from the Corps of Engineers, U. S. Army, on July 31, 1955, with the rank of major general.

He has been associated with the atomic weapons program for several years. From March, 1948, to November, 1952, he held assignments at Sandia Base in Albuquerque.

General Hertford was Deputy Commander of Sandia Base and then Chief of Staff and Deputy Commander for the Army of the Armed Forces Special Weapons Project at Sandia.

During the first half of 1952 he was Director of the then newly activated Office of Test Operations at SFO headquarters and served as Deputy Manager of the Spring 1952 nuclear test series in Nevada.

Since late 1952 he has served in research and development assignments with the Department of the Army in Washington, D. C. He was Chief of Research and Development in the Office of the Chief of Staff at the time of his retirement.

General Hertford graduated from the U. S. Military Academy in 1923 and received a degree in civil engineering at Cornell University in 1926. He is also a graduate of the Engineers School and the National War College.

He and Mrs. Hertford returned to Albuquerque in early August and have been supervising construction of a home on acreage near Placitas, N. Mex. They will live at 3300 43rd Place, Sandia Base for a time.

## Lifetime of Firefighting Has Taught Ted Rosenwald Price of Carelessness

His most dangerous fire was a small blaze atop 2,000 pounds of high explosive. He went in with fog nozzles to put out the trashy little fire that started spontaneously in someone's cleaning closet.

### Hot Half Century

His biggest fire: a blaze at Highlands University in Las Vegas, when a large building burned to the ground in 6 below zero weather!

Ted Rosenwald's 55 years—he's an inspector in Division 2442, Plant Engineering Department—have been a hot half-century indeed. He has encountered countless grass fires, burning aircraft, smouldering service stations, flaming autos and trucks.

Since his first job as a volunteer fireman in Las Vegas in 1922, he figures he's fought some 3,000 fires. None of them, he says, whether spark or conflagration, was entirely harmless.

### Saw Major Fires

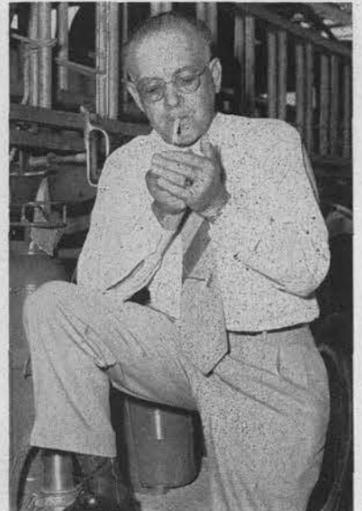

Ted attended schools in Las Vegas after World War I, later graduated from New Mexico Military Institute at Roswell.

Ted's present job in the Plant Inspection Division calls for frequent, continuing inspection of Sandia Corporation plant. He locates and eliminates fire hazards, and this gives him far more satisfaction than helping to extinguish a needless fire. He inspects sprinkler systems, fire extinguishers, firefighting equipment, conducts training courses for personnel, approves welding locations.

Since he joined Sandia Corporation in 1951, he has formed a "speaking" acquaintance with every building in the technical area, and a good many outside of it. At one time, Rosenwald headed the Fire Department here at Sandia Base.

Thirty-three years of fighting fires have taught Ted that there is no harmless fire; no fire that does not possess a potential of death and destruction; and few fires not started by some human carelessness, some overlooked trifle, some forgotten safety precaution.

"The most common cause of fire today," Ted says, "is carelessness. The careless disposal of waste, the careless handling of explosives, the careless thought which prompts the

Ted Rosenwald  
—Volunteered in 1922—

careless deed. These are the things that cause fire."

### Buildings Inspected

Each month Rosenwald inspects 35 to 40 buildings in the technical area. He spends three days on his inspection of Building 802, 1½ days on Building 892.

He maintains that only through this careful continuous surveillance can Sandia's fire losses be kept at their present low rate. Throughout 1953 our fire loss was just \$60! In 1954, \$37.50. And so far in 1955, Sandia Corporation has had no fire loss. "With about three months to go," Ted says, "we're redoubling our efforts for a perfect, fireless year."

Ted is New Mexico state vice-president of the International Fire Chiefs association, and has served 20 years as secretary of the New Mexico Firemen's organization.

He lives at 213 Tulane Drive SE, and is preparing a giant exhibit for Fire Prevention Week, beginning October 9, anniversary of the Great Chicago Fire. "That fire was caused by carelessness, too," Ted says, "a careless milk-maid who left the lantern too close to the cow's hind leg."

## Dr. G. W. McClure Colloquium Speaker

Next speaker of the Colloquium Series will be Dr. Gordon W. McClure of Sandia Corporation's Experimental Weapons Research Department.

In his talk Oct. 19, at 9:30 a. m., he will discuss "Considerations of the Measurement of the Velocity of Gravitational Fields."

Earlier this week Dr. Samuel Glasstone, a consultant to the Atomic Energy Commission, talked on "Nuclear Reactors for Power and Research."

## Basore Speaks

Bennett Basore, 5412, will address a meeting of the IRE professional group on Information Theory Oct. 12 at 8 p. m. His topic, "Quantization before Integration of Radar Signals," will be a review of a paper by J. V. Harrington of the Lincoln Laboratories, Lexington, Mass.

The meeting will be in Room 218, Mitchell Hall, on the University of New Mexico campus.

## W. W. Juvenal Managing Editor Of 'Tech Activities'

W. W. Juvenal, AEC, has been appointed managing editor of TECH ACTIVITIES, monthly publication of the New Mexico Council of Technical and Scientific Societies.

Re-appointed editor is Max Weber, 5122; Bob Liebman, 5261, is newly-appointed associate editor of the publication, and Edward Neidel, 5424, has been re-appointed circulation manager.

## Floyd Jean Honored By IRE for Activities As Akron U Student

Floyd Jean, 1713, has been designated an Outstanding Student Award winner by the University of Akron chapter of the Institute of Radio Engineers. The award is for outstanding scholastic ability, and for his work as student member of IRE and Sigma Tau engineering fraternity, during the school year 1954-55.

Floyd received a year's free membership in the IRE and additional awards from his own organization.

# SANDIA LAB NEWS

Friday, October 7, 1955

Published every other Friday for the employees of Sandia Corporation, contractor to the Atomic Energy Commission.

Editor, Robert S. Gillespie  
Assistant Editors, Frances Ramsey, William H. Puder

Photography by Photographic and Reproduction Division

Contributions should be in the office of the Sandia Lab News, Employee Services, Training and Public Relations Department, Bldg. 829, before noon of the Friday prior to day of publication.

Telephones: Sandia Base Extension 25253 or 26135

## Fire Prevention—Your Business

Fire isn't funny, but it can be ironic: last year in Bridgeport, Conn., a fire hydrant was engulfed in flames; in Philadelphia the Fire Marshal's office burst into flames; in Elizabeth, N. J., the most expensive pizza pie in history burned up \$600.

The explanations were simple: leaking gas started burning around the fire hydrant; firecrackers the Philadelphia fire marshal had seized for safekeeping exploded; bonds worth \$600 were in the pizza oven when the heat was turned on.

But so far man has found no explanation, except carelessness and stupidity, for the fires last year which took 12,550 lives and cost well over a billion dollars in United States and Canada.

The nation's industry took a big rap from fire — there were 313 industrial fires each with a loss in excess of \$250,000. The biggest industrial fire was in Pekin, Ill., where a distillery burned at a loss of \$7,130,000.

Sandia Corporation has had no fire loss this year. Two fires on Sandia Corporation premises were in property owned by Sandia contractors. Both were minor.

However, the Fire Department did respond to 11 active fire alarms on Corporation premises since Jan. 1, 1955.

Six were caused by normal operational failure of electrical devices such as coils, starters and motors.

One fire alarm was caused by a destructive test of flammable material in an oven.

One was caused by an employee throwing a cigarette in a trash can.

One was caused by a leak in a sulphur-burning pan being used to treat water.

One was caused by a tenant putting food on the stove and leaving the house.

One was caused by a contractor's employee failing to take proper precautions when disconnecting a stove.

Which all goes to show that people still cause fires.

Which proves that: Fire prevention is your business.

## Sandians Who Serve

This is another in a series of articles describing the community activities of Sandia Corporation employees.

**Doug Macrae, 3171**  
**Safety-Minded Sandian**

Demonstrating a boundless capacity for constructive leadership, Douglas F. Macrae has contributed, in no small measure, to the organization or betterment of a score of Albuquerque's civic, welfare, youth and religious groups.

An intense interest in Safety—he is Safety Assurance Inspector in Org. 3171—led him to join the Albuquerque Citizens' Traffic Commission and to assume an active role in promoting public safety education locally. His addresses on traffic safety and accident prevention have been enthusiastically received at citizens' meetings and at public and parochial schools. He recently published an article on industrial safety legislation.

Commissioned a Colonel Aide-de-camp on the Governor of New Mexico's staff in recognition of his efforts "to promote better unity, understanding and co-operation between the various races in New Mexico."

Doug was recently appointed direc-

tor of the Albuquerque chapter of the National Conference of Christians and Jews, formerly served on the organization's board of directors.

He is newly-elected vice-president of Toastmasters' Club 765, an organization striving for the personal development and advancement of its members. During his three and one half year membership, Doug has acted as volunteer speaker to further the work of numerous non-partisan social service activities, among them Community Chest and the Albuquerque Association for Handicapped Children.

Greatly instrumental in founding the First Unitarian Church of Albuquerque in 1953, Doug formerly served as the church's first president, a member of the board of directors and chairman of the social action committee. His attention is currently focused on the church's new building program.

Doug is explorer leader and committeeman of Boy Scout Troop 111. He encouraged and assisted with early organizational efforts of the local Big Brothers youth movement.

Married, he lives at 7611 Apache Ave., NE. He and his wife Violet, better known as "Chips," are parents of three: Laurie 9, Alan 5 and Ian 3.

## around the departments

A reunion was had by Tony Gammon and her friends in 1925 when Tony was guest at a dinner party held at La Hacienda Monday evening, Sept. 19. Tony and Jeff Gammon, 2331, have spent the past year in California, where Jeff is working in Sandia's Beverly Hills branch.

The wife of Jack Lohse, 5142, was the sweepstakes winner in the Flower Arrangements Division of the State Fair.

George Anderson, 5133, went on vacation last week to Colorado with his family and brother's family who were visiting from Chicago. Tom Haban, 5254, and Elwin Sheaffer, 2443, had an enjoyable fishing trip to Cedar Springs, N. Mex. Norm Sinnott, 5213, and wife are vacationing in Seattle, Wash.

Decorating his home patio at 1212 Childers NE has occupied the vacation time of Ray Clark, 2611. Mr. and Mrs. James Harvey, of Chicago, Ill., are enjoying their visit to the Southwest and reunion with their son Bill, 2613, and his wife, Shirley, 1925 (5142).

Everyone in 2461 wishes Deana Piper a fast recovery after being hospitalized. Connie Gonzales, 2461, is back at work after an illness of several weeks. Ruth Prestby, 1932-2, recently returned home from the hospital where she underwent surgery.

Jim Moore, 1614, just returned from a two week vacation in North Dakota and the Black Hills of South Dakota.

The mother, stepfather and grandmother of E. A. Raney, 2452, are recuperating from minor injuries received when the pick-up truck in which they were riding was involved in an accident in Valencia County. The three were hospitalized for several days in Socorro.

Vacationing in Colorado during the recent rainy season were Martha Leverenz, 1922-3, and husband Bill, 2151, and Mr. and Mrs. Ben Evans, 1631. The Ben Bookwalters, 1631, have returned from three weeks in Illinois and Wisconsin.

Les Bury, 1641-2, is owner of a new Princess Jeanne Park home at 11720 Clifford NE.

Oliver K. Ash, 2353, and his wife are spending their vacation in Quebec, Canada.

Everyone in 2541 wishes a speedy recovery to Charlie Abeyta, who is confined in Bataan Memorial Hospital.

**HORSEBACK EXPLORERS**—These four Sandians rode for about 10 hours and more than 25 miles to see the remote stone lions of the Banderlier wilderness area of New Mexico. L to R: Louis Erne 2462, W. Daril Gutscher 5531, Ted Lindgren 5523, and Elliot Harris, 2462.

**THREE-WAY OWNERS** of a Stinson Reliant V-77 aircraft are Elmer Hansen, left above, Sherill Woodall at the controls, and John Kay, all of 1641. Woodall, a rated pilot with 1400 hours in the air, will act as instructor for co-owners Hansen and Kay. Plane will be used now strictly as pleasure craft, and for short cross-country hops throughout the southwest.

Vacationers from 1932: Paul Gaither, wife and son motored to Missouri to visit relatives and tour the state; Mr. and Mrs. Adam Trujillo traveled to Los Angeles to visit and do some sightseeing; Lorraine Cook and husband spent a few days in Questa, N. Mex., visiting relatives and doing some fishing; Mr. and Mrs. Jim O'Connor went sightseeing in Gallup, N. Mex., and Durango, Colo.

Gerry Mlynek, 3153, recently won second prize in amateur art at the New Mexico state fair with a painting entitled "Pagosa Springs Fire Station." Gerry studied at the Cleveland Institute of Art and has been painting for eight years. Another second place winner was Dorothy Schardon, 2541, who got her award for a hand-made beaded belt.

Gordon (Gordo) Gaskill, 2451, and wife traveled 4800 miles on a 30-day vacation trip. They visited families and friends in New Jersey and attended the Miss America Beauty Pageant.

Owen Higgins, 2541, and wife spent a recent weekend in Lubbock, Tex., visiting relatives.

1925-5 Typing Pool is very happy to welcome back Shirley Zaluga who has been on a maternity leave of absence. She and husband Dick, 5311, became parents of a son, John, Mar. 24.

**FAMED GREEK CARYATIDES** provide interesting background for Lucille Stamm, formerly of 2220, and wife of John Stamm, 1931. Lucille flew to Athens in August to see friends and re-visit the convent on the island of Naxos where she once attended school. She has booked passage on the liner Fredericka, leaving Athens Oct. 17, and will arrive home about Nov. 1.

Bob Silva, 2532-1, had the cast removed from his back Monday, Oct. 3, and hopes to return to work shortly. David Poli, 2532-2, suffered a broken finger while playing baseball.

Virgie Haverty, 2111-1, and husband chose the Smoky Mountains for their vacation spot. Dixie LeMoria, 2532-1, has returned from her vacation in Marquette, Mich., visiting relatives.

Fred Hansen, 2532-3, Clyde Dunlap, 2532-2, and Harold Bruggemann, 2531-1, spent a weekend fishing at Red River. The mother of Dottie Blalock, 2533, is visiting here from Oklahoma City. Wallace Eder, 2533-1, is vacationing at Bryce Canyon and Zion National Park in Utah.

Nadine Kindel, 2531-4, and family visited relatives in East Palo, Calif., and went sightseeing in San Francisco. Lorraine McDonagh, 2533-3, and family spent their vacation traveling through Burlington, Ia., and St. Louis, Mo., while visiting relatives. Dee Stites, 2533-3 and husband enjoyed a fishing trip in the Red River area Sept. 24 and 25.

Pat Patterson, 5440, and family motored to Livingston, Tenn., to visit with his parents. Water skiing and motor boating were highlights of the vacation. Neith Pollard, 5413, and family vacationed to Las Vegas, Nev., and California.

## J. W. Gray Going To W. E. Plant At Indianapolis

John W. Gray, Jr., Manager of Control Department in the Model Shops organization, will leave Sandia Corporation to assume a new job in the Indianapolis Plant of Western Electric Company Nov. 1.

John W. Gray, Jr.

He has been with Sandia since October, 1949, first as supervisor of Engineering and Production Methods Division.

Mr. Gray was later manager of the Priorities Department and Reclamation Department.

At the Indianapolis Plant he will be Assistant Superintendent of Accounting.

First associated with Western Electric Company in 1929, he worked as a draftsman and cable designer until the fall of 1931 when he started work for the City of Baltimore.

In 1936 he returned to Western Electric and has been with the company since that time serving in many different capacities.

He has been circuit analyst and equipment engineer, manager of Business Methods department at W. E. headquarters in New York, and also worked with a special organization survey team working in the Organization Planning Division.

## Tech Writers Meet

The Albuquerque Society of Technical Writers meets Oct. 17 at 7:30 p. m., at the Coronado Club.

Speaker Harry Daniel, 1713, will discuss "Illustration for Technical Application."

Refreshments will be served. Reservations may be obtained from Justin Heineman, 1723.

## around the departments

Burt Bittner, 5412, moved into his new home at 1108 Parsifal St. NE. Another new home owner on the same block is George Oltman, 5412, at 1100 Parsifal St. NE.

Claudette Schonberg, 5423, and husband Al, 1941, are vacationing in New York. Lee Bashor, 1242, has just returned from a jaunt to Loveland, Colo., with his family. Mildred Alexander, 5441, recently went to Carlsbad Caverns and Juarez for a vacation.

5400 welcomes back Tom Banks, 5423-1, after a siege with poison ivy contracted near his Jemez cabin. Currently on the sick list are Don Morrison, 1241, Owen Lockwood, 2541, Elli Whitehill, 2231, Arnold Draper, 5611.

Recuperated from recent illnesses are Frank Dain, 2111-4, Lloyd Lincoln, 2111-3, and Kenneth Schooley, 2152.

Liz Foley, 4133 is enjoying her two-week vacation seeing points of interest at Oklahoma City, New Orleans and various parts of Mississippi. Irene Kay is spending a week's vacation trying to finish painting on her home before the cold weather hits. California's Carmel and Yosemite attracted the G. A. Fowler family, 5400.

Recent vacationers include: Art Hopper, 2521-1, visiting parents in Los Angeles, Calif.; Jim Hare, 2522-2, to his native Michigan; T. S. Church, 5410, and family in Minnesota; Joe Moody, 1651, and wife Barbara, 2112, flying to New Hampshire to visit her family; Della Davis, 2111-1, visiting relatives in Santa Fe.

Mary Coleman, 2333-3, has been on a two-week vacation at home. John Martinez, 2353, has just finished spending two weeks remodeling his present home and preparing to move into his new home at 4208 San Isidro NW which will be finished in a few weeks.

## Promotions

DON WILLIAMS, JR., to supervisor of the Environmental Test Division 1611, Test Laboratory Department.

Don came to Sandia Corporation in September, 1951, from the Albuquerque City Engineers' office where he was a design engineer. For two years, he was a graduate assistant in the University of New Mexico's Mechanical Engineering Department.

A native of Akron, O., where he graduated from the University of Akron with a Bachelor's degree in mechanical engineering, he moved to the Southwest in 1948. An M. S. in mechanical engineering was earned at the University of New Mexico in 1950.

He served as a ground officer in the Air Force more than three years. Don is a member of American Society of Mechanical Engineers and American Ordnance Association.

DOUGLAS W. BALLARD to supervisor of Tool Made Sample Engineering Division 1634, Standards Engineering Department.

Doug had been section supervisor of 1634-1 since July, 1954, when he transferred from the Quality Assurance organization. He joined the Laboratory in 1950.

Earlier, for 16 months, he was plant manager for the Ames Co., Cleveland, O. He spent three years in the Army as a process engineer and metallurgist in the Special Engineer Detachment at Oak Ridge and Los Alamos. After discharge from service, Doug

## Sandia Strives to Keep Fire Record At No-Loss Mark

Sandia Corporation, which has a no-loss fire record so far in 1955, will next week observe National Fire Prevention Week. The goal, says Robert E. Hopper, Manager of Plant Engineering Department and fire marshal for the Corporation, is a continued perfect record this year and for the years to come.

Head of the fire prevention work at Salton Sea Test Base is T. A. Sprink, manager of Salton Sea Department. He is assisted by Joe Omlin, fire chief at Salton Sea Base.

An intensive educational program will be presented the week of Oct. 9-15.

Posters, leaflets, displays, booklets, building inspections, fire drills, a fire truck and firemen will be used to carry the message of fire prevention during the week.

National Fire Prevention week again this year is supported by President Eisenhower's proclamation in which he calls "upon the citizens of all communities in the land to organize effective programs for reducing the needless waste caused by preventable fires..."

This year the National Fire Protective Association has adopted the slogan "Don't Give Fire A Place to Start."

Sandia Corporation, in addition to the national slogan, has written its own battle cry, "Fire Prevention Is Your Business."

continued at Los Alamos as a civilian supervisor in the chemical and metallurgical division.

He received B. S. and M. S. degrees in mechanical engineering from the University of New Mexico, and also studied at Alabama Polytechnic Institute, City College of New York and Case Institute in Cleveland.

CARLOS ORTEGA, 2417, cocks his head to one side, stares down at whirling fibre brooms of his Gutter Snipe street cleaner machine.

## Carlos Takes Only 8 Hours to Sweep 5 Miles of Sandia Tech Area Streets

Carlos Ortega, utility operator in 2417, has a crick in his neck these days. But there's good reason: Carlos drives Sandia's sole street cleaning machine.

High amid a cluster of control knobs and levers, the whine of drive chains, the swishing of brooms, Carlos tilts his head to one side, looks down the side of the unit, and watches the curbs of the Tech Area roll by.

Called a South Bend Gutter Snipe, Carlos' machine is a compact orange-colored machine equipped with a collection of motor-driven wire and fibre brooms. Regularly, once a week, it sweeps dust from the concrete gutters in the Sandia Corporation technical area.

At a speed of four miles per hour, Carlos picks up seven to nine cubic yards of dirt a day. After a big blow he sometimes has to sweep the same street two or three times before the last grain of sand has been hauled away.

Most of the sweepings are wind-blown sand, waste rags, small rocks, and pieces of metal. Carlos, who lives with his family at 3131 Fernando Place NW, consumes the better part of an eight-hour day sweeping

the five miles of streets in the technical area. He must travel each street at least twice; once on each side, oftener if sand is wet or piled deep at the curb.

When absent, his duties are taken over by Jeff Blaylock, Lew West or Jesse Floyd.

Carlos claims his ungainly machine can turn on a dime; it's steered by rear-mounted third wheel. But wear and tear on the steel and fibre brooms of his Gutter Snipe are terrific, Carlos says; the brooms require replacement after two tech area sweepings!

Replacement brooms cost about \$100, Carlos points out. "Please don't throw trash in the street!"

## ASTE Meeting At Hilton Oct. 20

Members of the Albuquerque chapter of the American Society of Tool Engineers will hear James Andreotti, representative for the Kwikset Powdered Metal Products Company, Anaheim, Calif., Oct. 20. He will speak on "Powder Metallurgy Process."

The dinner meeting will be at the Hilton Hotel at 7 p. m.

## Speaking of Reporters

This is another in a series of articles telling of the work of the volunteer reporters of the SANDIA LAB NEWS.

Writing up news happenings of co-workers in 2451 and 2452 comes easy to Velda Messersmith, who also turns her literary talents to composition of verse and popular song lyrics. Under name "Velda Lee," she penned ballad "Forget Me."

Velda has been on the staff of Sandia Lab News for about one of her three years with the Laboratory. Her reception desk in the Administration Building is ideal for her on-the-spot news coverage. She finds the daily comings and goings of employees and visitors fascinating—even inspirational for her poetical writings.

Velda originally hailed from Liberal, Kans.; moved to Albuquerque some 11 years ago. For eight years prior to

Velda Messersmith—Reporter

coming to the Laboratory she was personnel director at Penney's downtown department store.

## EVENTS

NEW OFFICERS of Sandia Toastmasters Club installed recently are: seated, Ron A. Hayenga, 1341, president; standing, l. to r., Douglas F. Macrae, 3171, executive vice-president; Wayne Keyes, AFSWP, educational vice-president; Walter W. Westman, 1341-1, sergeant-at-arms; and John R. Wilkinson, 1341, secretary. Treasurer Joe S. Miller, 4121, was not present when photograph was taken.

## Kickoff Program Launches Red Feather Solicitation Among Sandia Employees

Dixieland jazz by the "Red Feather Seven," songs from Tommy Kelly, 1631, and the "Lads of Enchantment" quartette sparked the kick-off rally of the Community Chest-Red Cross United Fund drive at the Coronado Club this week.

Speaking at the kick-off rally were Luther Heilman, 2400, chairman of the Sandia employee drive; W. J. Howard, 1330, deputy chairman; Jack Windsor, vice-president of the Office Employees International Union, Local 251, AFL; Bob Byrd, president of the Albuquerque Guard Union, Local 27, IGUA; and Bill Leverenz, president Atomic Project and Production Workers, Metal Trades Council, AFL.

Also speaking was Max H. Howarth, vice-president and general manager of Sandia Corporation and H. B. Corcoran, Campaign Chairman of the Albuquerque Community Chest.

Donating their talents as members of Local 618, American Federation of Musicians, was the "Red Feather Seven." Playing with the group were Jack Fullerton, 2331, Bob Schowers, 1341, Tim Preston 5131, Cliff Booth 2463, Jarvis Bumgarner 1631, Art

Engquist 5331, and Peter Linde 1621.

Members of the "Lads of Enchantment" quartette are Danny Aycock 2224, Don Pitt 2552, Gil Wallace 2553, and Carleton Wright, Albuquerque.

The Sandia Corporation employee-conducted drive was held Oct. 4 and 5.

### Jean Gillette Teaching Women's Carnegie Course

Jean Gillette, of the Training Division, has been selected to teach the Carnegie Course for Women now being presented in Albuquerque. The 10-week course is being offered in evening classes.

### Toastmasters

Officers of Manzano Toastmasters Club, elected Sept. 14 for the term October-April, are: Walter A. Maupin 1214, President; Floyd Best, Albuquerque, Educational Vice-President; Bryan E. Arthur 1631, Administrative Vice-President; Delfred M. Olson 1242, Secretary; Bernard Heinrich 1212, Treasurer; Joseph H. Lackey 1643, Sergeant-at-arms.

# Fire Protection Calls For Teamwork

Facts in the following article are from papers prepared by Harry H. Pastorius, 2442, which will be presented at the Western Electric Inter-Plant Engineering Conference, Nov. 16-18 in Montreal, Canada.

Fire protection at the Sandia Corporation is Big Business! Not only the teamwork of Sandia's fire safety staff is required, but the close co-operation of the armed forces, civilian agencies, and private industrial concerns.

The Armed Forces Special Weapons Project, AFSWP, is the foundation of Sandia's fire protection program. It acts as a municipal government, furnishing pumping and storage facilities for water supply, and maintains the equipment.

Water is delivered to Sandia Corporation mains by AFSWP, but within the technical area, all such equipment is maintained by the Plant Engineering Department. AFSWP also maintains a 24-hour fire-fighting crew at the Fire Station on Main Street.

Second partner in Sandia's three-way defense against fire is the Atomic Energy Commission. The AEC, a self-insuring agency for the fire losses incurred on its property, prescribes building codes, fire codes, certain fire safety regulations. It also conducts semi-annual fire protection surveys of the technical area.

The third member of the team is Sandia's own active fire prevention program, conducted by Plant Services employees. Their work includes maintenance of fire protection equipment, installation of fire safety facilities, and installation and maintenance of elaborate sprinkler networks, on-the-job fire protection devices.

Sixty-three per cent of Sandia's buildings, primarily warehouses, shops, laboratory areas, are protected by sprinkler systems. Twenty-nine per cent of additional structures are

equipped with fire detection systems. All sprinklers and alarms are connected to a fire alarm system of 42 street boxes and 146 alarms inside buildings.

All alarms ring automatically in the base fire department, the Plant Security Department, and the Plant Maintenance and Services Department.

Water for Sandia's elaborate fire protection network is supplied by the 500,000 gallon elevated tank just outside the technical area. It supplies a hydrant pressure of 75 to 90 pounds per square inch. Six additional wells are available for emergency use.

Inspections of all fire fighting equipment are conducted at regular periods by Sandia personnel. Test alarms are run through the electrical networks, and all fire extinguishers are put through an operational check.

## Testing Expert Speaks to SNT Members Oct. 10

Dr. Friedrich Foerster, famed German expert on non-destructive testing theory, will speak at a joint dinner meeting of the Los Alamos and Albuquerque units of the Society for Non-Destructive Testing, according to Douglas Ballard, 1634, publicity chairman.

The dinner is scheduled for Oct. 10 at 6:30 p. m., at the Los Alamos Golf Club. At 8:15 p. m., Dr. Foerster will speak in the Little Theater of the Los Alamos High School on "Magnetic and Electrical Methods of Non-Destructive Testing."

Dr. Foerster, head of the Dr. Foerster Institute, Reutlingen, Germany, is a recognized authority in his field. He is the discoverer of the Eddy Current for testing materials, and holder of many patents for electrical and magnetic non-destructive testing methods.

Sandians in all fields of engineering are invited to attend. Some transportation will be available, according to Ballard. Reservations for the dinner at \$2 per plate may be phoned to Ballard, ext. 43240, or to J. C. O'Neal, ext. 48157.

## Weddings and Engagements

Kay Jones, 2520, and Bill Pepper, 5141, have chosen 4 p. m., Oct. 22 for their wedding at Central Methodist Church. A reception will follow in the Coronado Club. The pair will be at home at 1208 Betts NE after a short honeymoon.

Miss Jones

Mrs. Easley

Candlelight rites in the First Presbyterian Church, Hobbs, united in marriage Roberta McPeters, 2333-4, and Jon T. Easley, of Ft. Sumner, Sept. 10. A reception followed at the home of the bride's parents, Mr. and Mrs. R. L. McPeters, Hobbs. After a short honeymoon to El Paso, the newlyweds are now at home at 314 Sycamore SE.

Roberta has been a Sandian since June. Her husband is a junior in architectural engineering at the University of New Mexico.

Margaret Montgomery, 1932-3, became the bride of Y 3/c Ray Durbin, Jr., Sept. 25 in the home of her mother, Mrs. Margaret Alber, 606 Bellamah Ave. NW.

Margaret came to Sandia Corporation in July, 1954. The bridegroom, whose home is in Alcoa, Tenn., is now assigned to Kirtland Air Force Base.

The engagement of Jean Elaine Tabor, of Washington, D. C., to James O. Lomborg, 5311-2, has been announced by the bride-elect's parents, Mr. and Mrs. Lewie Tabor, Bowling Green, Ky. The wedding is set for Oct. 22 in the First Baptist Church of Bowling Green.

Miss Tabor attended Western Kentucky State College and the Bowling Green Business University. She is presently employed as a secretary in the Department of Defense, the Pentagon. Jim, a graduate of Washington State College, has been a physicist with the Laboratory since June, 1953.

### Welding Society

Rex A. Taylor of the KSM Products Company, Merchantsville, N. J., will speak to members of the Albuquerque chapter of the American Welding Society, Oct. 14 at 7:30 p. m., according to Don Grobecker, 1621. Mr. Taylor's topic will be "Stud Welding."

The meeting to be held at the Industrial Arts Building on the University of New Mexico campus, will include a showing of films, and a demonstration welding of 3/8-inch studs.

## Four Sandians On UNM Social Welfare Conference Program

The fifth annual Conference of Social Welfare being held at the University of New Mexico this weekend has several Sandia Corporation employees on the program.

Presenting a legislative workshop are Jerry H. Gibson, Joseph R. "Bob" Garcia, and Robert F. Utter, all of 3154. The workshop is also being presented by the League of Women Voters.

Thomas E. Zudick, 1913, is co-chairman of a Board Members Institute which is being held for the first time in connection with the conference. This portion of the program is a training course for people who are serving on community boards and committees.

## Lombardi to Lead Training Session For ASQC Members

Jerry Lombardi, 5512, will lead a training session on "Use of Mixed Variable Attribute Sampling Plans" at a meeting of the Albuquerque section of the American Society for Quality Control Oct. 11 at 7 p. m.

The session will be at Mitchell Hall on the University of New Mexico campus.

A one-act play, "Sampling Inspection," will also be presented.

### Overseas Wives Club Invites Sandia Women

Mrs. Audrey L. Kohut, wife of Frank Kohut, 1622, has invited wives of Sandia Corporation employees to attend a meeting of the Overseas Brides Club, Oct. 25, 7:30 p. m. at the YWCA.

Mrs. Kohut says that wives eligible for the club are those who were natives of countries other than United States prior to their marriage. Most members, she says, married United States servicemen during and following World War II.

## Congratulations

Mr. and Mrs. R. P. Stromberg, 5351-2, a girl, Ann Therese, Sept. 26.

Mr. and Mrs. A. T. Marrs, 5243, a girl, Marsha, Sept. 17.

Mr. and Mrs. James L. Rogers, 5421-2, a girl, Julie Kathleen, Sept. 10.

Mr. and Mrs. Robert Statler, 5254, a boy, Daniel, Sept. 5.

Mr. and Mrs. Walt Dauphinee, 2533-1, a boy, Thomas Leonard, Sept. 15.

Mr. and Mrs. Mark Forster, 2124-2, a girl, Johanna Marie, Sept. 29.

Mr. and Mrs. Harold L. Myers, 2111-5, a girl, Cynthia Jean, Sept. 28.

## Half-in-Half Vehicle Speeds Tech Area Travel of Maintenance Men When They Are Called Out for Trouble-Shooting Work

Five half-truck, half-motor scooter vehicles are lightening the maintenance and trouble shooting activities of Maintenance Dept. personnel. Called Trucksters, the single cylinder "jitneys" develop 7½ horsepower. They look like small motorized tricycles and are employed principally as transportation of tradesmen for emergency repairs and maintenance activities.

In 2418, the Housing Area Truckster has been equipped with a 3-foot plumber's bench, complete with vise and cutting tools. A shovel is also part of the equipment. Some 10 to 15 emergency plumber's calls are made

each day in the Housing area. Plumbers Billy Rogers and Harold Newhaus, who work in the AEC Housing Area, say their work has been simplified considerably by the Trucksters. "We no longer wait for transportation," they say, "and we can get the work done at the site with a minimum of inconvenience to the tenant."

Area mechanics at the Motor Pool utilize the Truckster as transportation to make repairs on Tech Area stationary engines, generators, and similar operating equipment. Any member of the 12-man motor pool team uses the vehicle when repairs are called for. Motor pool experts like the 40-miles-to-the-gallon econ-

omy of the Truckster. They say the vehicle will run for a week on its 2-gallon tankful.

Electronic equipment is transported by Section 1932's Field Service personnel; and in 2236, Peter Cook, a work order detailer, uses his "putt-putt" as a trouble shooter's wagon. He figures he runs 70 to 90 miles each week.

No special driver training is required to operate the small Truckster. It's driven like a car, complete with manual gear shift, clutch, and brakes. Sole distinguishing characteristic of the Truckster is its critical lack of windows. "But there's plenty of fresh air," its adherents claim, "and look at the visibility!"

# Races, Rodeo, Rides Bring Sandians To State Fair

TRAFFIC COP at Fair was Ralph McClure, 2411-4, a member of the Bernalillo County Citizens Committee.

Saturday, Oct. 1, could well have been Sandia Day at the New Mexico State Fair.

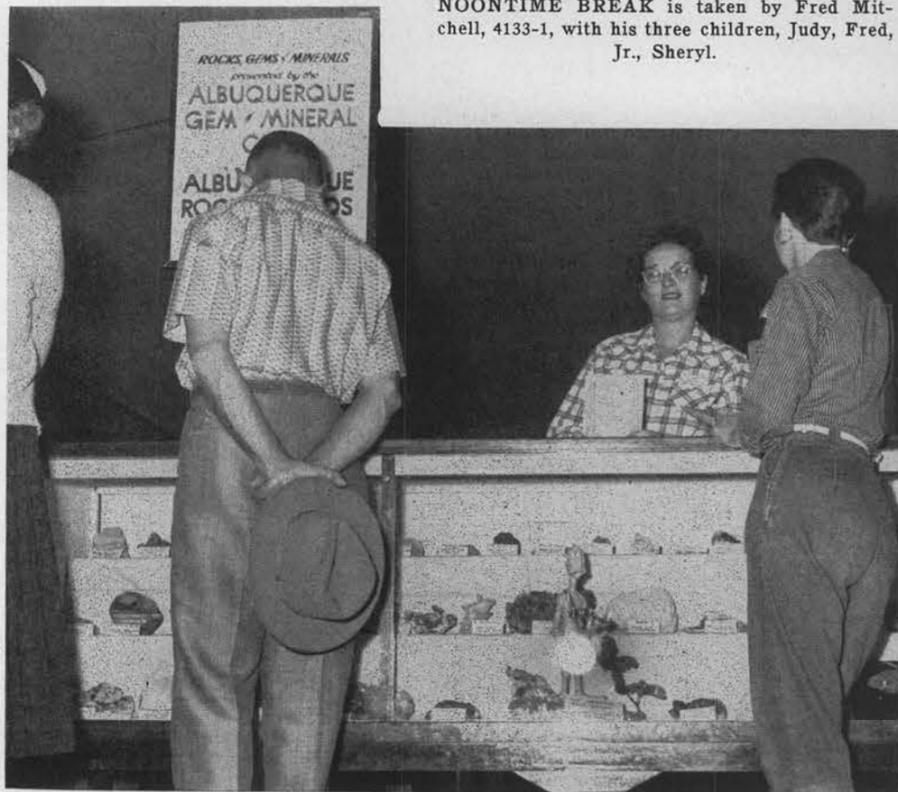

Hundreds of Sandia Corporation employees, and their youngsters, saw the sights that day. A few were caught in the camera lens for the Sandia Lab News by Photographer Roy Dunlap.

NOONTIME BREAK is taken by Fred Mitchell, 4133-1, with his three children, Judy, Fred, Jr., Sheryl.

MODEL AIRPLANE enthusiasts, members of the Rolland Glenn family, look over "Flying Wing" aircraft which competed during model meets at the Fair. Left to right are T/Sgt. Bob Morgan of Manzano Base, a meet contestant, Carol, Rolland, 5222, holding Paul Glenn, Mrs. Glenn and Bobbie.

EXHIBITOR Ellen Wood, 2533-3, answers questions, shepherds visitors through the display of the Albuquerque Gem and Mineral Club.

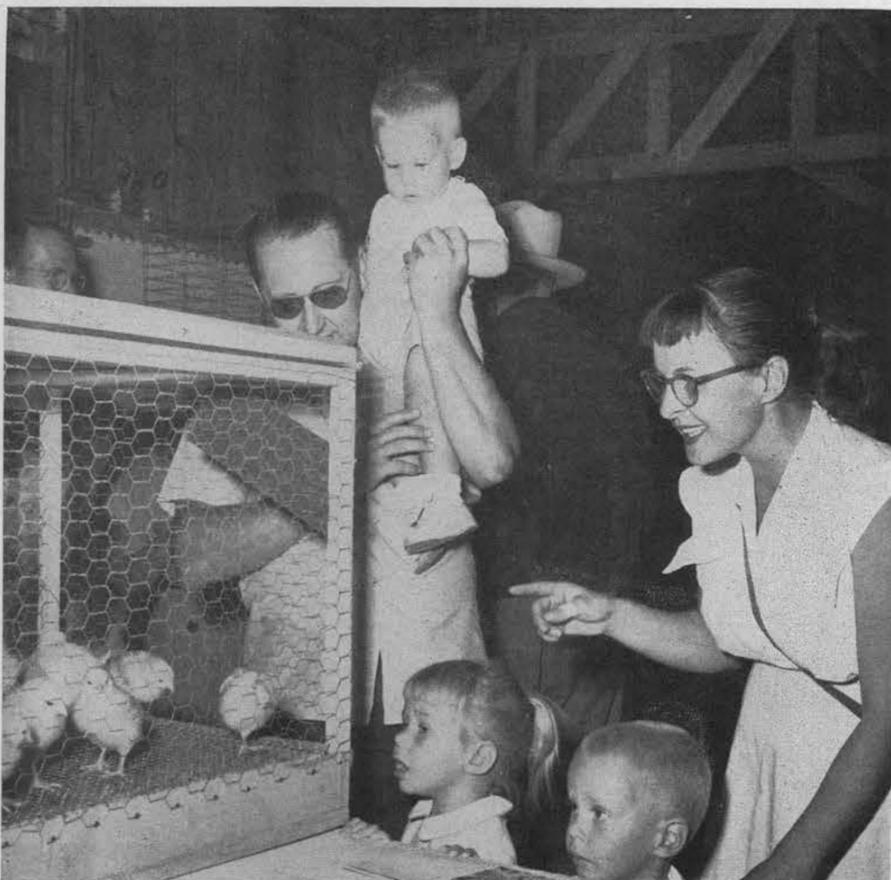

HORSE RACE FAN, Alex Yorgiadis, 1613, accompanied by his sister, Elli, passes through main entrance to race track, under watchful eyes of Sandians Gene Thompson 4163, left, Ray Sanchez 2124, and Fred Brown 1613, attendants.

HIKER D. M. Ellett, 1613, trudges through the grounds with daughter Jean Marie riding in comfort on Dad's back.

WEARY DAD—Norman Richardson, 5213, turns away from the Fair and heads homeward with his son, Cub Scout Bob.

CHIRPING BABY CHICKS capture attention of Neil Hansen's family. Neil, who works in 3152, holds Bobby; daughter, Mary, is center, with David, and Eunice Hansen.

## CLASSIFIED ADVERTISING

Deadline: Friday noon prior to week of publication.

### RULES

1. Limit: 20 words
2. One ad per issue per person
3. Must be submitted in writing
4. Use home telephone numbers
5. For Sandia Corporation and AEC employees only
6. No commercial ads, please

Next Deadline: Noon, Oct. 14

## FOR SALE—

'50 STUDEBAKER 1/2-ton pick-up, new tires \$400, terms. Chavez, ext. 29154.

ENGLANDER Hi-riser studio couch, makes twin beds \$40; Kenmore tank-type vacuum cleaner, cart, attachments \$30. Palmer, Alb. 6-6336.

DELUXE MOSSMAN 3-BR, floor to ceiling glass, fireplace, divided bathroom, 3/4 bath, air conditioned, lawns, \$3000 down. Hess, Alb. 6-8018.

MARLIN Model 39A 22 rifle, lever action, "micro-groove" rifling, or will trade. Dudgeon, Alb. 6-3981.

20-WATT Hi-fidelity amplifier enclosed in metal cabinet, built-in preamplifier, bass and treble controls, used little. Bains, Alb. 6-6950.

'49 PONTIAC, 2 dr., hydramatic, radio, heater. McKinney, Alb. 6-6063.

'49 PONTIAC Chieftain 8 deluxe 4-dr., radio, heater, hydramatic, premium white-walls, \$500, consider cheaper car trade in. McCullar, Alb. 6-2043.

FREEZER, 15-ft. chest-type, commercial motors, less than 2 years old \$175; laundry sink \$5. Adams, 10301 Norman Ave. NE.

BALDWIN Acrosonic piano, 2 years old \$650. Moore, ext. 45186 after 5.

SOFA, modern, 6-ft., \$30. McKay, Alb. 5-1130.

COCKERS, registered, 2-year-old females, one black and white, one black, show and breeding quality, reasonable. Allan, 736 California SE.

TRAILER LOTS in mountains, 20 minutes from base, payments less than trailer park rent, share cost of well. Donaldson, Alb. 5-0960.

MODERN 3-BR in valley, den, hardwood floors, no flooding, 1/2 acre, irrigation, total \$6395. See owner, Chaves, 329 Mesilla NE.

ELECTRIC steam radiator, 8-coil portable \$15; G. E. Mixer \$25. Currie, ext. 28252.

G. E. WASHER, wringer type, sell or trade for TV. Scott, ext. 53284.

'51 STUDEBAKER Starlight Champion, overdrive, R & H, electric windshield wipers \$495. Taylor, Alb. 5-3646.

BABY BED, mattress \$10; playpen \$8; car bed \$4; Schick electric shaver, Dual-head model, starting switch \$16. Garratt, Alb. 6-8370.

SIMMONS single roll-away bed, mattress \$25; drop leaf desk, used \$10; 21 x 23 x 36 standard trunk, used \$5. McCoy, Alb. 5-5824.

AB APT.-SIZE electric range. Fesler, 8902 Phoenix Ave. NE, Alb. 5-6603.

1/2-TON LUGGAGE TRAILER, has sides with canopy, \$70 or best offer; pony saddle, \$35 or best offer. Warnick, Alb. 7-8269.

3-BR HOME, 1 1/2 baths, large fireplace, patio, 2-car garage, walled, landscaped \$26,500. Frankenfeld, 1412 Truman NE, Alb. 5-6344.

30-06 SPRINGFIELD sporterized Bishop stock, Paekmyre swing off mount, swivel sling mounts \$75. McCullar, Alb. 6-2043.

BRICK 3 BR, 1 1/2 bath, water softener, carpeted, blinds, drapes, 60-ft. patio, re-decorated, landscaped. Talley, 2603 Gen. Chennault NE, Alb. 6-6748.

COAT, grey Persian lamb fur, 3/4 length, full sleeves, size 14, \$375, price lower than appraised value. Ware, Alb. 6-7369.

RADIO TUBES, several hundred in and out-of-code date, most in original cartons, 80% off list. Skinner, Ext. 49282.

SET DIETZGEN drawing instruments, \$20; bookcase \$5; baby stroller \$5; 120-watt modulation transformer for P. P. 811's \$4. Neppie, Alb. 5-9341.

LOVESEAT, woman's suitcase, stenciled captain's chair, small lamp, cheap. Southwick, Alb. 5-3312.

MODEL 117 special scintillator, cost \$306, take reasonable offer. Boase, Alb. 6-8020.

BEAGLE PUPPIES, AKC registered, 10 weeks old, \$35. Lane, Ext. 37154 or 9101 Menaul NE.

MAYTAG chest freezer, 14 cu. ft. less than 2 yrs. old \$250. Castillo, Alb. 5-7898.

BEDROOM SUITE (western) dresser, vanity, bed, mattress, springs, \$75. Chuba, Alb. 5-8398.

ELECTRIC RANGE, Estate, automatic, double oven, glass opening, deep well, griddle, \$300. Bacek, 325 Utah SE, Alb. 5-3429.

'51 STUDEBAKER, Land Cruiser, automatic trans., low price, consider camera and deep freeze in trade. \$550. Ansley, Alb. 3-0735.

CONVERTIBLE FORD, 1940, new top, engine, brakes, front end \$95 or best offer. Finders, 8606 Candelaria NE, Alb. 5-4408.

BABY CRIB, lining, mattress \$8, scales \$4. Parks, Alb. 6-7815.

TRANSOCEANIC RADIO, Regina floor waxer, gun rack, Stetson size 7, 4000 downdraft cooler cover, model 12 20 ga. shotgun. Ross, 7713 Hannett NE, ext. 48254.

LAMP, antique original \$55; pair nobleman's Samurai swords, scabbards \$12 each. Smitha, 8607 Menaul, Alb. 6-9493.

WEIMERANER, male, housebroken \$50 or best offer, trade for what have you. Branks, 332 General Hodge NE, ext. 34134.

LIVING ROOM COUCH, chair, 5-yrs. old, make offer. Sanchez, Alb. 5-0033 after 5:30.

BOY'S BICYCLE, 26 in. Ryanczak, Alb. 5-4912.

DOBERMAN PINSCHER, 1 1/2 years old, gentle \$10. Davis, ext. 25250.

TWO BEDROOM HOUSE, attached garage, 15 blocks from N. Gate, low down payment, Edgar, Alb. 5-8209.

MAGIC CHEF RANGE, used, reg. size, table top model, make offer. Shea, Alb. 5-8092 after 5:30.

UPRIGHT IRONER, Firestone. Paul, Alb. 5-0422 after 6.

CHILL, small and regular size strings \$25 to \$5. Lopez, 1631 Five Points Rd. SW.

PIANO, Grasemar Capham \$89. Lopez, Alb. 3-8550.

CAPEHART Hi-Fi set, 4 speakers, blond cabinet, cost \$230 sell for \$179. Heineman, Alb. 5-6240.

HEATHKIT communications receiver, 550 kc to 35 mc with cabinet \$37.50. McGehee, Alb. 6-3486.

COUCH AND CHAIR, rose colored; mahogany buffet. Hoff, Alb. 5-7274.

BABY BUGGY \$15. Miller, Alb. 4-5867.

'51 CHEVROLET 2-dr., radio, heater \$600. Kubiak, Alb. 6-1513.

TWO BEDROOM HOME, attached garage, 2 blocks off Ridgecrest, lawn, trees, wall, terms. Smith, 1206 Jackson St. SE, Alb. 6-1605.

TWO BEDROOM HOME, 2-car garage, \$8,850, \$1000 down, out of flood area. Tharp, 308 Homeland (9200 N. Fourth).

HOFFMAN Deluxe home, 3 bedrooms, 2 baths, walls, sprinklers, carpeting. Little, 2710 Mesa Linda NE, Alb. 6-3768.

ENCYCLOPEDIA, 20 vols., new; complete mobile radio; P-38 9mm pistol; swap or sell, best offer. Harris, Alb. 5-6608.

'50 PACKARD Deluxe, 4 door, R&H, overdrive, automatic clutch, new tubeless tires, new battery \$400, less for cash. Baxter, Alb. 4-1392.

TWO COLEMAN floor furnaces, 35,000 BTU each, with automatic control, both \$135. Hudson, Alb. 6-2137.

FOR RENT—

TWO BEDROOM unfurnished house, carpeting, \$65, 1325 Spence SE, Sanchez, Alb. 5-0033, after 5:30.

LARGE ROOM, has scale, refrigerator, hot water heater, double sink, table, counter, show window \$35. Lopez, Alb. 3-8550.

MODERN 3-BR HOME near bus line. Salazar, Alb. 6-1064.

WANTED—

HOMES for three kittens. Osterby, Alb. 6-8804 after 5.

RIDE from 9114 Fairbanks NE, Hoffmantown, to 892. Ellen Wood, Alb. 6-4989.

RIDE from Garfield and 442 Aliso SE to 892 or south gate. Faye Armijo, Alb. 5-1868 or ext. 33159.

E FLAT SAXOPHONE for reasonable price. McRae, ext. 52192.

RIDE from 1920 Lomas Blvd. NE to 802. Dorothy Parslow, ext. 28237.

DRIVERS to join car pool from vicinity San Pedro NE and Constitution to 880. Kelly, Alb. 5-2133.

RIDE from Coal Ave. and High SE to vicinity of 844. Ann Ashford, Alb. 2-8543 after 5:30.

8 MM. PROJECTOR and screen. Culver, Alb. 3-6290.

**SPECIAL ANTELOPE SEASON** near Beaverhead, N. Mex., found these four Sandians with antelope trophies at end of hunt. L to R: Dale Fastle and Stanley Clayton, both 5216, Emery Whitlow 5231 and Richard Rudolph 5215.

**"IT'S 'D DODGERS!"** cries Steve Farrelly, 2462, to Yankee fan, Bob Ezell, as Dodgers win seventh and crucial game of World Series.

## AIEE Members to Tour TV Studios

Oct. 12, members of the Northern New Mexico section of the American Institute of Electrical Engineers will tour the television studios of KGGM-TV, and KOB-TV at 7:30 p. m. Members are asked to assemble at KGGM at 14th and Coal at 7:30. There will be a short business meeting after the tours.

Tuesday, Oct. 18, D. W. Reeves, president of the Public Service Company of New Mexico will address the group on "Middle Rio Grande Power Pool" at 7:30 p. m.

The meeting will be in Reddy's Rendezvous in the Public Service building at 5th and Silver. Refreshments will be served.

## Golf Tournament Set For Sandians Oct. 9

A Handicap Golf Tournament sponsored by the Sandia Corporation Employees Golf Association will be played Sunday, Oct. 9, on the University of New Mexico course.

Play begins at 10 a. m., and will be completed before noon. Golfers will use their 1955 handicaps as computed for League play. Entries will be accepted until tourney play begins at 10 o'clock Sunday morning.

Golfers posting low gross and low net scores will be awarded trophies.

Further information is available through Larry B. Smith, ext. 29234, and Chet Fornero, ext. 31235.

## Need Bowlers

There are some vacancies in the Tuesday evening Ladies Jewelette Bowling League, according to Lois Sherwood, president of the League.

The League bowls at 6:30 p. m., and 8:30 on Tuesday nights at the Coronado Club lanes. Interested lady bowlers are asked to contact Lois Sherwood, Alb. 6-6750.

RIDER to form car pool from vicinity W. Lomas and 8th or 8th and Central. Castillo, Alb. 2-9601.

BABY FURNITURE in good condition, reasonable. Hicks, Alb. 5-4622.

RIDE from vicinity W. Lavaland to 880. Raye Knoff, Alb. 3-9023.

RIDE from 413 Columbia SE to gate 1 or 6. Helen Cato, Alb. 7-9309.

## Jackpot Bowling League Starting At Club Oct. 15

A new singles and doubles 1300 Jackpot bowling league opens Oct. 15 at the Coronado Lanes, according to Cliff Boxx, 1713, Coronado Club bowling chairman.

All Club members who have bowled a minimum of nine games in a 1955-56 League are eligible to participate. Jackpot bowling is conducted at the Club lanes from 1 to 6 p. m. Saturdays and Sundays.

Tied recently for top honors in doubles Jackpot Bowling with 1296 pins were the teams of Henry Stemporzewski-Bob Angus and Boxx-Ken Lloyd.

## Season's Last Climb To Be Guided by Hank Tendall Oct. 9

The season's last scheduled rock climb of New Mexico Mountain Club will be led by Hank Tendall 1215, Sunday, Oct. 9, in the Sandias.

The group is to meet at 8 a. m. at Nob Hill Drug, 3500 Central Ave. SE, and bring lunch and water. Equipment will be furnished by the club. Trip fee is 50 cents.

## Transistor Use to Be Told to Radio Club

Don Grodsk, field engineer for the Raytheon Manufacturing Company, Los Angeles, will discuss the "Practical Application of Transistors in Receivers" at a meeting of the Sandia Base Radio Club on Oct. 10.

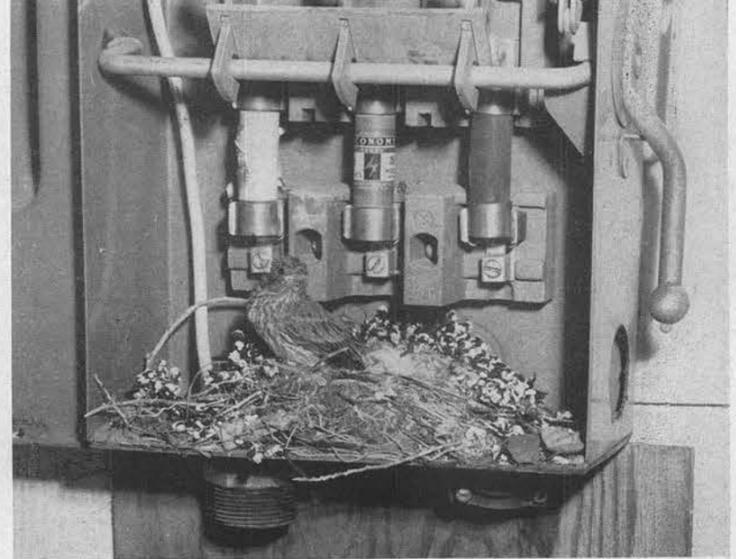

The meeting will be in Building 364 at 8 p. m.

## 1622 Golf Tourney

A one-day golf tournament was held Sept. 11 by 1622 for division members and guests at the University of New Mexico golf course. Winners were: Dick Kidd, Jr. 1283, John Olson 1622, John Puhara 1643, Fred Philipp 1918, and Jack Simpson 1622-3.

**VELVEETA CHEESE** was the bait that landed these rainbow trout in Vallecito, Colo., for (l. to r.) Clyde Northrup 5213, Ferne Saylor 1632, and Rex Elder 5531. Ferne's son, David, took the picture.

**A YOUNGSTER** on the "flight line" is this sparrow, hatched in a nest in the fuse box at the north end of Bldg. 824. Sandians who work in the building have watched the progress of the feathered family this fall and report that the young ones are now completely airborne. Photographer was 5216's Jim Tamer.
